

Lancia

Giancarlo Reggiani

Lancia 037 Peter Collins, 2008-03-15 The world of rallying was changed forever on January 1st 1982 with the introduction of the new Group B rules. These virtually gave manufacturers carte blanche to design the fastest car they could for world rally special stages, so long as they built at least 200 identical examples. This is the story of Lancia's mid-engined and supercharged rally. The reader is taken from initial thinking about the car and conception, through development to the full history of its rallying lifetime with the help of the car designer and chief engineer, Ing Sergio Limone. Featuring many of Limone's own photographs during development, and interviews with team members. Illustrated with 250 stunning and rare rally action photos.

Lancia Brian Long, 1999 This illustrated history of Lancia tells the story of the long line of distinctive cars produced by this famous Italian company from its foundation in 1906 to the beginning of the 21st century. The evolution of Lancia's cars and other vehicles forms the core of the narrative, but the author also offers an insight into the dominating personalities who shaped Lancia's history. He describes, too, the company's successes and the set-backs it has suffered while playing a key role in the European car industry since 1906. The author brings his detailed account up to date by looking at Lancia's latest models and at the position of this notable marque in the huge Fiat empire.

Lancia Stratos Graham Robson, 2007-02-01 This book describes the birth, development and rallying career of the Lancia Stratos, Europe's very first purpose-built rally car, in the mid/late 1970s, providing a compact and authoritative history of where, when and how it became so important to the sport. Written by a world renowned motoring historian and heavily illustrated, this is a key work of this subject.

Lancia Rally Sergio Remondino, 2023-02-14 Following the book Lancia Rally Group B, Sergio Remondino has returned to the rallying world with a book examining the golden age of Lancia in the World Rally Championship. We start in the early 1960s, when a numerous group of enthusiasts began using Lancia cars - Appia, Flavia and even Flaminia - for the road races of the time, the forerunners of the rallies that were to come. The creation of HF at the behest of Cesare Fiorio, together with the advent of the Fulvia, created an authentic watershed and the definitive consecration of the Lancia marque on a global level. Between 1962 and 1982, Lancias conquered one Constructors' title and four European Championships, three Constructors' World Championships and two FIA Drivers' cups, writing indelible chapters in the history of the sport, thanks to drivers and cars of absolute excellence, all of which relive in this invaluable book.

Lancia Delta 4X4/Integrale Graham Robson, 2010-08-01 This book explains how the HF 4WD evolved over the years - first into the Integrale with its original 8-valve engine, then the Integrale 16V, and ultimately into the Integrale 16V Evo 1 (or 'Deltona', as it was affectionately known). This compact, five-door Lancia dominated world-class rallying for six years, winning innumerable events, World Championships for Drivers, and World Championships for Manufacturers. Alongside the cars, driving heroes such as Markku Alan, Didier Auriol, Miki Biasion, Juha Kankkunen and Carlos Sainz also became legendary in this period.

Lancia and de Virgilio Geoffrey Goldberg, 2021-01-15 engineering and design history of Lancia, an Italian automotive company through the papers of one of their leading engineers, Francesco De Virgilio. A look at the design process from inside the company; also includes detailed Lancia family history as owners of the company; a look at post-war Italian industrial processes, from a broad based cultural perspective.

Lancia Delta Integrale Peter Collins, 2021-08-15 This book records the complete history of the Lancia Delta Integrale - one of the best known and most successful rally cars of all time. This brand new, updated edition includes the background and history of the model, the complete story of the road cars, and covers all the special editions of the Integrale - a vital aspect of the story. The Integrale's motorsport history is featured, detailing events, along with the development of factory prepared Integrales. Valuable information was provided by Sergio Limone, the chief engineer, and the late Giorgio Pianta, the chief test driver, from Turin in Italy. These cars are now highly sought-after, and are turning ever more heads as the years pass. Lancia Delta Integrale, produced in full colour with original photographs, is a fitting tribute to this iconic car.

Lancia 037 Peter Collins, 2017-10-17 In the late 1970s, the problem facing any manufacturer taking part in the World Rally Championship was that the rules kept being changed at short notice. This book looks at the solutions found for Lancia's rally car, the 037, and takes the reader through the new rules that all potential contenders would have to consider if they wanted to win rallies at World Championship level. Lancia's Rally was developed quickly to deal with the then-dominant Audi Quattro. The reasons it succeeded are featured here, along with an in-depth, behind-closed-doors look at the development of the car, with the close help and cooperation of its designer and chief engineer, Ing. Sergio Limone. Here you can read how he decided on the basic configuration of the car, what the rules would allow, and how the project unfolded in total secret at Fiat's various test tracks and centres in and around Turin, overlaid with rumour and counter-rumour as the world's motoring press tried to make sense of what little knowledge it had of the project's progress. In addition, Ing. Limone's own photographs from areas never accessed by the public tell their own story. The focus then moves to the world of top-level rallying, with all the associated glory and

headaches. Accompanied by stunning photography and insights from team members, we follow the small and nimble 037s, as the cars have become popularly known, as they head out to take the World Rally Championship for Makes in 1983 and innumerable wins throughout the world. In addition, there are tests of various key examples of the cars, and appendices of events and chassis used. This book is illustrated with 250 stunning and rare rally action photos.

