Laura B. Edge

The Girl at the Baggage Claim Gish Jen, 2018-01-16 Drawing on a trove of personal accounts and cutting-edge research, a “timely and extremely important” book (The Washington Post) from the acclaimed, award-winning author of *Thank You, Mr. Nixon* that shows how our worldviews are shaped—and what that might mean for the shared future of the United States and China. As East and West become more and more entwined, we also continue to baffle one another. What’s more important—self-sacrifice or self-definition? Do we ultimately answer to something larger than ourselves—a family, a religion, a troop? Or is our mantra “To thine own self be true”? Gish Jen shows how our worldviews are shaped by what cultural psychologists call independent and interdependent models of selfhood. Coloring what we perceive, remember, do, make, and tell, imbuing everything from our ideas about copying to our conceptions of human rights, these models help explain why the United States produced Apple while China created Alibaba—and what that might mean for our future. As engaging as it is fascinating, *The Girl at the Baggage Claim* is a book that profoundly transforms our understanding of ourselves and our time.

Hegemony, Mass Media and Cultural Studies Sean Johnson Andrews, 2016-09-09 Analyzes twentieth-century media and cultural theories as they relate to changes in political economy, communication technology, popular culture and collective consciousness in the United States. It argues that much of contemporary media environment is operating as Western capitalist media have

for more than a century, making these theories more relevant than ever.

Shareology explores the history, art, and science of sharing, and why sharing gives us a unique competitive advantage as individuals and brands. For entrepreneurs and marketers who want to make their content more valuable and shareable, and for individuals who want to grow their personal brand, Fortune 500 consultant and popular TED speaker

Bryan Kramer offers wisdom worth sharing—plus contributions from experts and business leaders on a variety of topics. Shareology covers: Sharing in the Human Economy The Importance of Context The Human Business Movement Sharing: A Sensory Experience Timing Is Everything Redefining Influencers Inside and Out Connections and Conversations Creating Shared Experiences What Makes Stuff Worth Sharing Brands on Sharing The Sharing Future: What's Next?

Delighted Kenda Creasy Dean, Wesley W. Ellis, Justin Forbes, Abigail Visco Rusert, 2020-04-28 What would youth ministry look like if it were based on a pursuit of authentic Christian joy? Joy is not often a word young people associate with church—but it should be. By reimagining three common practices in youth ministry through the theological lens of joy, veteran youth workers Kenda Creasy Dean, Wesley Ellis, Justin Forbes, and Abigail Visco Rusert demonstrate how to shift this association and become more honest about what youth ministry can, and can't, do to support young people and their faith. Grounding youth ministry in joy rather than in fear also models a way forward for the church. It reminds us that youth ministry is not a tool for anxious congregations to use to ensure their survival. Rather, youth ministry—like all ministry—is a way to help people name and experience God's delight, free from fear and anxiety about their futures. *Delighted* is the first book to emerge from the Yale Center for Faith and Culture's Adolescent Faith and Flourishing project, offering a sustained reflection on joy's practical importance for youth ministry. With reflection questions offered at the end

of each chapter, *Delighted* is easy for youth ministers, volunteers, and pastors to pick up and use immediately—tapping into young people’s instinctive desire for joy for the entire church, as well as for ministry with teenagers.

Future Law Edwards Lilian Edwards, 2020-03-02 How will law, regulation and ethics govern a future of fast-changing technologies? Bringing together cutting-edge authors from academia, legal practice and the technology industry, *Future Law* explores and leverages the power of human imagination in understanding, critiquing and improving the legal responses to technological change. It focuses on the practical difficulties of applying law, policy and ethical structures to emergent technologies both now and in the future. It covers crucial current issues such as big data ethics, ubiquitous surveillance and the Internet of Things, and disruptive technologies such as autonomous vehicles, DIY genetics and robot agents. By using examples from popular culture such as books, films, TV and Instagram - including 'Black Mirror', 'Disney Princesses', 'Star Wars', 'Doctor Who' and 'Rick and Morty' - it brings hypothetical examples to life. And it asks where law might go next and to regulate new-phase technology such as artificial intelligence, 'smart homes' and automated emotion recognition.

Just When You Thought It Was Safe: A Jaws Companion Patrick Jankiewicz, 2009 Did you used to hate the water, but can't imagine why? Do you feel a constant need for a bigger boat? Do you want the Mayor to close the beaches? If the answer is "yes" to these questions, you are a Jaws fanatic. Just When You Thought It Was Safe: A Jaws Companion by Patrick Jankiewicz splashes into the terrifying yet true stories behind the making of Jaws (1975) starring Roy Scheider, Robert Shaw, and Richard Dreyfuss, the film director Steven Spielberg based on Peter Benchley's 1974 runaway best selling novel of the same name. The equally stupendous success of Spielberg's suspense film spawned a string of sequels. Author Patrick Jankiewicz fishes out the production back stories, such as how Smile, You sonnuva--" and "We need a bigger boat!" were created. He reels in all the shark's victims, including John Hancock, Lance Guest, and Dorothy Tristan, for exclusive interviews, and he harpoons of the sequels, Jaws 2 (1978), Jaws 3-D (1983), Jaws: The Revenge (1987). 235 pages.

