Go Like Hell Albert J. Baime,2009 By the early 1960s, the Ford Motor Company, built to bring automobile transportation to the masses, was falling behind. Young Henry Ford II, who had taken the reins of his grandfather's company with little business experience to speak of, knew he had to do something to shake things up. Baby boomers were taking to the road in droves, looking for speed not safety, style not comfort. Meanwhile, Enzo Ferrari, whose cars epitomized style, lorded it over the European racing scene. He crafted beautiful sports cars, science fiction on wheels, but was also called the Assassin because so many drivers perished while racing them. Go Like Hell tells the remarkable story of how Henry Ford II, with the help of a young visionary named Lee Iacocca and a former racing champion turned engineer, Carroll Shelby, concocted a scheme to reinvent the Ford company. They would enter the high-stakes world of European car racing, where an adventurous few threw safety and sanity to the wind. They would design, build, and race a car that could beat Ferrari at his own game at the most prestigious and brutal race in the world, something no American car had ever done. Go Like Hell transports readers to a risk-filled, glorious time in this brilliant portrait of a rivalry between two industrialists, the cars they built, and the pilots who would drive them to victory, or doom.

Le Mans 1930-39 Quentin Spurring,2017-12-05 Officially licensed with the ACO, the organisers of the annual Le Mans 24 Hours race, this sumptuous book is the seventh title in this decade-by-decade series and completes coverage of the endurance classic from its very beginning to the end of the 20th century. This title covers the nine races of the 1930s (no race was held in 1936) in which honours were divided between Italian, French and British manufacturers. Each race is exhaustively covered in vivid photographs, an insightful commentary providing more detailed information than has ever been published about the period, and full statistics. Compiled by an acknowledged authority of this legendary race, this series of books is treasured by all enthusiasts of sports car racing. In the 1930 race Bentley achieved its fourth consecutive success, Woolf Barnato and Glen Kidston the winning drivers in the very same 'Speed Six' with which they had won in 1929. Two of Britain's greats of the era, Earl Howe and Henry Birkin, won for Alfa Romeo in 1931, beginning a four-race victory streak for the Italian manufacturer. Tazio Nuvolari, the outstanding Grand Prix ace of the pre-war decade, secured an intensely dramatic last-lap victory in 1933 in the closest Le Mans finish to date. Lagonda (1935) and Delahaye (1938) secured a win each, while Bugatti took two with the great Jean-Pierre Wimille driving its innovative Type 57 'Tank' cars, with all-enclosing bodywork. Highly detailed year-by-year treatment of the decade's nine races, giving unprecedented depth of information and photographic coverage for each year. Official status provides a number of unique features, including the reproduction of photographs and full-colour race poster artwork from the ACO's archives. Complete data for each year includes technical regulations, entry list, circuit changes (with diagram), full results and category awards. The whole work is beautifully designed and presented.

Le Mans 1960-69 Quentin Spurring,2014-09-15 This was the defining decade for the Le Mans 24 Hours. It started with six consecutive victories by Ferrari, overwhelming Aston Martin and Maserati. But then Ford threw its all-American dollars at the race and won it four times in a technically exciting period that also brought the competitive emergence of brands such as Alfa Romeo, Matra, Porsche and Renault. The participation of great automobile manufacturers spurred the development of many iconic racing cars: Ferrari Testa Rossa and GTO, Ford GT40 and Daytona Cobra, Porsche 904 and 917. The machines that were specially built for Le Mans evolved through the decade from front-engined brutes to mid-engined monsters. By the end of the period, many of them could achieve more than 200mph on the awesome straights that defined the race, thrilling as many as 300,000 spectators at trackside. - Highly detailed year-by-year coverage of the decade's ten races, giving over 30 pages of information and photographs for each year. - Official status provides a number of unique features, including the reproduction of the full-colour race poster artwork for each year and photographs from the ACO's archives. - The images include rare color, and the emphasis is on photographs that enthusiasts will not have seen before. - The story of each race is told through photographs and an accompanying commentary. - Complete data for each year includes technical regulations, entry list, circuit changes (with diagram), lap chart, full results and category awards. - The whole work is beautifully designed and presented. - The 1960s was the decade of Ferrari and Ford: the Italian manufacturer took six consecutive wins until Ford finally came good, winning the decade's other four races, including the 1969 thriller that saw the closest ever finish at Le Mans.

