*Lancia 037* Peter Collins, 2008-03-15 The world of rallying was changed forever on January 1st 1982 with the introduction of the new Group B rules. These virtually gave manufacturers carte blanche to design the fastest car they could for world rally special stages, so long as they built at least 200 identical examples. This is the story of Lancia's mid-engined and supercharged rally. The reader is taken from initial thinking about the car and conception, through development to the full history of its rallying lifetime with the help of the car designer and chief engineer, Ing Sergio Limone. Featuring many of Limone's own photographs during development, and interviews with team members. Illustrated with 250 stunning and rare rally action photos.

**Lancia 037** Peter Collins, 2017-10-17 In the late 1970s, the problem facing any manufacturer taking part in the World Rally Championship was that the rules kept being changed at short notice. This book looks at the solutions found for Lancia's rally car, the 037, and takes the reader through the new rules that all potential contenders would have to consider if they wanted to win rallies at World Championship level. Lancia's Rally was developed quickly to deal with the then-dominant Audi Quattro. The reasons it succeeded are featured here, along with an in-depth, behind-closed-doors look at the development of the car, with the close help and cooperation of its designer and chief engineer, Ing. Sergio Limone. Here you can read how he decided on the basic configuration of the car, what the rules would allow, and how the project unfolded in total secret at Fiat's various test tracks and centres in and around Turin, overlaid with rumour and counter-rumour as the world's motoring press tried to make sense of what little knowledge it had of the project's progress. In addition, Ing. Limone's own photographs from areas never accessed by the public tell their own story. The focus then moves to the world of top-level rallying, with all the associated glory and headaches. Accompanied by stunning

photography and insights from team members, we follow the small and nimble 037s, as the cars have become popularly known, as they head out to take the World Rally Championship for Makes in 1983 and innumerable wins throughout the world. In addition, there are tests of various key examples of the cars, and appendices of events and chassis used. This book is illustrated with 250 stunning and rare rally action photos.

**Lancia Rally Group B** Sergio Remondino, Sergio Limone, 2021-09-30 The Group B cars marked one of the most thrilling yet most tragic periods in the history of world rallying and beyond. The 037, the S4, the EVC and the ECV2, ephemeral player of a still-born Group S, were the unforgettable protagonists of the 1982-1986 seasons that for the Lancia marque were constellated by a series of World, European and Italian titles, but also by terrible accidents that cost the lives of Attilio Bettega, Henri Toivonen and Sergio Cresto. Sergio Remondino, a historic journalist and great expert in the multifaceted field of rallying, traces that unforgettable era, year by year, through a text rich in anecdotes and thanks to the contribution of the engineer Sergio Limone, one of the artificers of the Group B cars. This invaluable book is completed by the evocative images of Reinhard Klein, one of the most successful rallying photographers.

Valuable information was provided by Sergio Limone, the chief engineer, and the late Giorgio Pianta, the chief test driver, from Turin in Italy. The cars are now highly sought-after, and are turning ever more heads as the years pass. This book, produced in full color with original photographs, is a fitting tribute to this iconic car.

Lancia and de Virgilio Geoffrey Goldberg, 2021-01-15 engineering and design history of Lancia, an Italian automotive company through the papers of one of their leading engineers, Francesco De Virgilio. **Fiat 131 Abarth** Graham Robson, 2008-12-15 When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

**Alfa Romeo Tipo33** Peter Collins, Ed McDonough, 2006-03-18 At the time, little was recorded about the activities of Alfa Romeo's World Championship-winning Sports Racing car, the Tipo 33. The model had a long career, as a factory car as well as in private hands from 1967 until 1977. Great Italian motorsport engineer Carlo Chiti designed and ran a prolific number of different models of the Tipo. Unfortunately, nothing of the history of these developments was documented at the time, but the author has managed, after intense investigation and numerous personal interviews, to uncover much about this marvelous sports prototype.
