Lancia 037 Peter Collins,2008-03-15 The world of rallying was changed forever on January 1st 1982 with the introduction of the new Group B rules. These virtually gave manufacturers carte blanche to design the fastest car they could for world rally special stages, so long as they built at least 200 identical examples. This is the story of Lancia's mid-engined and supercharged rally. The reader is taken from initial thinking about the car and conception, through development to the full history of its rallying lifetime with the help of the car designer and chief engineer, Ing Sergio Limone. Featuring many of Limone's own photographs during development, and interviews with team members. Illustrated with 250 stunning and rare rally action photos.

Lancia 037 Peter Collins,2017-10-17 In the late 1970s, the problem facing any manufacturer taking part in the World Rally Championship was that the rules kept being changed at short notice. This book looks at the solutions found for Lancia's rally car, the 037, and takes the reader through the new rules that all potential contenders would have to consider if they wanted to win rallies at World Championship level. Lancia's Rally was developed quickly to deal with the then-dominant Audi Quattro. The reasons it succeeded are featured here, along with an in-depth, behind-closed-doors look at the development of the car, with the close help and cooperation of its designer and chief engineer, Ing. Sergio Limone. Here you can read how he decided on the basic configuration of the car, what the rules would allow, and how the project unfolded in total secret at Fiat's various test tracks and centres in and around Turin, overlaid with rumour and counter-rumour as the world's motoring press tried to make sense of what little knowledge it had of the project's progress. In addition, Ing. Limone's own photographs from areas never accessed by the public tell their own story. The focus then moves to the world of top-level rallying, with all the associated glory and headaches. Accompanied by stunning photography and insights from team members, we follow the small and nimble 037s, as the cars have become popularly known, as they head out to take the World Rally Championship for Makes in 1983 and innumerable wins throughout the world. In addition, there are tests of various key examples of the cars, and appendices of events and chassis used. This book is illustrated with 250 stunning and rare rally action photos.

Fiat 131 Abarth Graham Robson, 2008-12-15 When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

Lancia Delta Integrale Peter Collins, 2021-08-15 This book records the complete history of the Lancia Delta Integrale - one of the best known and most successful rally cars of all time. This brand new, updated edition includes the background and history of the model, the complete story of the road cars, and covers all the special editions of the Integrale - a vital aspect of the story. The Integrale's motorsport history is featured, detailing events, along with the development of factory prepared Integrales. Valuable information was provided by Sergio Limone, the chief engineer, and the late Giorgio Pianta, the chief test driver, from Turin in Italy. These cars are now highly sought-after, and are turning ever more heads as the years pass. Lancia Delta Integrale, produced in full colour with original photographs, is a fitting tribute to this iconic car.

Lancia Rally Group B Sergio Remondino, Sergio Limone, 2021-09-30 The Group B cars marked one of the most thrilling yet most tragic periods in the history of world rallying and beyond. The 037, the S4, the EVC and the ECV2, ephemeral player of a still-born Group B, were the unforgettable protagonists of the 1982-1986 seasons that for the Lancia marque were constellated by a series of World, European and Italian titles, but also by terrible accidents that cost the lives of Attilio Bettega, Henri Toivonen and Sergio Cresto. Sergio Remondino, a historic journalist and great expert in the multifaceted field of rallying, traces that unforgettable era, year by year, through a text rich in anecdotes and thanks to the contribution of the engineer Sergio Limone, one of the artificers of the Group B cars. This invaluable book is completed by the evocative images of Reinhard Klein, one of the most successful rallying photographers.

The Complete Book of the World Rally Championship Henry Hope-Frost, John Davenport, 2004 For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

Lancia Stratos Graham Robson, 2007-02-01 This book describes the birth, development and rallying career of the Lancia Stratos, Europe's very first purpose-built rally car, in the mid/late 1970s, providing a compact and authoritative history of where, when and how it became so important to the sport. Written by a world renowned motoring historian and heavily illustrated, this is a key work of this subject.

Lancia Delta 4X4/Integrale Graham Robson, 2010-08-01 This book explains how the HF 4WD evolved over the years - first into the Integrale with its original 8-valve engine, then the Integrale 16V, and ultimately into the Integrale 16V Evo 1 (or 'Deltone', as it was affectionately known). This compact, five-door Lancia dominated world-class rallying for six years, winning innumerable events, World Championships for Drivers, and World Championships for Manufacturers. Alongside the cars, driving heroes such as Markku Alan, Didier Auriol, Miki Biasion, Juha Kankkunen and Carlos Sainz also became legendary in this period.

Dario Cerrato Marco Cariati, Gian Domenico Lorenzet, 2023-10-18 Per tutti nell'ambiente conosciuto come il "Coguaro di Cornelianò d'Alba", Dario Cerrato è stato uno dei piloti italiani più rappresentativi nel rallismo per quasi vent'anni, dalla metà degli anni Settanta ai primi Novanta. Dopo essersi fatto le ossa con la Opel, la stella di Cerrato inizia a brillare con le Lancia: 037, Delta S4 e 4WD, vetture con le quali Dario si aggiudica quattro Campionati italiani e per tre volte vince l'Europeo, nel 1985, nel 1987 e nel 1990, sempre "navigato" dall'amico Geppi Cerri. Pur non avendo mai conquistato una prova con validità iridata, Cerrato è stato protagonista anche nel Mondiale con un secondo posto al Rally di Sanremo del 1986 quale miglior risultato. Questo libro ripercorre per la prima volta tutta la sua carriera agonistica senza tralasciare l'aspetto umano, quello di un uomo che ha da raccontare molto anche al di fuori delle corse. We start in the early 1960s, when a numerous group of enthusiasts began using Lancia cars - Appia, Flavias and even Flaminias - for the road races of the time, the forerunners of the rallies that were to come.
