Devised Theater's Collaborative Performance Telory D Arendell, 2022-10-19 This book provides a fascinating and concise history of devised theatre practice. As both a founding member of Philadelphia's Pig Iron Theater Company and a Professor, Telory Arendell begins this journey with a brief history of Joan Littlewood's Theatre Workshop and Living Newspapers through Brecht's Berliner Ensemble and Joe Chaikin's Open Theatre to the racially inflected commentary of Luis Valdez's Teatro Campesino and Ariane Mnouchkine's collaboration with Théâtre de Soleil. This book explores the impact of devised theatre on social practice and analyzes Goat Island's use of Pina Bausch's gestural movement, Augusto Boal's Theatre of the Oppressed in Giving Voice, Anna Deavere Smith's devised envelope for Verbatim Theatre, The Tectonic Theatre Project's moment work, Teya Sepinuck's Theatre of Witness, Pig Iron's use of Lecoq mime to build complex physical theatre scripts, and The Riot Group's musical arrangement of collaborative devised text. Included are a foreword by Allen J. Kuharski and three devised plays by Theatre of Witness, Pig Iron, and The Riot Group. Replete with interviews from the initial Pig Iron collaborators on subjects of writing, directing, choreographing, teaching, and developing a pedagogical platform that supports devised theatre.

The Polish Theatre of the Holocaust Grzegorz Niziolek, 2019-05-30 Grzegorz Niziolek's *The Polish Theatre of the Holocaust* is a pioneering analysis of the impact and legacy of the Holocaust on Polish theatre and society from 1945 to the present. It reveals the role of theatre as a crucial medium of collective memory – and collective forgetting – of the trauma of the Holocaust carried out by the Nazis on Polish soil. The period gave rise to two of the most radical and influential theatrical ideas during work on productions that addressed the subject of the Holocaust – Grotowski's *Poor Theatre* and Kantor's *Theatre of Death* – but the author examines a deeper impact in the role that theatre played in the processes of collective disavowal to being a witness to others' suffering. In the first part, the author examines six decades of Polish theatre shaped by the perspective of the Holocaust in which its presence is variously visible or displaced. Particular attention is paid to the various types of distortion and the effect of 'wrong seeing' enacted in the theatre, as well as the traces of affective reception: shock, heightened empathy, indifference. In part two, Niziolek examines a range of theatrical events, including productions by Leon Schiller, Jerzy Grotowski, Tadeusz Kantor, Andrzej Wajda, Krzysztof Warlikowski and Ondrej Spišák. He considers how these productions confronted the experience of bearing witness and were profoundly shaped by the legacy of the Holocaust. *The Polish Theatre of the Holocaust* reveals how -- by testifying about society's experience of the Holocaust -- theatre has been the setting for fundamental processes taking place within Polish culture as it confronts suppressed traumatic wartime experiences and a collective identity shaped by the past.

Theme and Space A.G.F. van Holk, 2023-04-12 Since the appearance of Lotman's *Poetics of the Artistic Text* (1970) and *Universe of the Mind* (1990), and Eco's *Introduction to Semiotics* (1972), the investigation of the working of signs in language, the arts and the sciences has witnessed an ever-increasing impact on our understanding of human culture. In this book an attempt is made at

developing a linguistic model for the semiotics of culture, and to apply this to the analysis of a number of Russian and Polish dramatic texts, mostly from the nineteenth-century. In the first five chapters such well known plays as Ostrovskij's *The Thunderstorm*, Turgenev's *A Month in the Country* and Gogol's *The Inspector-General* are discussed, alternatively with Stowacki's *Fantazy* and some of Fredro's comedies. Special chapters are devoted to the performance of drama, and to some urgent issues concerning the structure of semiotic space. The last and most lengthy chapter presents an outline of so-called text linguistics, here conceived as a variety of case grammar, duely revised for application to the analysis of drama and its non-verbal context. The book addresses itself to readers familiar with Slavic languages and interested in the relation between language and literary themes, and the place of drama in culture

Poland's Angry Romantic Peter Cochran, 2009-05-05 Juliusz Słowacki is one of Poland's most important writers, but his poetry and plays are little known in the West. This book provides a long-overdo, much-needed introduction to him. It contains his popular play *Balladina*, his meditative poem *Agamemnon's Tomb*, and his hilarious mock-epic *Beniowski*, in the style of Byron's *Don Juan*.

The Routledge Handbook to Music under German Occupation, 1938-1945 David Fanning, Erik Levi, 2019-12-06 Following their entry into Austria and the Sudetenland in the late 1930s, the Germans attempted to impose a policy of cultural imperialism on the countries they went on to occupy during World War II. Almost all music institutions in the occupied lands came under direct German control or were subject to severe scrutiny and censorship, the prime objective being to change the musical fabric of these nations and force them to submit to the strictures of Nazi ideology. This pioneering collection of essays is the first in the English language to look in more detail at the musical consequences of German occupation during a dark period in European history. It embraces a wide range of issues, presenting case studies involving musical activity in a number of occupied European cities, as well as in countries that were part of the Axis or had established close diplomatic relations with Germany. The wartime careers and creative outputs of individual musicians who were faced with the dilemma of either complying with or resisting the impositions of the occupiers are explored. In addition, there is some reflection on the post-war implications of German occupation for the musical environment in Europe. *Music under German Occupation* is written for all music-lovers, students, professionals and academics who have particular interests in 20th-century music and/or the vicissitudes of European cultural life during World War II.

Modernism: Representations of National Culture Ahmet Ersoy, Maciej Gęrny, Vangelis Kechriotis, 2010-01-01 Presentations of National Cultures. Fifty-one texts illustrate the evolution of modernism in the east-European region. Essays, articles, poems, or excerpts from longer works offer new opportunities of possible comparisons of the respective national cultures, from the different ideological approaches and finessing projects of how to create the modern state liberal, conservative, socialist and others to the literary and scientific attempts at squaring the circle of individual and collective identities.

Diary 1954 Leopold Tyrmand, 2014-03-31 Leopold Tyrmand, a Polish Jew who survived World War II by working in Germany under a false identity, would go on to live and write under Poland's Communist regime for twenty years before emigrating to the West, where he continued to express his deeply felt anti-Communist views. *Diary 1954*—written after the independent weekly paper that employed him was closed for refusing to mourn Stalin's death—is an account of daily life in Communist Poland. Like Czesław Miłosz, Václav Havel, and other dissidents who described the absurdities of Soviet-backed regimes, Tyrmand exposes the lies—big and small—that the regimes employed to stay in power. Witty and insightful, Tyrmand's diary is the chronicle of a man who uses seemingly minor modes of resistance—as a provocative journalist, a Warsaw intellectual, the spiritual father of Polish hipsters, and a promoter of jazz in Poland—to maintain his freedom of thought.