Deathwinds Arthur Wiederhold, 2002-05 Thule is once again at war. The years of peace have been shattered as armies from the distant past appear from

nowhere and begin to attack everyone and everything they encounter. But Thule isn't the only nation threatened by these time-traveling soldiers. As the messages pour in from nations as far away as Europe, Arka-Dal realizes that the entire world is in jeopardy. He now has to find out what is bringing these ancient warriors into the Second Age and put an end to the madness before the entire universe comes crashing down.

How Bernie Won Jeff Weaver, 2018-05-15 The brilliant manager of Bernie Sanders's 2016 presidential campaign shows how Bernie took on the entire establishment and changed modern American politics for good. When Jeff Weaver hopped in a car with Bernie Sanders in the summer of 1986, he had no idea the Vermont backroads would lead them all the way to the 2016 presidential campaign. In *How Bernie Won*, Weaver shows how Bernie sparked a movement that would sweep America and inspire millions. He vowed not to run a negative campaign. He would focus on policies, not personalities. He would not be beholden to big money. He would actually make America work for ordinary people. Weaver also shows how they overcame significant challenges: A media that thrived on negative campaigns. A party controlled by insiders. And a political system dependent on big money. Weaver explains how Bernie beat them all and, in doing so, went from having little national name recognition when he entered to the race to being one of the most respected and well-known people in the world by its end—because, Weaver argues, Bernie won the race. He moved the discussion from the concerns of the 1% to those of the 99%. He

forced the Democrats to remember their populist roots. And he showed that an outsider with real ideas and ways to get them done could compete and win against the establishment's hand-picked candidate. From holding bags of "Bernie buttons" and picket-stick signs, to managing thousands of campaign workers, to looking ahead to 2020, Weaver chronicles the birth of a revolution that didn't end in November 2016. It's only just begun.

Socio-Legal Aspects of the 3D Printing Revolution Angela Daly, 2016-05-20 Additive manufacturing or '3D printing' has emerged into the mainstream in the last few years, with much hype about its revolutionary potential as the latest 'disruptive technology' to destroy existing business models, empower individuals and evade any kind of government control. This book examines the trajectory of 3D printing in practice and how it interacts with various areas of law, including intellectual property, product liability, gun laws, data privacy and fundamental/constitutional rights. A particular comparison is made between 3D printing and the Internet as this has been, legally-speaking, another 'disruptive technology' and also one on which 3D printing is partially dependent. This book is the first expert analysis of 3D printing from a legal perspective and provides a critical assessment of the extent to which existing legal regimes can be successfully applied to, and enforced vis-à-vis, 3D printing.

Brett Whiteley Ashleigh Wilson, 2016-08-01 When he died in 1992 Brett Whiteley left behind decades of ceaseless activity—some works bound to a

particular place or time, others that are masterpieces of light and line. Whiteley had arrived in Europe in 1960 determined to make an impression. Before long he was the youngest artist to have work acquired by the Tate. With his wife, Wendy, and daughter, Arkie, Whiteley then immersed himself in bohemian New York. But within two years he fled, having failed to break through. Back in Sydney, he soon became Australia's most celebrated artist. He won the Archibald, Wynne and Sulman prizes in the same year—his prices soared, as did his fame. Among his friends were Francis Bacon and Patrick White, Billy Connolly and Dire Straits. Yet addiction was taking its toll: Whiteley struggled in vain to separate his talent from his disease, and an inglorious end approached. Written with unprecedented behind-the-scenes access, and handsomely illustrated with classic Whiteley artworks, rare notebook sketches and candid family photos, this dazzling biography reveals for the first time the full portrait of a mercurial artist. Ashleigh Wilson has been a journalist for almost two decades. He began his career at the Australian in Sydney before spending several years in Brisbane, covering everything from state politics to the Hollingworth crisis to indigenous affairs. He then moved north to become the paper's Darwin correspondent, a posting bookended by the Falconio murder trial and the Howard government's intervention in remote Aboriginal communities. During that time he won a Walkley Award for reports on unethical behaviour in the Aboriginal art industry, a series that led to a Senate inquiry. He returned to Sydney in

2008 and has been the paper's Arts Editor since 2011. He lives in Sydney. 'Ashleigh Wilson has produced an intriguing, absorbing and assured account of Brett Whiteley's life and work'. Mark Knopfler 'With relentless precision, Ashleigh Wilson has provided a peerless grasp of the life and genius of Brett Whiteley. This storied journey of one of Australia's most mercurial twentieth-century artists will be impossible for the reader to put aside until it is finished. It is the dispassionate biography Whiteley has long needed: a career clarified from the brilliant clouds of myth.' Barry Pearce, Emeritus Curator of Australian Art at the Art Gallery of NSW 'A full-dress life of Whiteley that speeds and soars and never ceases to do homage to the colossal confrontation and contradiction the artist represents...Wilson has written that rarest of things, a 400-page biography that is hard to put down...[It] will make you weep for this exasperation of a man and hunger for his art.' Australian 'An essential and invaluable resource for any Whiteley scholar...Wilson's achievement is considerable...Ashleigh Wilson's Brett Whiteley: Art, Life and the Other Thing is a benchmark publication in Whiteley studies.' Sydney Review of Books 'The best biography I read [this year] was Ashleigh Wilson's Brett Whiteley: Art, Life and the Other Thing...Combines journalistic rigour and personal compassion his landmark account of one of our greatest artists.' Australian 'Ashleigh Wilson's biography of Brett Whiteley is hard to put down. The narrative hums along beautifully, allowing readers a rare insight into Whiteley's complex genius.

