With Blood Upon the Sand Bradley P. Beaulieu,2020-01-28 The second book in The Song of the Shattered Sands series--an epic fantasy with a desert setting, filled with rich worldbuilding and pulse-pounding action. Çeda, now a Blade Maiden in service to the kings of Sharakhai, trains as one of their elite warriors, gleaning secrets even as they send her on covert missions to further their rule. She knows the dark history of the asirim—that hundreds of years ago they were enslaved to the kings against their will—but when she bonds with them as a Maiden, chaining them to her, she feels their pain as if her own. They hunger for release, they demand it, but with the power of the gods compelling them, they find their chains unbreakable. Çeda could become the champion they've been waiting for, but the need to tread carefully has never been greater. After their recent defeat at the hands of the rebel Moonless Host, the kings are hungry for blood, scouring the city in their ruthless quest for revenge. Çeda's friend Emre and his new allies in the Moonless Host hope to take advantage of the unrest in Sharakhai, despite the danger of opposing the kings and their god-given powers, and the Maidens and their deadly ebon blades. When Çeda and Emre are drawn into a plot of the blood mage Hamzakiir, they learn a devastating secret that may very well shatter the power of the hated kings. But it may all be undone if Çeda cannot learn to navigate the shifting tides of power in Sharakhai and control the growing anger of the asirim that threatens to overwhelm her...

Volcanic Processes in the Sedimentary Record A. Di Capua,R. De Rosa,G. Kereszturi,E. Le Pera,M. Rosi,S.F.L. Watt,2023-04-18 Volcanoes and sedimentary systems are linked by a strong relationship. The ascent and eruption of magma liberates large volumes of material, through a variety of mechanisms, to the surrounding environment, with subsequent sediment input and transport influencing the evolution of that environment. This connection between volcanism and adjacent sedimentary systems has long attracted the attention of geologists, giving rise to an increasing body of academic research over the past three decades. *Volcanic Processes in the Sedimentary Record: When Volcanoes Meet the Environment* collects innovative works exploring how volcanoes and sedimentary systems interact, moving from the processes directly associated with eruptive behaviour, to the most distal sedimentary offshoots, where volcanogenic particles are accumulated during or after volcanic activity. In doing this, different volcanic and environmental settings are explored, travelling through space and time, showing how volcanoclastic detritus is produced and dispersed by volcanic, volcano-sedimentary and sedimentary mechanisms, via processes affecting development of volcanic edifices themselves through to the most distal depocentres.

When Jackals Storm the Walls Bradley P. Beaulieu,2021-06-15 Now in trade paperback, the fifth book in The Song of the Shattered Sands series--an epic fantasy with a desert setting, filled with rich worldbuilding and pulse-pounding action. The reign of the kings of Sharakhai has been broken. The blood mage, Queen Meryam, now rules the city along with the descendants of the fabled twelve Kings. In the desert, Çeda has succeeded in breaking the asirim's curse. Those twisted creatures are now free, but their freedom comes at great cost. Nalamae, the goddess who aided Çeda, lies dead, slain in battle with her sister goddess. Çeda, knowing Nalamae would have been reborn on her death, sets out on a quest to find her. The trail leads Çeda to Sharakhai where, unbeknownst to her, others are searching for Nalamae as well. Çeda's quest to find her forces her into a terrible

decision: work with the Kings or risk Sharakhai's destruction. Whatever her decision, it won't be easy. Sharakhai is once more threatened by the forces of the neighboring kingdoms. As the powers of the desert vie for control of the city, Çeda, her allies, and the fallen Kings must navigate the shifting fates before the city they love falls to the schemes of the desert gods.

A Veil of Spears Bradley P. Beaulieu, 2020-04-28 The third book in The Song of Shattered Sands series--an epic fantasy with a desert setting, filled with rich worldbuilding and pulse-pounding action. Since the Night of Endless Swords, a bloody battle the Kings of Sharakhai narrowly won, the kings have been hounding the rebels known as the Moonless Host. Many have been forced to flee the city, including Çeda, who discovers that the King of Sloth is raising his army to challenge the other kings' rule. When Çeda finds the remaining members of the Moonless Host, now known as the thirteenth tribe, she sees a tenuous existence. Çeda hatches a plan to return to Sharakhai and free the asirim, the kings' powerful, immortal slaves. The kings, however, have sent their greatest tactician, the King of Swords, to bring Çeda to justice for her crimes. But the once-unified front of the kings is crumbling. The surviving kings vie quietly against one another, maneuvering for control over Sharakhai. Çeda hopes to use that to her advantage, but whom to trust? Any of them might betray her. As Çeda works to lift the shackles from the asirim and save the thirteenth tribe, the kings of Sharakhai, the scheming queen of Qaimir, the ruthless blood mage, Hamzakiir, and King of Swords all prepare for a grand clash that may decide the fate of all.

