Each chapter deconstructs a range of recent logo solutions by examining and discussing their choice of font, color, characteristics, and imagery. A short design brief and company history is also included in order to illustrate how and why the logo design successfully portrays its message. A selection of case studies provide further in-depth analysis, and walk readers through the reasoning behind the design decisions that made the logo work. "Focus On" sections provide useful information on specific elements such as typography, icons, and colors, and how to apply them to the logo design. *Deconstructing Logo Design* allows readers to learn from successful international logo solutions, which they can then take away and apply to their own designs.
