Expert authors Terry Albert, vet Deb Eldredge, and breeder Joanne Olivier team up to cover all the questions new owners tend to have and may not think to ask, including: What to ask the breeder before bringing your puppy home. Which vaccinations your puppy needs and when to get them. How to make potty training as smooth (and quick) as possible. What to do when your puppy cries at night. Why and how to crate train your puppy. When socialization should happen and how to make sure it does. When your puppy is ready to learn basic commands-like Sit, Stay, and Come-and the best way to teach them. When and how to go about leash training. How much exercise your puppy needs to stay physically and mentally healthy. What, how much, and when to feed your puppy to give him the nutrition he needs without the extra weight he doesn't. When your puppy is ready for obedience training and how to make sure it works. How and how often to bath your puppy, brush his coat, clip his nails, and brush his teeth. Labrador Retriever Jessica Rudolph,2011-08-01 Labrador retrievers are loving animals who work hard to help their human companions. In this narrative treat for dog lovers, readers will meet Pearl, a black Lab who was trained as a disaster service dog. When a catastrophic earthquake occurred in Haiti in January 2010, Pearl and her handler went to the island country to help search for survivors trapped beneath rubble. Like other Labs, Pearl was focused, energetic, and easy to train, traits that may have come from the breed's ancestors, who got their start helping Canadian fishermen in the 1700s. Today, the loyalty and playful nature of the Labrador retriever has made it the most popular dog breed in the United States. Labrador Retriever: Most Popular is a perfect read for dog lovers that includes amazing, real-life stories about these huge dogs while also recounting the breed's history and how that determined the animal's physical characteristics, personality, and suitability as a pet.
