The Lancer's Wife Guy de Maupassant, 2016-03-30 This early work by Guy de Maupassant was originally published in the 1880's. Guy de Maupassant was born in 1850 at the Château de Miromesnil, near Dieppe, France. He came from a prosperous family, but when Maupassant was eleven, his mother risked social disgrace by trying to secure a legal separation from her husband. After the split, Maupassant lived with his mother till he was thirteen, and inherited her love of classical literature. In 1880, Maupassant published his first - and, according to many, his best - short story, entitled 'Boule de Suif' ('Ball of Fat'). It was an instant success. He went on to be extremely prolific during the 1880s, working methodically to produce up to four volumes of short fiction every year. Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions.

B-1B Lancers Jack David, 2010-08-01 The United States Air Force uses B-1B Lancers as strategic bombers. A B-1B Lancer can carry over 125,000 pounds of bombs! Kids will discover the history of the Lancer, the technology behind it, and how it plays a vital role in the United States Air Force.

*Operation: Lancer* Robert P. Fregault, 2015-11-12 Brian Cahill was a wanted man. He had volunteered for the top secret mission out of a sense of patriotism. But now, those who had recruited him wanted him dead. He was not supposed to survive the mission. The mission had been both high profile and high risk. And, for the powers that had planned it, there could be no loose ends. The risks were too great. Brian Cahill carried a secret that could shake the government to its very core. For four years they had searched for him and for four years he had avoided capture. But now, through a chance encounter, they had found him. He was a liability that had to be eliminated. He would not see them coming and they would offer him no shelter, no quarters. They would tighten the noose and the terrible secret that he possessed would die with him. At least that was the plan.

*The Polish Lancer; Or 1812; a Tale of Napoleon's Invasion of Russia* Heinrich Friedrich Ludwig Rellstab, 1853

*(The Complete Story Of) The Lancer Affair* Arthur Fiore, 2002-04 A story about a group of people, their relationships, their friendships, their secrets...and more.

*B-1B Lancer Units in Combat* Thomas Withington, 2012-11-20 The development of the B-1B Lancer bomber was difficult to say the least. Originally conceived to fulfill a USAF requirement for an Advanced Manned Strategic Aircraft, the original B-1A concept aircraft was accused of being a white elephant, capable of performing nothing which could not be achieved at less financial and human expense than an intercontinental ballistic missile. Cancelled by the Carter administration and finally commissioned by President Reagan as the modified B-1B, the Lancer began its duties as a nuclear-armed bomber in the mid-1980s. The end of the Cold War intervened and the jet was removed from its nuclear missions as a result of arms control legislation. However, the 1990s saw the metamorphosis of the Lancer into a potent conventional weapons carrier which has seen action in Iraq, the Balkans and Afghanistan. The Lancer has proved its critics wrong in demonstrating its use as a highly flexible and hard-working bomber, able to undertake diverse missions ranging from CAS to the targeting of weapons-of-mass-destruction installations.

**The Polish lancer; or, 1812** Heinrich Friedrich Ludwig Rellstab, 1853

**The B-1 Lancer** Amy Sterling Casil, 2002-12-15 An examination of the machinery, specifications, technology, and capabilities of the B-1B with a discussion of the plane's early development, combat history, and likely future.

*Phoenix Prime* Ted White, 2011-09-29 The dream of being a superman came true for Max Quest - and immediately turned into a nightmare. He was not alone. There were Others with extraordinary powers, and the last thing they wanted was another superman on Earth - especially one working for good instead of evil. They couldn't kill him. But they could send him . . . elsewhere. Elsewhere was the viciously hostile world of Qanar, where Max's powers didn't work and sorcery was a more potent weapon than science, where shadows were as menacing as steel. Max Quest still had to save Earth from the corrupt threat of the Others - but he found his destiny intricately linked with that of Qanar as well. And somewhere in space-time was his lost love . . .

**B-1 Lancer** Dennis R. Jenkins, 2002-04 This volume profiles the Boeing North American B-1 Lancer, the last mass-produced strategic bomber in the US, sporting the most complex mechanical and electronic systems of any warplane ever developed. The book includes detailed explanations of technologically advanced flight and warfare avionics and descriptions of abilities and limitations evolving through changing missions and modifications.

**Target Lancer** Max Allan Collins, 2013-10 When a favor for a friend leads to the murder of a Mafia contact, Nathan Heller, a 1960s private investigator with contacts in the government and mob, uncovers a dire conspiracy to assassinate JFK.

*Conquering Shame and Codependency* Darlene Lancer, 2014-05-16 A nationally recognized author and codependency expert examines the roots of shame and its connection with codependent relationships. Learn how to heal from their destructive hold by implementing eight steps that will empower the real you, and lead to healthier relationships. Shame: the torment you feel when you're exposed, humiliated, or rejected; the feeling of not being good enough. It's a deeply painful and universal emotion, yet is not frequently discussed. For some, shame lurks in the unconscious, undermining self-esteem, destroying confidence, and leading to codependency. These codependent relationships—where we overlook our own needs and desires as we try to care for, protect, or please another—often cover up abuse, addiction, or other harmful behaviors. Shame and codependency feed off one another, making us feel stuck, never able to let go, move on, and become the true self we were meant to be. In *Conquering Shame and Codependency*, Darlene Lancer sheds new light on shame: how codependents' feelings and beliefs about shame affect their identity, their behavior, and how shame can corrode relationships, destroying trust and love. She then provides eight steps to heal from shame, learn to love yourself, and develop healthy relationships.

**The Lives of a Bengal Lancer** Francis Yeats-Brown, 1958 Autobiography of a British cavalry

officer in pre-war India and on the western front, who later became a member of the Royal flying corps in Mesopotamia. The closing chapters concern his subsequent travels in India and give his interpretation of the Hindu philosophy through the medium of his own personal experience.