Lancia Competition Cars Giancarlo Reggiani, 2001 This book is a celebration of Lancia's 50 glorious years of motor racing history and the cars that created it, including the D50, the LC2 and the all-conquering Deltas, winners of so many World Rally Championships. Lancia's cars are profiled, fully described with detailed technical specifications and illustrated with spectacular color pictures.

Lancia Aurelia In Detail Niels Jonassen, 2007-01-02 Lancia's V6-engined Aurelia series of the 1950s - GT, Spyder and Saloon - remain among the most beautiful cars ever made. Quintessentially Italian, they were technically advanced and fast, with taut handling. All variants are examined, with descriptions of design and engineering features, production changes, special-bodied examples and the story of the cars' illustrious competition career.

Lancia Integrale Peter Collins, 2004-04-11 The Lancia Delta Integrale is one of the best known and most successful rally cars there has ever been. Dominating the sport after the demise of Group B, the Integrale led the field from the mid-eighties to the early nineties. But these potent rally machines weren't just available to professional rally drivers. Because of the homologation rules that demanded that all Group A cars be taken from a production run of at least 1000 cars intended for sale to the general public, every new incarnation of the rally machine made another batch of road-going clones available. These cars - every bit as exciting as their off-road sisters - were and still are highly sought-after.

Lancia Sporting Coupes Brian Long, 2003-08-31 Lancia had built sporting cars from its foundation in 1907, but the first of a long line of distinguished sporting coupes was launched in 1951. The famous and beautiful Aurelia B20 set a trend for fine true GT cars that Lancia would continue into the 1980s. This book collects together the history of all those great cars, from the B20 to the recent Gamma and Kappa, for the first time. Including exhaustive specifications and a wealth of period photographs, this is a book no Lancia enthusiast will want to be without.

Lancia Delta & HF Integrate Ultimate Portfolio R.M. Clarke, 2001-10-04 Lancia's Delta first appeared in 1979 and was a family-sized hatchback with equipment levels that marked it out as a pocket-sized luxury car. With sharp styling by Giugiaro of Ital Design, stood apart from other small cars. Its handling was typically Lancia sporting. There were several development changes but in 1986 the first HF 4WD appeared - which later became the Integrale. The Deltas soon dominated the international rally scene and many road going versions were soon available through the showrooms which offered exhilarating everyday motoring. 64 articles cover the Delta, HF Turbo, HF 4WD, integrale and Prisma. Included are road and comparison tests, new model introductions, updates and advice on buying a used example.

Lancia Stratos. Ediz. inglese Andrea Curami, 2003 The Stratos prototype made its debut in 1970 at the Bertone stand of the Turin Motor Show. It immediately raised curiosity and surprise among the visitors, but a half-hearted interest by the Lancia company. One year later, the new Lancia Stratos was finally produced to comply with the needs of the Lancia Racing Team. The car was completely different, although having the same glamour and appeal, it turned out to be perfect to compete in rallies. For 6 consecutive years it became the car to defeat, winning three World Championships (1974, 1975 and 1976). The reader will find the history, the evolution, the

competitions as well as the drivers' profiles.

Lancia Delta HF Integrale Werner Blaettel, 2007-08-15 If one car has gained cult status it must surely be the Lancia Delta HF Integrale. It's about time someone compiled its thrilling history and told the story of this thrilling, innovative vehicle. This book covers the cars exceptional Rally success as well as its appeal as a road car. It provides all the relevant information on the evolution of the ordinary Delta into the powerful, technically complex and aggressive racing machine which consistently won the Rally world championship from 1987 to 1992. 400 spectacular photographs, full Rally results listings and exhaustive technical specifications make this book a must for any Rally fan.

Lancia Delta Nigel Trow, 1993 Follows the complete history of the Lancia Delta, both in production and in competition. The model was one of the first hot hatches, and the most successful rally car of the late 1980s.

Lancia Loraymo Brandes Elitch, 2016-12-14 A limited-edition book about cars designed by Raymond Loewy. Book focuses on his design of a one-off Lancia called the Loraymo that he had built for himself. It then follows an intriguing trail of how it changed hands, then disappeared for a time only to be reappear in a junkyard twenty years later. The wrecked car was later gifted to Lancia in Italy by the US Lancia Club for their collection in Turin Italy. Today it is fully restored. A fascinating tale about American car design since 1930!

Lancia Beta, 1972-84, 1993-12 The Beta, announced at the Turin Motor Show in 1972, was the first new Lancia model since the take over by Fiat in 1969. Initially only saloons with 1600cc and 1800cc engines were available, but a 1400cc model was added in 1973. 1974 saw the expansion of the range with a coupT, and spider followed by the Montecarlo coupT and the HPE sports estate in 1975.
