Panic in the Jungle Lena Lee, 2021-09-10 Sierra McAllister and her best friends set out on a much-needed vacation to the Caribbean. Sierra hasn't been on vacation in over five years so looks forward to girl time without her husband. The women board the plane, and their relaxing journey begins—except things are not very relaxing. Their flight is purposely rerouted and lasts much longer than it should. When they land, although the suspicious flight attendant says they're in Aruba, Sierra and her friends find themselves stranded in Brazil. At the airport, men with guns force the women into a car and threaten to kill them. They have been kidnapped, and it was all planned. With their families panicked at home, Sierra and the others are sold into the dark world of human trafficking. Their only way to escape is through the jungle, so they leave one danger behind to face another. Sierra knows fear will weaken them. They must stay calm and pray. Not only will their faith kick in, but these four friends will also discover the lengths they're willing to take to survive.

*Girl Uprooted* Lena Lee, 2023-06-08 Lena Lee was born in South Korea grew up moving countries every three years, her world swinging between East and West. *Girl Uprooted* is her deeply personal memoir about her search for a sense of identity and belonging.

**Deadly Double-Cross/Traces of Murder** Lena Diaz, Rachel Lee, 2021-05-19 **Deadly Double-Cross** - Lena Diaz He runs an organization dedicated to pursuing justice for others, but can he do the same for himself? Someone is trying to destroy former chief of police Mason Ford, but he won't go down without a fight. Neither will crime scene analyst Hannah Cantrell, who's convinced he's become a killer's target and will do whatever it takes to help Mason survive. However, that doesn't mean she's ready to risk falling in love with him. Can Mason and Hannah discover the truth before a killer strikes again? **Traces Of Murder** - Rachel Lee She's about to face danger...the kind she never trained for. Neither elite soldier Hillary Kristiansen nor US Special Ops member Trace Mullen knew that a trip to the cemetery to mourn their shared friends' deaths would result in an investigation. But as they bond over their grief, they find themselves determined to prove that the deaths were not mere tragedies - they were murders. In the process, they'll expose a cover-

up...and fight for their lives when an illicit arms dealer sets his sights on them.

Time and Tide Lena Lee N. Robinson,2014-04-15 Lucy Nash has just finished up her sophomore year of high school and is anticipating an uneventful summer at her rural Georgia home. . . that is, until a weird twist of fate and physics takes her on a trip back through time to the year 1975 with Cameron Hall, a boy her age whose own time is thirty years into her future. Cameron is hoping to stop a series of child disappearances, one of which deeply affected his family, and ends up teaming up with his accidental passenger to solve the crime. But despite their access to resources from the future, can two teenagers resolve a mystery that has remained a cold case for over sixty years. . . and what impact will their presence in the past have on their own lives - and their own futures?

*Enhancing Brain Development in Infants and Young Children* Doris Bergen,Lena Lee,Cynthia DiCarlo,Gail Burnett,2020 "Enhancing Brain Development in Infants and Young Children stands out as a significant and inspiring contribution to

the field of early childhood: a must-read for parents-to-be, parents, caregivers, and early childhood educators. This book addresses the remarkable attributes of brain development but, more importantly, guides the reader to create environments and experiences for young children that will effectively enhance their developing brains, and supporting children to flourish as human beings.” –From the Foreword by Sandra J. Stone, professor emeritus, Northern Arizona University This practical resource explains brain development from prenatal to age 8 with suggestions for activities educators and caregivers can use to foster children’s cognitive growth. The authors begin with the basics of brain development, and the issues that affect it, and then provide information specific to infant, toddler, preschool, and kindergarten to primary age levels. Educational activities are described as they relate to physical, language, social, emotional, cognitive, and academic progress relevant to brain development at each age level. Modifications of activities for young children with disabilities are included. The authors also discuss contemporary issues related to the future education of young children, including how technology-augmented experiences may positively and negatively affect children’s development.
