*Leapin' Leopards* Bill Myers,2023-03-07 A massive mess, a leopard on the loose, and the arrival of new life--it's just another day in the life of the Mulligans. From bestselling author Bill Myers comes a hilarious, warmhearted, and action-packed adventure starring the Mulligan family. Neither Michael nor Traci Mulligan had intended upon a large family, let alone one of such diversity. But God had other plans. After their second child, Lisa, was born blind, they began to see their gift for reaching out, connecting, and laughing with special children with special needs--all while raising their family among the many creatures living at the animal park that they operate. Are there trials? You bet. There's no way to keep the boat from rocking with so many children from such diverse backgrounds and in such an incredible environment. But their faith in Christ, commitment to one another, and ability to laugh at themselves keep them digging in to make it work.

Leapin Lena Allan a Murray,2021-06-16 This sixth book in the Series is the story of the ketch, Forbes Brothers, built in 1912 by Allan's great-great-grandfather, John Ernest Forbes, and two of his brothers. She was built on Lake Macquarie, New South Wales. Unlike the other ships and vessels in the Series, Forbes Brothers was primarily powered by sail. The ketch is included in the Series because thirty years later she served with the United States Army Small Ships Section in support of land operations in New Guinea against the Japanese. By now renamed Leprena, she occasionally encountered at Milne Bay the heavy cruiser, HMAS Australia (II), including when Allan's great-uncle, Able Seaman Bobby Forbes, was aboard the warship. This shortest book in the Series explores the family connection with Forbes Brothers; provides some detail on her halcyon days in the Spencer Gulf of South Australia; describes her transition to being the Leprena and her service as a Small Ship in World War II; and then her final years in Bass Strait and the Southern Ocean. As the Forbes Brothers she was fortunate to be captained by Clyde Harvey, who took many photographs to record her working life. As the Leprena, serving with the Small Ships Section, one of her First Mates, Clarrie Dawes, survived the War and gave numerous media interviews on his service with the Small Ships leaving many documented recollections of the Leprena. These have enabled the story of this fine ketch to be comprehensively told. The book also briefly tells the broader story of the Small Ships Section and introduces an indigenous Australian flavour to the Series, the word 'Leprena' is of Tasmanian Aboriginal origin.

**Frasier - Leapin' Lizards** Chuck Ranberg,Jeremy Bertrand Finch,Anne Flett-Giordano,Paul Chitlik,2001-01-01 In a futurist state-controlled society, a theoretical physicist is imprisoned for intellectual crimes. From the series revival, this is one of six episodes written by Chitlik and Finch. Like the original, this revival of the popular long-running series centered around paranoia, uncertainty and bizarre events, often with a wicked sense of humor and an unexpected twist. Series creator Rod Serling called The Twilight Zone, a fifth dimension beyond that which is known to man... a dimension as vast as space and as timeless as infinity. It lies between the pit of man's fears, and the summit of his knowledge.

**Drachen 5** Duffy Weber,2021-02-19 Ignoring all past experience with the term adventure, Millie and Daavi have signed on for one. Not quite neglecting the fact she is preparing for a big promotional event at her restaurant, which dignitaries and other very important people are likely to attend, Millie dons a rather charming straw hat and joins Daavi as he runs off to a deserted, rocky, sun-bleached isle, neighboring her own. Daavi is recruited when the Department of Conservation needs a communications engineer to accompany them to hot, dusty Lea Island to help with their project: gathering lizards. The creatures are borrowed from their rocky little homes to help make antivenom, and they need to be transported quickly and safely from all over the island, in order to be useful. That's where Millie comes in - she gets a chance to show off her hotshot piloting skills, flying them in and out on her remote-controlled aircraft, converted from a toy into a handy sky-lift for her pocket-sized passengers. Fitz is along for the ride, to assist Millie and Daavi. Reptiles aside, he's looking forward to catching up with Rinn. Rinn, on the other hand, seems more than a little put out about a mysterious woman she keeps hearing about, with whom Fitz seems to be spending all his time. And neither Daavi nor Millie are going to like it when another very familiar face shows up to work alongside them. Edward might be from Millie's past, but he's dead set on making Daavi miserable, and he's not above taking a swipe at Rinn, either. Juggling love, lizards, relationships, and radio equipment, can Millie and Daavi avoid herpetological hazards, get done on Lea, and get Edward out of their hair in time for the gala? And can Fitz avoid getting brained by Rinn long enough to figure out who the mysterious girl he's supposedly rendezvousing with is? As usual, everyone's bitten off way more than they can chew.
