

Lancia Rally 037

Sergio Remondino, Sergio Limone

Lancia 037 Peter Collins, 2008-03-15 The world of rallying was changed forever on January 1st 1982 with the introduction of the new Group B rules. These virtually gave manufacturers carte blanche to design the fastest car they could for world rally special stages, so long as they built at least 200 identical examples. This is the story of Lancia's mid-engined and supercharged rally. The reader is taken from initial thinking about the car and conception, through development to the full history of its rallying lifetime with the help of the car designer and chief engineer, Ing Sergio Limone. Featuring many of Limone's own photographs during development, and interviews with team members. Illustrated with 250 stunning and rare rally action photos.

Lancia 037 Peter Collins, 2017-10-17 In the late 1970s, the problem facing any manufacturer taking part in the World Rally Championship was that the rules kept being changed at short notice. This book looks at the solutions found for Lancia's rally car, the 037, and takes the reader through the new rules that all potential contenders would have to consider if they wanted to win rallies at World Championship level. Lancia's Rally was developed quickly to deal with the then-dominant Audi Quattro. The reasons it succeeded are featured here, along with an in-depth, behind-closed-doors look at the development of the car, with the close help and cooperation of its designer and chief engineer, Ing. Sergio Limone. Here you can read how he decided on the basic configuration of the car, what the rules would

allow, and how the project unfolded in total secret at Fiat's various test tracks and centres in and around Turin, overlaid with rumour and counter-rumour as the world's motoring press tried to make sense of what little knowledge it had of the project's progress. In addition, Ing. Limone's own photographs from areas never accessed by the public tell their own story. The focus then moves to the world of top-level rallying, with all the associated glory and headaches. Accompanied by stunning photography and insights from team members, we follow the small and nimble 037s, as the cars have become popularly known, as they head out to take the World Rally Championship for Makes in 1983 and innumerable wins throughout the world. In addition, there are tests of various key examples of the cars, and appendices of events and chassis used. This book is illustrated with 250 stunning and rare rally action photos.

Lancia Rally Group B Sergio Remondino, Sergio Limone, 2021-09-30 The Group B cars marked one of the most thrilling yet most tragic periods in the history of world rallying and beyond. The 037, the S4, the EVC and the ECV2, ephemeral player of a still-born Group S, were the unforgettable protagonists of the 1982-1986 seasons that for the Lancia marque were constellated by a series of World, European and Italian titles, but also by terrible accidents that cost the lives of Attilio Bettega, Henri Toivonen and Sergio Cresto. Sergio Remondino, a historic journalist and great expert in the multifaceted field of rallying, traces that

unforgettable era, year by year, through a text rich in anecdotes and thanks to the contribution of the engineer Sergio Limone, one of the artificers of the Group B cars. This invaluable book is completed by the evocative images of Reinhard Klein, one of the most successful rallying photographers.

Fiat 131 Abarth Graham Robson, 2008-12-15 When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

Lancia and de Virgilio Geoffrey Goldberg, 2021-01-15 engineering and design history of Lancia, an Italian automotive company through the papers of one of their leading engineers, Francesco De Virgilio. A look at the design process from inside the company; also includes detailed Lancia family history as owners of the company; a look at post-war Italian industrial processes, from a broad based cultural perspective.

Lancia Delta HF Integrale Werner Blaettel, 2007-08-15 If one car has gained cult status it must surely be the Lancia Delta HF Integrale. It's about time someone compiled its

thrilling history and told the story of this thrilling, innovative vehicle. This book covers the cars exceptional Rally success as well as its appeal as a road car. It provides all the relevant information on the evolution of the ordinary Delta into the powerful, technically complex and aggressive racing machine which consistently won the Rally world championship from 1987 to 1992. 400 spectacular photographs, full Rally results listings and exhaustive technical specifications make this book a must for any Rally fan.

The Complete Book of the World Rally Championship Henry Hope-Frost, John Davenport, 2004 For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by

stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

Lancia Stratos Graham Robson, 2007-02-01 This book describes the birth, development and rallying career of the Lancia Stratos, Europe's very first purpose-built rally car, in the mid/late 1970s, providing a compact and authoritative history of where, when and how it became so important to the sport. Written by a world renowned motoring historian and heavily illustrated, this is a key work of this subject.

