What Is Light? Markette Sheppard, 2020-05-05 This lyrical and luminously illustrated picture book explores the beauty of the everyday moments in a child's world. Light can be so many things! The twinkle of a faraway star, a firefly captured in a jar, a mother's love, a turtle dove... Through this thoughtful and celebratory book, young readers will discover the special glow in everything from nature to the smiles of loved ones. Each page reveals a different sparkle found in a child's simple but extraordinary world. The light revealed on the final page makes a fitting finale for this sweet, bright tale.

The Book of Light Lucille Clifton, 2023-08-29 With a powerful introduction by Ross Gay and a moving afterword by Sidney Clifton, this special anniversary edition of *The Book of Light* offers new meditations and insights on one of the most beloved voices of the 20th century. Though *The Book of Light* opens with thirty-nine names for light, we soon learn the most meaningful name is Lucille—daughter, mother, proud Black woman. Known for her ability to convey multitudes in few words, Clifton writes into the shadows—her father's violations, a Black neighborhood bombed, death, loss—all while illuminating the full spectrum of human emotion: grief and celebration, anger and joy, empowerment and so much grace. A meeting place of myth and the Divine, *The Book of Light* exists “between starshine and clay” as Clifton's personas allow us to bear the world's weight with Atlas and witness conversations between Lucifer and God. While names and dates mark this text as a social commentary responding to her time, it is haunting how easily this collection serves as a political palimpsest of today. We leave these poems inspired—Clifton shows us Superman is not our hero. Our hero is the Black female narrator who decides to live. And what a life she creates! “Won't you celebrate with me?”

Cape Light Thomas Kinkadee, Katherine Spencer, 2004 A heartwarming novel from America's most popular living artist journeys to the picturesque village of Cape Light on the coast of New England, a hamlet populated by colorful inhabitants who share a strong sense of community and caring for their neighbors. Matches S. D. Chrostowska, 2019-04-10 It takes any number of forms. Epigrams. Aphorisms. Fragments. Sayings. Dicta. Sententiae. Facetiae. Pearls of wisdom. Fractions of truth. Maxims. Definitions. Jottings. Miscellaneous musings. Meditations. Ricordi. Pensées. Ephemera. Miniatures. Sketches. Vignettes. Denkbilder. Capriccios. Tiny 'fires without flames' ... In returning to these genres, Matches goes back to the drawing board of modern critique. It sets out to rekindle short-form literary-philosophical reflection, with roots in the Antiquity of Heraclitus and Hippocrates, apogee in the French moralistes (La Rochefoucauld, Pascal, Chamfort ...), and late splendour in German letters (Nietzsche, Kraus, Jünger ...). Moving from art and aesthetics to philosophies past and present, through natural and technological landscapes, beneath the constellations of politics, history and ethics, along the byways of contemporary literary culture--the slow reader with a little spare time will not fail to be struck. Here are pages to peruse and mistrust, texts to think with, a book to put down and ponder, to ponder and put down. A tome to keep handy, handle often, and strike repeatedly against the rough patches of the mind.

Names for Light Thirii Myo Kyaw Myint, 2021-08-17 Winner of the Graywolf Press Nonfiction Prize, a lyrical meditation on family, place, and inheritance *Names for Light* traverses time and memory to weigh three generations of a family's history against a painful inheritance of postcolonial violence and racism. In spare, lyric paragraphs framed by white space, Thirii Myo Kyaw Myint explores home, belonging, and identity by revisiting the cities in which her parents and grandparents lived. As she makes inquiries into their stories, she intertwines oral narratives with the official and mythic histories of Myanmar. But while her family's stories move into the present, her own story—that of a writer seeking to understand who she is—moves into the past, until both converge at the end of the book. Born in Myanmar and raised in Bangkok and San Jose, Myint finds that she does not have typical memories of arriving in the United States; instead, she is haunted by what she cannot remember. By the silences lingering around what is spoken. By a chain of deaths in her family line, especially that of

her older brother as a child. For Myint, absence is felt as strongly as presence. And, as she comes to understand, naming those absences, finding words for the unsaid, means discovering how those who have come before have shaped her life. *Names for Light* is a moving chronicle of the passage of time, of the long shadow of colonialism, and of a writer coming into her own as she reckons with her family's legacy.

Light R. W. Ditchburn, 2013-08-16 This classic study, available for the first time in paperback, clearly demonstrates how quantum theory is a natural development of wave theory, and how these two theories, once thought to be irreconcilable, together comprise a single valid theory of light. Aimed at students with an intermediate-level knowledge of physics, the book first offers a historical introduction to the subject, then covers topics such as wave theory, interference, diffraction, Huygens' Principle, Fermat's Principle, and the accuracy of optical measurements. Additional topics include the velocity of light, relativistic optics, polarized light, electromagnetic theory, and the quantum theory of radiation. The more difficult mathematics has been placed in appendixes, or in separated paragraphs in small type, intended to be omitted on first reading. Examples and/or references follow each chapter to assist the student in absorbing the material and to suggest additional resources.
