Fatherhood in Contemporary Discourse Anna Pilińska, 2017-05-11 This volume offers a variety of perspectives on contemporary fatherhood: from analyses of literature, film, drama, and popular culture, to issues tackled by psychology, gender studies, and social sciences. Arranged into thematic sections, the chapters cover a wide range of approaches to fatherhood,

including studies and analyses based on fieldwork and interviews with participants. Each chapter discusses various culture-dependent models of masculinity in relation to the topic of fatherhood depicted in works of literary and film art, emphasizing the crucial factors and features which make all these models different from one another and using examples of such cultural contexts as Australia, China, Indonesia, Brazil, and Iran. With the use of methodological tools provided by literature studies, film studies, culture studies, psychology, gender and queer studies, and sociology, the book is a comprehensive insight into current research on both real-life and fictional realizations of fatherhood.

The Financial Independence Marathon Vinod N. Bhat, 2023-01-16 Time is money'. But the opposite is also true, i.e., 'money is time'. Money, if used wisely, gives us the free time to do what makes us happy. It is crucial to understand the concept that money creates time because time is a non-renewable resource. And becoming financially independent is akin to finding a hidden treasure of time. It's similar to discovering a gold mine, because it gives us the ability to live life on our own terms. The key is not to think of financial independence as a goal but as a marathon, which we need to enjoy. This book is an easy, entertaining and actionable guide to becoming financially independent and avoiding any pitfalls on the journey.
