Electronica has been accompanying and analyzing the digital revolution and its manifold implications since 1979. It has consistently focused and focuses on processes and trends at the interface between art, technology, and society. This artistic-scientific research becomes visible in the form of a festival that is organized every year in Linz (Austria). Its five-day program comprises conferences, panel discussions, workshops, exhibitions, performances, interventions, and concerts. The event is planned, organized, and produced in collaboration with international artists and scientists. Each festival addresses a different volatile future issue. This year it is the Radical Atoms and the Alchemists of the Future. The volume uses images and texts to sketch this year's edition of the Ars Electronica Festival. **Energy Efficient Non-Road Hybrid Electric Vehicles**

Johannes Unger, Marcus Quasthoff, Stefan Jakubek, 2016-02-10

This book analyzes the main problems in the real-time control of parallel hybrid electric powertrains in non-road applications that work in continuous high dynamic operation. It also provides practical insights into maximizing the energy efficiency and drivability of such powertrains. It introduces an energy-management control structure, which considers all the physical powertrain constraints and uses novel methodologies to predict the future load requirements to optimize the controller output in terms of the entire work cycle of a non-road vehicle. The load prediction includes a methodology for short-term loads as well as cycle detection methodology for an entire load cycle. In this way, the energy efficiency can be maximized, and fuel consumption and exhaust emissions simultaneously reduced. Readers gain deep insights into the topics that need to be considered in designing an energy and battery management system for non-road vehicles. It also becomes clear that only a combination of management systems can significantly increase the performance of a controller.

**Before I Knew Him** Anna Ralph, 2009 Bright, sociable, and on the verge of moving in with his beautiful girlfriend, Kathryn, Leo Fisch has a brilliant future ahead of him; outwardly at least, he seems happy. That is, until a sinister discovery is made in a forest near Leo's home town, and a figure from childhood re-enters his life. David Cauldwell is tough and aggressive; the very opposite of the company Leo now keeps. Unlikely friends, they are bound by a shared summer - and a shared secret - they had

promised to forget. As past and present begin to close in, the comfortable life Leo has created for himself starts to unravel. Their terrible truth begins to emerge and Leo must confront not only the awkward, fragile boy he once was, but the events of that summer which threaten to destroy them both...
