*Leica M Compendium* Jonathan Eastland, 1994 The Leica M system has been with us since 1954. It rapidly became, and has remained the favorite instrument of photographers, especially photojournalists, who, like Henri Cartier-Bresson, seek to catch life in the act, to record the decisive moment. In this Leica M Compendium Jonathan Eastland describes the whole Leica M system from his experience as a professional photographer. He explains how to use, enjoy and get the best out of the cameras and lenses, regardless of age. The latest lenses can be used on the earliest cameras, and vice-versa, and the Visoflex, although no longer made, is now much easier to use with the M6 and its TTL metering. Advice on planning and shooting a story with the Leica and extensive tables of technical data complete this ideal companion for the practical Leica M photographer, as well as for the Leica collector and enthusiast.

Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

Leica M Digital Photography Brian Bower, 2009 Leica makes the world's premiere luxury rangefinder camera system--and here's the definitive guide to using the magnificent Leica M8/M8.2 digital cameras, as well as a 32 page full-cover insert covering the brand-new full-frame Leica M9 and the 18mm Elmar-M lens. It's written specifically for the many Leica photographers who want to take full advantage of a digital Leica's potential and produce the very best pictures possible. As a rangefinder digital camera, the M8 offers unique advantages, but it also presents specific challenges, which author and Leica expert Brian Bower addresses at length and in depth, enhanced by his own gorgeous Leica photography. He discusses digital controls, lenses, and accessories; close-up techniques and flash photography; and options for firmware, software, and hardware.