A colossal undertaking, helped by extraordinary access. Wilson has delivered readers—and history—an absorbing, detailed and fascinating read.’ Walkley Magazine ‘Ashleigh Wilson methodically tracks this mercurial artist from early family days to his final years—a motley of sex, drugs and rock’n’roll, and importantly, art.’ Art Almanac

Shark Trouble Peter Benchley, 2003 Master storyteller Benchley (Jaws) combines high adventure with down-to-earth advice in a book that is at once a thriller and a valuable book about being safe in, on, under, and around the shark infested ocean.

Shark Life Peter Benchley, 2008-12-18 From the bestselling author of Jaws comes a firsthand guide to one of the most feared—and often misunderstood—animals: sharks! In direct and accessible prose, Peter Benchley sets the record straight about the many types of sharks (including the ones that pose a genuine threat to us), the behavior of sharks and other sea creatures we fear, the odds against an attack, and how to improve them even further. He also teaches us how to swim safely in the ocean by reading the tides and currents and respecting all the inhabitants. Here are the lessons Peter has learned, the mistakes he has made, the danger he has faced—and the spectacular sights he has seen in the world’s largest environment. The book includes 16 pages of black-and-white photographs.

Valerie Taylor: An Adventurous Life Valerie Taylor, Ben Mckelvey, 2019-09-24 At 83 years old, Valerie Taylor has lived a big, bold adventurous life. Born

in Australia, Valerie spent a great deal of her childhood in New Zealand. A talented artist, she dropped out of school when she contracted polio and was saved by Sister Elizabeth Kenny's treatment plan; it was two years before she could walk unaided. When Valerie was fifteen, she found work as an animator and moved back to Australia with her family. All the while she thrived on being close to the ocean, and was a keen spear fisher. In the 1950s, she met Ron Taylor and then her real adventures started. Together they sailed all over the world, photographing and filming their travels for magazines, TV and movies, and making many documentaries. Valerie and Ron became interested in conservation, and focused on sharks in particular. They did all the shark work on Jaws, and James Cameron decided he wanted to become a filmmaker because of Valerie and her husband. Valerie is working with the brilliant Ben Mckelvey to share her story of falling in love with the ocean and with her husband, Ron. From trainee animator to Spielberg, from JAWS to BLUE LAGOON, this is the remarkable story of an incredible woman.

Steven Spielberg Laura B. Edge, 2009-01-01 A biography of film director Steven Spielberg--Provided by publisher.

Shark Utilization, Marketing and Trade Stefania Vannuccini, 1999 Sharks are only a small proportion of world recorded fish landings, but they are a versatile and valuable resource. They sustain important fisheries in several countries and are a cheap but valuable source of protein for coastal communities dependent on subsistence fisheries. Sharks are exploited for

their meat, fins, teeth, cartilage, liver and other internal organs. This report details species used and methods of preparation for various purposes.

Ill-Starred Captains Anthony J. Brown, Tim Flannery, 2008 ' Anthony Brown's ingenious interweaving of the tales of these two very different expeditions brings the story of Australia's exploration to life in a riveting and insightful new narrative.' Tim Flannery Amid the Napoleonic Wars, France and Britain launched rival voyages of discovery to the Antipodes. Led by the outstanding naval captains Nicolas Baudin and Mathew Flinders, these expeditions were seen as vital for gathering geographical and scientific knowledge, yet both expeditions ended in personal disaster for their commanders. Drawing extensively on original eye witness accounts, logs and journals, Ill Starred Captains brings to life the tragic histories of the two men for whom 'Fortune had changed seemingly beyond recall, from smiling goddess to right whore.' With a foreword by Tim Flannery, Ill-Starred Captains tells the riveting story of a remarkable competition between two warring colonial nations and provides a major contribution to Australian, British and French history.

Hawaiian Legends of Tricksters and Riddlers Vivian L. Thompson, 1990-11-01 According to some of the oldest and least-known of Hawaii's legends, man became a trickster to survive, and later became a riddler to win a place for himself in society. Vivian Thompson's tales, written for youngsters, are based on some of the earliest recorded versions of these legends; they

instruct and delight readers of today as the oral traditions of old captivated their audiences. The first voyagers to Hawaii were filled with terror of the unknown terrain inhabited by evil spirits. Fearless fellows, tricksters - those who could match wits not only against nature, spirits, and monsters but also against chiefs and kings who held the power of life and death - became the heroes of the common people. As trickster legends emerged from primitive Hawaii, so riddler legends grew from later Hawaii, where mental as well as physical skills were admired.