24 Hours of Le Mans Kate Mikoley,2020-07-15 For many automobile races, the winner is the person who drives a set distance the fastest, but for the 24 Hours of Le Mans, it's all about who can travel the farthest in 24 hours. This informative volume presents an exciting overview of what it's like to compete in this intense race. Striking photographs and concise fact boxes support the comprehension of key facts, while low-level text ensures readers of many ages and levels can enjoy this high-interest book.

Le Mans 1949-59 Quentin Spurring,2014-09-15 This was a very important period in the Le Mans story. Ferrari and Jaguar raced to stake claims as the foremost manufacturers of high-performance cars. Mercedes-Benz came back from war-ravaged Germany and again set the standards in race-car engineering. Aston Martin finally won at its 20th attempt. Enormous crowds - approaching half a million people - saw the first rear-engined saloons to compete at Le Mans, and the first mid-engined sports-racing cars, and the first diesels. On-track performance soared. In 1949 the fastest car hit 135mph on the unique Mulsanne straight. Before the end of the 1950s, top speeds exceeded 180mph. This fascinating book tells the stories of these increasingly potent racing cars and conveys the punishing nature of an incomparable event - the ultimate test of the mental and physical abilities of the fragile individuals who make up racing teams, be they drivers, engineers, strategists or mechanics. Highly detailed year-by-year coverage of the decade's ten races, giving over 30 pages of information and photographs for each year. - Official status provides a number of unique features, including the reproduction of the full-color race poster artwork for each year and photographs from the ACO's archives. - The images include rare color, and the emphasis is on photographs that enthusiasts will not have seen before. - The story of each race is told through photographs and an accompanying commentary. - Complete data for each year includes technical regulations, entry list, circuit changes (with diagram), lap chart, full results and category awards. - The whole work is beautifully designed and presented. - The 1950s was a decade of post-war recovery, with defeated Germany providing only one of the period's race winners - Mercedes-Benz in 1952. Britain, by contrast, took six victories - five for Jaguar, one for Aston Martin.

Mr Le Mans Tom Kristensen,Dan Philipsen,2021-05-18 Between 1997 and 2014, Tom Kristensen won the world's toughest motor race, the Le Mans 24 Hours, a record nine times and finished on the podium on five more occasions. Every time his car made it to the finish, in fact, he was in the top three. It is no wonder that this great sports car driver is known as 'Mr Le Mans' to motorsport fans around the world. Now retired from racing, Kristensen shares in this book his deepest personal reflections and insights from inside and outside the cockpit. He looks back on more than 30 years spent striving for perfection in racing and tells of the battles and

setbacks that sometimes seemed impossible to overcome, including a terrible accident in 2007. Climbing the racing ladder, from karting into Formula 3 single-seaters, including championship titles in Germany (1991) and Japan (1993), then Formula 3000 and a Formula 1 testing role with Tyrrell. Winning as an underdog on his first visit to Le Mans, in 1997 driving an elderly Joest-run privateer Porsche in which he impressed all onlookers with a night-time charge to vanquish Porsche's factory-entered favourite. His second Le Mans victory came in 2000 on his maiden drive for Audi in the R8, a car that was to become all-conquering. Kristensen won the next five editions of Le Mans, four times with Audi and once with Bentley (in 2003), his last victory in this sequence taking him past Jacky Ickx's previous record at the Circuit de la Sarthe. His eighth win came in one of the all-time classic contests at Le Mans, in 2008, a rollercoaster of a race in which his ageing diesel-powered Audi was never expected to beat the fancied works Peugeots. One more victory with Audi in 2013 sealed his reputation as a true legend of Le Mans. His story includes exploits at other racetracks all over the world, none more prolific than Sebring, home of America's long-established classic endurance race that Kristensen won six times. Personal reflections together with contributions from notable observers -- including English journalists Gary Watkins and Charles Bradley -- complete a truly rounded portrait of the man and his achievements. Voted 'Sports Book of the Year' when originally published in Kristensen's native Denmark, this thoughtful memoir is now available in English.

Le Mans 1980-89 Quentin Spurring, 2014-09-15 Le Mans hosted the fastest racing cars on the planet, top speeds on the world-famous Mulsanne straight exceeding 250mph for the first time in 1988. This decade's new Group C regulations challenged motorsport engineers to achieve race-winning engine performance while saving fuel, fostering the original rationale of this historic event as a proving ground for emerging automotive technologies. It accelerated the development of control electronics and aerodynamics, and soon increasingly sophisticated racing coupés were setting new performance standards. The 1980 event was uniquely won by Jean Rondeau, a Le Mans resident, with a car of his own manufacture. After seven impressive Porsche successes, Jaguar and Mercedes-Benz, both returning to motorsport after long absences, won in 1988 and 1989.
