Latin Inscriptions in the Kelsey Museum Steven

Tuck, 2010-03-23 The Latin inscriptions in the Kelsey Museum are among the best primary sources we have for documenting the lives of the lower classes in the Roman world. They provide unique evidence of the details of Roman daily life, including beliefs, occupations, families, and attitudes toward death. The 400 entries in this volume include all of the Latin inscriptions on stone or metal in the Kelsey Museum of Archaeology at the University of Michigan; they represent the largest, and arguably the most important, collection of Latin inscriptions in the Western Hemisphere. The collection is notable not just for its size but for the fact that almost all the inscriptions were acquired by purchase for their scholarly and educational value to the members of the university community. Because of this, the collection is also an important testimony to a seminal phase in the development of the study of Classics at the University of Michigan. For the first time ever, this project makes the Latin inscriptions of the Kelsey available in one volume and has provided an opportunity to reexamine some texts that have not been edited in over a century. The commentaries for this edition have benefited from a wealth of recent scholarship resulting in some amended readings and reidentification of texts. Steven L. Tuck is Assistant Professor of Classics at Miami University of Ohio. The Kelsey Museum Studies series, edited by University of Michigan professors Elaine Gazda, Margaret Cool Root, and John Pedley, is designed to publish unusual material in the Museum's collections, together with reports of current and past archaeological expeditions sponsored by the University of Michigan.

Liburnians and Illyrian Lembs: Iron Age Ships of the Eastern

Adriatic Luka Boršić, Danijel Džino, Irena Radić Rossi, 2021-03-04 This book explores the origins of two types of ancient ship connected with the protohistoric eastern Adriatic area: the

'Liburnian' and the southern Adriatic 'lemb'. An extensive overview of written, iconographic and archaeological evidence questions the existing scholarly assumption that the liburna and lemb were closely related.

Debtor's Planet W. R. Thompson, 1994 When the Ferengi plan to enslave the people of Megara and use them to destroy the Federation, Captain Jean-Luc Picard of the Starship Enterprise must try to convert a duplicitous ambassador to the planet to good. Original.

Star Trek: The Next Generation: Debtor's Planet W.R.

Thompson, 2000-09-22 When a Vulcan space probe reports that the Ferengi are advancing the people of the planet Megara from a primitive agricultural state to a sophisticated technological society, Captain Jean-Luc Picard and the Starship Enterprise™ are ordered to transport an unlikely passenger to the system, a ruthless twentieth-century businessman who is now a Federation ambassador. The Ferengi have been changing Megaran culture, turning a hard working and honorable people into vicious xenophobic killers. But the Ferengi are only hired hands. They have hidden masters, with plans to use the Magaran people as a powerful weapon against the Federation. Now Picard must find a way to use the talents of this new ambassador to free the Megarans. But the ambassador is hiding a deadly secret of his own -- a secret that could unleash an unstoppable destructive force on the Federation.

Handbook of Mediterranean Roman Pottery John W.

Hayes,1997 Roman pottery, defined for convenience as that made and used within Italy and the Roman provinces between about 100 BC and AD 600, can be characterized by a group of stylistic and technical developments which built upon those of the Hellenistic Greeks and then led to those of the Byzantine and Islamic worlds. Roman pottery can thus provide evidence for ancient literacy, artistic trends and trading patterns within the complex of Mediterranean lands which made up the empire.

Scandal Takes a Holiday Lindsey Davis,2019-04-04 'This was a lonely place for anybody to be brought to die.' In the wealthy town of Ostia, our hero Falco appears to be enjoying a relaxing holiday. But when his girlfriend, Helena, arrives carrying a batch of old copies of the Daily Gazette - with the intention of catching up on the latest scandal - Falco is forced to admit to Petronius his real reasons for being there . . . 'Infamia', the pen name of the scribe who writes the gossip column for the Daily Gazette, has gone missing. His fellow scribes have employed Falco to find him and bring him back from his lazy, drunken truancy. However, Falco suspects that there is more to his absence than there might first appear. Praise for Lindsey Davis 'Lindsey Davis has seen off all her competitors to become the

unassailable market leader in the 'crime in Ancient Rome' genre . . . Davis's squalid, vibrant Rome is as pleasurable as ever' - Guardian 'Davis's prose is a lively joy . . . sinister and gloriously real' - The Times on Sunday 'For fans of crime fiction set in the ancient world, this one is not to be missed' - Booklist 'Davis's books crackle with wit and knowledge . . . She has the happy knack of making the reader feel entirely immersed in Rome' - The Times

CL:BR - The Classis Britannica in Kent & Sussex. Dana S. Adler, 2013-12-12 A study of the Classis Britannica, Rome's British Channel Fleet, which existed for around 200 years, but which left very little evidence of its passing. This book concentrates on researching the evidence for the Fleet's forts and harbours in the English counties of Kent and Sussex, the only places where the Fleet's stamped tiles have been found.

Pre-Roman Divinities of the Eastern Alps and Adriatic

Marjeta Šašel Kos, 1999 Archäologische Verbreitungskarte - Rundplastik/Relief - Religionsgeschichte.

The Roman Empire H. Stuart Jones, 2018-01-25 ON the thirteenth of August, B. C. 29, and the two following days, almost two years after the victory of Actium, Augustus celebrated the triple triumph which proclaimed the subjection of three continents. On the first day a train of Gallic and Illyrian captives marched behind the conqueror; on the second the beaks of Antony's ships were borne in procession, and some Asiatic

potentates who had been his allies were led in golden chains; the climax was reached in the African triumph, graced by Cleopatra's two children - the last of the Ptolemies - and the priceless spoils of Egypt. The scene recalled the quadruple triumph of the great Dictator, celebrated seventeen years before; but the Romans were spared the humiliation of seeing their fellow-citizens amongst the captives. Yet it was noted that the fellow-magistrates of Augustus, instead of leading the procession according to custom, followed in his train. In name the first citizen of a Republic, he was in reality the undisputed master of the Roman world, already worshipped as God incarnate by Greeks and Orientals, reigning over Egypt as the legitimate successor of the Pharaohs and the Ptolemies, and, above all, commanding the sworn allegiance of at least 300,000 soldiers...

The Monthly Review, 1826

The Roman Navy Michael Pitassi, 2012-05-11 The Roman Navy was remarkable for its size, reach and longevity. As significant as the Royal Navy was to the British Empire in the nineteenth century, the Roman Navy was crucial to the extraordinary expansion of Imperial power and for its maintenance over a period of more than 800 years. The fabric and organisation of this maritime force is at the core of this new book. At the height of its power the Roman Navy was, at least in numerical terms, the largest maritime force ever to have existed. It employed tens of thousands of sailors and maintained and fought fleets of ships larger than any forces since. In these pages the author looks at all the aspects of the Navy in turn. Shipbuilding, rigs and fittings, and shipboard weaponry are covered as are all the principal ship

from the earliest types to the very last. The command structure is outlined, as are all aspects of the crews lives, their recruitment, terms of service, training and uniforms. Life onboard, food and drink, discipline, religion and superstition are described, while seamanship and navigation are dealt with along with bases and shore establishments. Operations feature prominently, the allied and enemy navies compared, and specimen battles employed to explain fighting tactics. All these aspects changed and developed hugely over the great span of the Roman empire but this fascinating book brings this complex story together in one brilliant volume.