Lancia Delta Integrale Peter Collins, 2021-08-15 This book records the complete history of the Lancia Delta Integrale - one of the best known and most successful rally cars of all time. This brand new, updated edition includes the background and history of the model, the complete story of the road cars, and covers all the special editions of the Integrale - a vital aspect of the story. The Integrale's motorsport history is featured, detailing events, along with the development of factory prepared Integrales. Valuable information was provided by Sergio Limone, the chief engineer, and the late Giorgio Pianta, the chief test driver, from Turin in Italy. These cars are now highly sought-after, and are turning ever more heads as the years pass. Lancia Delta Integrale, produced in full colour with original photographs, is a fitting tribute to this iconic car.

Supercars Craig Cheetham, 2006 Contains color photographs that provide multiple views of exotic, powerful, and expensive cars built by twenty-seven

manufacturers, each with a brief description, a look under the hood, a list of milestones, and specifications.

Peugeot 205 T16 Graham Robson, 2016-01-21 Four-wheel-drive was authorised in rallying from 1979, but for a time no serious car-manufacturer even tried to harness it to their cars. Soon, though, it was Audi who produced the world's first rally-winning four-wheel-drive car the Quattro. However it was Peugeot who designed, developed, campaigned and won with the first truly sophisticated four-wheel-drive Group B Car the 205 Turbo 16. It was the first truly great, purpose-designed, Group B car. Determined to win at almost any cost, Peugeot hired Jean Todt (who would later transform the fortunes of the Ferrari F1 organisation) in 1981, and set him an ambitious target. His dream car had to be running in 1983, homologated in 1984, and capable of winning World Championships by 1985. Nothing, no excuses and no lack of application, was to get in the way of that. Apart from being obliged to use the silhouette of the still-secret new 205 road car, Todt was able to ask for anything. Getting approval for whatever he needed and fast-tracking the engineering of the four-wheel-drive rally was not an issue in reaching one simple objective: victory. This is precisely what was achieved. This book tells the detailed story, and lists all the cars, the influences, and the personalities behind a magnificent success story. No sooner had the new turbocharged, transverse-mid-engined car started competing than it was ready to win, yet its dominant career was cut short at the end of 1986 by an abrupt change in

rallying regulations. Not only is the engineering story laid out in great detail, but the interaction between company personalities, super-star drivers (including Ari Vatanen) and the highly-charged atmosphere of motorsport at this time is all analysed. Because Group B was cancelled even before the 205 T16 had reached maturity, it went on to have a successful career in desert Raid rallies, and at Pike Peak in the USA, all of which is described in this amazingly authoritative study. Packed with illustrations, technical details, facts, figures and successes of this innovative car this book is a must for any rally fan.

The Volvo Estate Ashley Hollebone, 2022-01-12 A dedicated publication that explains the history of the world's most versatile station wagon, a global workhorse and comfortable family vehicle. Sweden's answer to Germany's people's car arrived some 20 years earlier, and quickly paved the way for safe and dependable vehicles. This book chronicles the evolution of the Volvo estate car, with every model featured. Whether you are a Volvo lover or just have a general interest in cars, this book offers an informative and interesting look into a car that has had very little media coverage, despite its vast global sales success and the affection with which it is held by so many. This new edition has been updated with details of the latest models in 2019.

Rally Cars Reinhard Klein, David Williams, John Davenport, Colin McMaster, 2000 Beschrijvingen en foto's van de rally's die vanaf 1960 zijn gereden. Met aandacht voor de verschillende raceauto's.

Twin Cam Italia Phil Ward, 2003-07-21 Offers vital advice for anyone seeking or owning any of these classic Italian cars: highlights the cars to buy and how to look after them. A huge variety of Italian cars have one important thing in common - the famous Twin Cam engine designed by Aurelio Lampredi. One of the most successful passenger car power units of all time, with a production lifespan of 32 years, it has also powered drivers to many victories on race tracks and rally stages, from minor club events to world championships. Owners and enthusiasts of these and all the other cars powered by the Lampredi Twin Cam engine will find much to delight them in this major expansion of Phil Ward's earlier book, *Fiat and Lancia Twin-Cams*.

Alfa Romeo 155/156/147 Competition Touring Cars Peter Collins, 2012-09-03 After saving Alfa Romeo from oblivion in 1987, it took Fiat nearly five years to debut the first new Alfa produced under its control. This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to many championship titles and race wins. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.
