The Resolution of the Territorial Dispute Between Korea and Japan Over the Liancourt Rocks Sŏg-u Yi, 2002

Dokdo Seokwoo Lee, Hee Eun Lee, 2011-01-11 Utilizing perspectives from international law, international relations, and history, this volume provides a balanced perspective on territorial disputes in Northeast Asia highlighting the issue of Dokdo which is disputed between Korea and Japan.

The Dokdo/Takeshima Dispute Paul Huth, Sunwoong Kim, Terence Roehrig, 2021-04-12 In *The Dokdo/Takeshima Dispute*, Paul Huth, Sunwoong Kim, and Terence Roehrig have assembled top scholars from Japan, South Korea, and the United States to provide a balanced and comprehensive look from multiple perspectives of this long-running island dispute.

The Making of International Law in Korea Seokwoo Lee, Hee Eun Lee, 2016-05-12 *The Making of International Law in Korea* addresses the development of international law in Korea and Korea's approach to contemporary international legal issues.

The Law of Maritime Boundary Delimitation Alex G. Oude Elferink, 2021-09-27 This volume presents an analysis of the maritime boundary delimitations of the Russian Federation. The focus of this analysis is the relationship between state practice and the rules of public international law applicable to the delimitation of maritime zones between neighboring states. A first part establishes the contents of the law in this field. The main part of the

work concerns an analysis of the position of the Russian Federation on the rules of maritime delimitation law and the practice of this state in relation to the delimitation of specific maritime boundaries with neighboring states. The case study of the Russian Federation illustrates the significance of international law for the delimitation of maritime boundaries, while at the same time indicating the limits of the influence of the law on state behavior.

Chinese (Taiwan) Yearbook of International Law and Affairs, Volume 28 (2010) ,2020-02-03 The Chinese (Taiwan) Yearbook of International Law and Affairs includes articles and international law materials relating to Asia-Pacific and the Republic of China on Taiwan.

Dokdo Seokwoo Lee,Hee Eun Lee,2011-01-11 Utilizing perspectives from international law, international relations, and history, this volume provides a balanced perspective on territorial disputes in Northeast Asia highlighting the issue of Dokdo which is disputed between Korea and Japan.

The Maritime Political Boundaries of the World Victor Prescott,Clive Schofield,2005-01-01 This book addresses the often vexed question of national maritime claims and the delimitation of international maritime boundaries. The number of undelimited international maritime boundaries is much larger than the number of agreed lines. The two boundaries that define the marine domain of coastal states are examined. First, the baselines along the coast may consist of low-water lines or straight lines or a combination of both.

When straight lines are used they define the seaward limit of the state's internal waters. Second, the outer limits of claims to territorial seas, contiguous zones and exclusive economic zones are measured from the baselines. All states will have to delimit at least one international boundary with a neighbouring state, whether adjacent or opposite. In confined seas no state can claim the full entitlement and must negotiate international boundaries with all neighbours. Many states bordering oceans can claim the full entitlement seawards, although they will need to delimit national boundaries with adjacent neighbours.

The Routledge Intermediate Korean Reader Jaehoon Yeon, Jieun Kiaer, Lucien Brown, 2013-08-15 The Routledge Intermediate Korean Reader is a comprehensive reader designed to provide varied, stimulating and up-to-date reading material for learners of Korean at the intermediate level. The Korean Reader provides a bridge between basic literacy skills and the ability to read full novels and newspapers in Korean. It consists of eighteen readings, graded on the basis of complexity of vocabulary, grammar and syntax. These readings present a range of different text types representative of modern Korean literary and popular writing which will inspire learners to continue reading independently in Korean. It is ideal for learners who already possess knowledge of essential grammar and vocabulary and who wish to expand their

knowledge of the language through contextualized reading material. Key features include: extracts of modern literature and newspaper/magazine articles vocabulary lists for quick reference short grammar explanations of any complicated structures comprehension and discussion questions full answer key at the back. Suitable for both class use and independent study, The Routledge Intermediate Korean Reader is an essential tool for facilitating vocabulary learning and increasing reading proficiency. The Reader is ideal for learners at the intermediate-mid or intermediate high who are aiming to achieve advanced proficiency according to the ACTFL proficiency guidelines. In terms of the Common European Framework this equates to a progression from A2 through to B1/B2.