Insipid Ryan Miller, 2019-11-29 Seth craves more from life. When a stranger in a coffee shop offers him something extraordinary, he has to listen, even if the oddly normal man claims to be a friendly demon leading one of the most brilliant and successful cons of humanity to ever exist. The man may be crazy but he knows secrets Seth has told no one. He reveals a reality Seth has never experienced. Seth will question it all: his sanity, good and evil, what is real and what is not. The journey will be fantastic: darker than his nightmares and brighter than his dreams. It may kill him. Then again, it might just save him. Whether he is aiding a cunning evil or becoming an unlikely force for good, remains to be seen. Either way, it's not just his life that hangs in the balance.

Beneath the Twisted Trees Bradley P. Beaulieu, 2021-06 The fourth book in The Song of Shattered Sands series--an epic fantasy with a desert setting, filled with rich worldbuilding and pulse-pounding action. When a battle to eradicate the Thirteenth Tribe goes awry, the kingdoms bordering the desert metropolis of Sharakhai see the city as weak and ripe for conquest. Çeda, now leader of the Shieldwives, a band of skilled desert swordswomen, hopes to use the growing chaos to gain freedom for Sehid-Alaz, the ancient, undying king of her people. Freeing him is only the beginning, however. Like all the people of her tribe on that fateful night four centuries earlier, Sehid-Alaz was cursed, turned into an asir, a twisted, miserable creature beholden to the kings of Sharakhai—to truly free her king, Çeda must break the chains that bind him. As Sharakhai's enemies close in and the assault on the city begins, Çeda works feverishly to unlock the mysteries of the asirim's curse. But danger lies everywhere. Enemy forces roam the city; the Blade Maidens close in on her; her own father, one of the kings of Sharakhai, wants Çeda to hang. Worst of all, the gods themselves have begun to take notice of Çeda's pursuits. When the combined might of Sharakhai and the desert gods corner the survivors of the Thirteenth Tribe in a mountain fastness, the very place that nearly saw their annihilation centuries ago, Çeda knows the time has come. She was once an elite warrior in service to the kings of Sharakhai. She has been an assassin in dark places. A weapon poised to strike from the shadows. A voice from the darkness, striving to free her people. No longer. Now she's going to lead. The age of the Kings is coming to an end . . .

African Cities Through Local Eyes Giuseppe Faldi, Axel Fisher, Luisa Moretto, 2021-10-16 This book provides readers with a wide overview of place-based planning and design experiments addressing such powerful transformations in the African built environment. This continent is currently undergoing fast paced urban, institutional and environmental changes, which have stimulated an increasing interest for alternative architectural solutions, urban designs and comprehensive planning experiments. The international and balanced array of the collected contributions explore emerging research concepts for understanding urban and peri-urban processes in Africa, discuss bottom-up planning and design practices, and present inspirational and innovative co-design methods and participatory tools for steering such change through public spaces, sustainable services and infrastructures. The book is intended for students, researchers, decision-makers and practitioners engaged in planning and design for the built environment in Africa and the Global South at large.

Locating the Mediterranean Carl Rommel, Joseph John Viscomi, 2022-07-06 Until today, anthropological studies of locality have taken primary interest in local subjects leading local lives in local communities. Through a shift of conceptual emphasis from locality to location, the present volume departs from previous preoccupations with identity and belonging. Instead, *Locating the Mediterranean* brings together ethnographic examinations of processes that make locations and render them meaningful. In doing so, it stimulates debates on the interplay between location and region-making in history as well as anthropology. The volume's deeply empirical contributions illustrate how historical, material, legal, religious, economic, political, and social connections and separations shape the experience of being located in the geographical space commonly known as the Mediterranean region. Drawing from research in Melilla, Lampedusa, Istanbul, Nefpaktos/Lepanto, Tunisia, Beirut, Marseille, and elsewhere, the volume articulates location through the overlapping and incorporation of multiple social and historical processes. Individual contributions are linked by the pursuit to rethink the conceptual frames deployed to study the Mediterranean region. Together, the volume's chapters challenge strict geopolitical renderings of Europe, the Middle East, and North Africa and suggest how the 'Mediterranean' can function as a meaningful anthropological and historical category if the notion of 'location' is reinvigorated and conceptualised anew.

Atholl-Fastenadas Alan Stapf, 2019-05-08 Aramay was right; had always been right. The natives were hiding their true potential. Now, the Federation knowing the natives capabilities, will put an end to this small problem in one resounding blow. However, the Strategy show currently dominates the populations' thoughts and sensibilities. The natives have earned the peoples' sympathy and admiration. And almost too late, the DCI realise their mistake. To quell growing descent from the populace, the Federation must perpetuate the myth that the natives are Federation rebels. Yet Fion and Bryton, begin to realise the natives have a great deal more on their agenda than holding onto their way of life. A realisation they could be playing the Federation at their own game, but to what end? Meanwhile, Her Royal Highness recognizes she is in a position to use the falsehood of rebel insurgents in advancing her own design ... and unwittingly upsetting the natives' plans. Aramay, while falling in love with the natives' way of life, is yearning to meet that one person she has instantly fallen for. And it is here that she begins to learn about her own history which carries with it

both sadness and joy. The second of a far-reaching fantasy epic, The Janus Set, continues to reveal the story of Aramay's life.
