Northern Haida Songs John Enrico,1996-01-01 This book describes the musical culture of the Northern Haida Indians, who speak two closely related dialects. One dialect group lives on Graham Island, British Columbia, the other on Prince of Wales Island, Alaska. The recordings on which the book is based were compiled over a period of more than a decade from a wide variety of historical and contemporary sources. Representing the entire range of the Haida musical tradition-a tradition that nearly died out and is currently being revived-this volume documents its changes over more than a century. Part 1 is a lengthy ethnographic description of musical genres that situates Haida music in the context of the Northwest Coast. Part 2 presents 128 songs, fully transcribed and analyzed and representing some twenty types, ranging from traditional genres such as peace-making and mourning songs to songs of personal expression composed during the modern period. Part 3 is a detailed musical and linguistic analysis of the songs presented in the second part. The integration of descriptions of these two facets of song-music and language-is the particular goal of the book. The volume is a substantive contribution to the ethnomusicology of native North America and will be of special interest to scholars concerned with vocables in Native American music. John Enrico has been engaged in linguistic research on the Haida language since 1975. His publications include The Lexical Phonology of Masset Haida and articles on aspects of Haida grammar. Wendy Bross Stuart's first ethnomusicological publication was Gambling Music of the Coast Salish Indians. In 1980 she began collaborating with John Enrico in the transcription and analysis of Haida songs.

Inari Sámi Folklore August V. Koskimies, Toivo I. Itkonen, 2019-01-15 A rich multivoiced anthology of folktales, legends, joik songs, proverbs, riddles, and other verbal art, this is the most comprehensive collection of Sámi oral tradition available in English to date. Collected by August V. Koskimies and Toivo I. Itkonen in the 1880s from nearly two dozen storytellers from the arctic Aanaar (Inari) region of northeast Finland, the material reveals a complex web of social relations that existed both inside and far beyond the community. First published in 1918 only in the Aanaar Sámi language and in Finnish, this anthology is now available in a centennial English-language edition for a global readership. Translator Tim Frandy has added biographies of the storytellers, maps and period photos, annotations, and a glossary. In headnotes that contextualize the stories, he explains such underlying themes as Aanaar conflicts with neighboring Sámi and Finnish communities, the collapse of the wild reindeer populations less than a century before, and the pre-Christian past in Aanaar. He introduces us to the bawdy humor of Antti Kitti, the didacticism of Iisakki Mannermaa, and the feminist leanings of Juho Petteri Lusmaniemä, emphasizing that folktales and proverbs are rooted in the experiences of individuals who are links in a living tradition.