For the Mikado Kirk Munroe, 1905

Dokdo 1947 Jung Byung-joon, 2022-11-11 1947 was a watershed year for the Dokdo issue. Many think that the differences between Korea and Japan over the historical title to the island are what caused the Dokdo issue. From my studies, however, I came to learn that the Dokdo issue is a ramification, or one of the shadows, of the sway and decision power the U.S. exerted on the post-war policies for Northeast Asia. Therefore, it would be more accurate to say that the dispute over the sovereignty of Dokdo after the Second World War involves the U.S. as well and that it is a matter of regional and international politics rather than that of history. \The idea for this book came about in 2001 when I was studying the U.S. State Department's diplomatic

documents from the 1950s in the National Archives and Records Administration. The records were telling a different story from what average Koreans know about Korea-Japan relations and the Dokdo issue. Although much of the documents about Korea-Japan relations and the Dokdo issue were still classified, I was able to see that the 1951 Treaty of San Francisco was the starting point of, as well as a turning point for, the U.S. policies and diplomatic decisions on Dokdo. So I started delving into the archives of the U.S., Japan, Korea, and the UK. I looked into how the San Francisco Treaty—which officially settled the war between Japan and the U.S.-led Allies—relates to Korea and how it became a turning point for Korea-Japan relations, Korea-U.S. relations, and U.S.-Japan relations. I found myself on a journey of exploring how the San Francisco system shaped the new post-war order in Northeast Asia; how Korea, the U.S., Japan, and the UK viewed and responded to Japan's territorial issues including that of Dokdo; and how Korea-U.S. relations, U.S.-Japan relations, and Korea-Japan relations had changed over the years. This book is a summary of what I learned during my journey, and it delineates how and when Korea, the U.S., and Japan began introducing policies, as they became more aware of Dokdo after the Second World War, and how these policies evolved before and after the San Francisco Treaty.\ (_ Excerpt from the Preface)

China, South Korea, and the Socotra Rock Dispute Senan Fox, 2018-10-16 This book exclusively addresses the political, historical and important

contemporary strategic implications of the decades-long Socotra Rock dispute between China and South Korea. It is one of several maritime disputes involving China and a smaller state, and for which maritime law offers no apparent remedy. There is little doubt it will continue to be a problem in the future and should no longer be overlooked. The submerged rock, located between mainland China and the Korean Peninsula, straddles the Yellow Sea and the East China Sea. As China continues asserting its sovereignty and jurisdiction in maritime areas, this book will provide food for thought for scholars, think-tank researchers, and policymakers.

Critical Inquiries in the Sociolinguistics of Globalization Tyler Andrew Barrett, Sender Dovchin, 2019-02-26 The studies in this collection seek to examine the notions of 'linguistic diversity' and 'hybridity' through the lenses of new critical theories and theoretical frameworks embedded within the broader discussion of the sociolinguistics of globalization. The chapters include critical inquiries into online/offline languages in society, language users, language learners and language teachers who may operate 'between' languages and are faced with decisions to navigate, negotiate and invent or re-invent languages, local and global and virtual spaces. The research took place in contexts that include linguistic landscapes, schools, classrooms, neighborhoods and virtual spaces of Australia, Bangladesh, Canada, Japan, Kazakhstan, Mongolia, South Korea and the USA.

