Sisterhood of the Blue Storm David Rain,2015-11-19 In a time lost in legend, the Isles of Wenaya were united in worship of Javander, goddess of the seas. From her fantastical palace beneath the waves, Javander presided over a caste of priestesses, linked in a thrumming psychic web. Then the web was broken, Javander's people turned to false gods and the priestesses who once served her so well became the Sisterhood of the Blue Storm . . . Ten boys on the cusp of adulthood arrive on the empty tropical island of Xaro to undergo their Manhood Trial, an age-old ritual meant to build character as they leave their childhood behind. They thought they could survive alone. But that was before the killing began. That was before the Blue Storm. To this island of dark magic come Jem and his companions, pursuing their mystic quest for the long-lost crystals of the Orokon, desperate to find Javander's blue jewel before Jem's evil rival, the anti-god Toth-Vexrah, gets there. Never has the quest been so perilous. Originally released under the pseudonym Tom Arden

The Crane Track: Whooping Cranes' Migration ... A tale of survival Gene Steffen,2015-09-11 Leki is a young whooping crane who has no idea that a spectacular journey is about to begin. He lives with his parents, Toluki and Karla, in the Northwest Territories of Canada. Leki has had many adventures there, like the day he ran across wild wolves! Still, his biggest adventure is yet to come as his parents prepare for their annual October migration. Every year, the whooping cranes travel south to warmer climates for the winter. Toluki and Karla plan to take young Leki 2,400 miles, all the way from their home in Canada to a winter resting place on an island in the Gulf of Mexico. The path they take is called the crane track, and it is a journey filled with wild weather and hungry hunters. Whooping cranes are graceful creatures with white feathers and up to an eight-foot wingspan. Once almost extinct, there are now 513 whooping cranes in the world, and many of them travel the same path as Leki and his parents. Nature is a carefully balanced, beautiful machine. It's up to us to protect the path of the cranes' migratory journey. So is little Leki up for the trip?

Water Politics and Spiritual Ecology Lisa Palmer,2015-05-15 As water resources diminish with increasing population and economic pressures as well as global climate change, this book addresses a subject of ever increasing local and global importance. In many areas water is not only a vital resource but is also endowed with an agency and power that connects people, spirit beings, place and space. The culmination of a decade of ethnographic research in Timor Leste, this book gives a critical account of the complex social and ecological specificities of a water-focused society in one of the world's newest nations. Comparatively framed by international examples from Asia, South America and Africa that reveal the need to incorporate and foreground cultural diversity in water governance, it provides deep insight into the global challenge of combining customary and modern water governance regimes. In doing so it addresses a need for sustained critical ecological inquiry into the social issues of water governance. Focusing on the eastern region of Timor Leste, the book explores local uses, beliefs and rituals associated with water. It identifies the ritual ecological practices, contexts and scales through which the use, negotiation over and sharing of water occurs and its influence on the entire sociocultural system. Building on these findings, the book proposes effective conceptual and methodological tools for advancing community engagement and draws out lessons for more integrated and sustainable water governance approaches that can be applied elsewhere. This book will be of great interest to students and researchers in environmental studies, environmental policy and governance.