Border Disputes [3 volumes] Emmanuel Brunet-Jailly, 2015-07-28 An ideal

resource for anyone studying current events, social studies, geopolitics, conflict resolution, and political science, this three-volume set provides broad coverage of approximately 80 current international border disputes and conflicts. Border disputes are a common source of political instability and military conflict around the globe, both in the present day and throughout history. Border Disputes: A Global Encyclopedia will serve as an invaluable resource for students studying social studies, political science, human geography, or related subjects. Each volume of this expansive encyclopedia begins with an accessible introduction to the type of dispute to be discussed, identifying the conflict as territorial (Volume 1), positional (Volume 2), or functional (Volume 3). Following the background essay in each volume are comprehensive case study entries on specific international conflicts, examining the disputed area, the reasons for the dispute, and cultural, political, historical, and legal issues relating to the dispute. The third volume will also provide primary documents of legal rulings and important resolutions of various disputes, as well as profiles of key organizations relating to border studies and specific border dispute commissions.

The Theory and Practice of the East Asian Library Hong Cheng, 2023-01-09
Presenting groundbreaking research on the East Asian library, this book provides theoretical exploration on the subject through a passive model of glocalism. It details various aspects of the field and comprehensively covers

the progress and conflicts in practice. The issues and perspectives raised here will lead to a rethinking of the field and its role in global interactivity with East Asia. The book will also provide library guidance to the scholars in East Asian studies and related disciplines, offering support to East Asian resources and services that significantly affect scholarly activities.

Claims to Territory between Japan and Korea in International Law Pilkyu Kim, PhD, 2014-03-27 The period following World War II has witnessed numerous international territorial disputes, particularly in Asia and Africa. Even as we enter the twenty-first century, a large number of these territorial disputes over sovereignty remain unresolved and continue to pose significant diplomatic barriers for the parties involved. Clive Schofield, the author of *Global Boundaries*, identified 10 disputed island “hot spots” around the globe, including the Falkland Islands, Dokdo (Takeshima), Diaoyu (Senkaku), and the Kurile and Spratly Islands, among others. Turning our attention to Northeast Asia, one territorial dispute of historic significance concerns a set of small rocky islets known as Dokdo in Korean or Takeshima in Japanese. Upon closer examination, these small islets represent more than just a dispute over territorial boundaries, but a historic source of tension and sensitivity that can be traced back to the period of Japanese imperialist aggression in Korea during the first half of the twentieth century. Today, this controversial territorial dispute remains as a critical obstacle to the

amicable relations between Korea and Japan. Much of the problem appears to stem from the inability of both countries to reach a consensus on two interconnected issues: historical misperceptions and divergent legal interpretations over territorial claims to sovereignty. Bearing these two issues in mind, this book seeks to offer a fresh examination of the major historical and legal arguments at both sides of the Dokdo conflict from the perspective of international law. Through this approach, it is hoped this book will not only contribute to a better understanding of the facts and truth behind the Dokdo dispute, but also generate further discussion on how Korea and Japan might advance a productive dialog to achieve a meaningful resolution to this longstanding problem.

Report to Congress of the U.S.-China Economic and Security Review Commission U.S.-China Economic and Security Review Commission, 2013
A New Geography of Japan for the Upper Forms of Schools and Colleges
Eustace Bruce Mitford, 1905

Asia-Pacific Defense and Security Outlook Kogila Balakrishnan, Zolt Lazar, 2023-06-20 The book focuses on the main security threats, defence industry, arms trade, defence policies and military capabilities related issues in the Asia-Pacific region. There are only a very few regions in the world which have advanced so fast both economically and technologically as the Asia-Pacific in the past few decades. Probably this is one of the reasons why several countries in the region have gained confidence, sharpened their

diplomatic tone, increased their defence expenditure, invested into military capabilities, and questioned both the local and global status-quo. The region contains emerging powers, far-reaching ambitions, threatening rhetoric, rising political tensions, and concerns about military conflicts. Factors that show that critical issues are at stake, the reopening of long-forgotten debates, are more relevant than ever and masses of uncertainties are yet to be resolved. This book will be of much interest to all students and scholars of Asia-Pacific Security, Asian politics and International Relations in general. The chapters in this book were originally published as a special issue of Defense & Security Analysis.
