Lola T70 John Starkey,2002-03 The Lola T70 was the car that Eric Broadley wanted to build for Ford instead of the GT40. He thought the GT40 too conservative in specification for a state-of-the-art sports racing car, so he split with the giant corporation to build the T70 under the aegis of his own company: Lola. Immediately successful, the T70 carried John Surtees to the Championship in the 1966 Can-Am series. The cars were also very successful in Group 7 races until the series ended in 1966, by which time the likes of Denny Hulme, David Hobbs and Brian Redman had all driven T70s to victory. Under continuous development until the Mk IIIb Coupé of 1969, the T70 was never a great endurance racer but achieved major successes in shorter events such as the TT and Martini races. Today, the T70 is a leading force in historic racing. Over many years, John Starkey – T70 owner and ex-Curator of the famous Donington racing car collection – has compiled a huge amount of information on the cars and interviewed many past and present owners and drivers about their experiences with the T70. Uniquely, this book contains the history and specification – where known – of each individual T70 chassis. Available again after an absence of several years, here is the definitive development and racing history of the Lola T70.

Lola T70 - The Racing History & Individual Chassis Record John Starkey,2017-02-01 After Eric Broadley found the Ford GT40 too conservative in specs for a state-of-the-art sports racing car, he left the company to create his own company, Lola, and the car he always truly desired, the Lola T70. Immediately successful, the T70 carried John Surtees to the Championship in the 1966 Can-Am series. The cars were also very successful in Group 7 races until the series ended in 1966, by which time the likes of Denny Hulme, David Hobbs, and Brian Redman had all driven T70s to victory. John Starkey, T70 owner and ex-Curator of the famous Donington racing car collection, has compiled a huge amount of information on the cars and interviewed many past and present owners and drivers about their experiences with the T70. Uniquely, this book contains the history and specification of each individual T70 chassis. Available again after an absence of several years, here is the definitive development and racing history of the Lola T70.

Lola T70 Owner's Workshop Manual Chas Parker,2019-09-24 The Lola T70 was developed in 1965 for sports car racing – Lola built the chassis, which were typically powered by large American V8 engines, predominantly Chevrolets and Fords. The T70 was prolific throughout the mid- to late-1960s, and over 100 examples were built in three versions – both open-topped and coupé models. The first successes for the T70 were in the US, and in 1966, the T70 dominated the Can-Am championship, winning five of the six races in the series – with John Surtees becoming champion in a Chevrolet-powered example. In 1968, T70s finished 1 - 2 in the Daytona 24 Hours, and the T70 was highly successful in the domestic UK and European championships, winning regularly. Today, Lola T70s are regular competitors on the historic racing scene, and examples are highly sought after by collectors. This Lola T70 Owner's Workshop Manual looks at the design, evolution, anatomy and operation of the T70.

Can-Am 50th Anniversary George Levy,2016-09-30 Forget the rule book and relive one of the most exciting race series ever with Can-Am 50th Anniversary! The first rule of Can-Am: There are no rules. Or at least damn few rules. The bodywork had to enclose the wheels and there had to be something that loosely resembled a passenger seat--if your passenger was a badly misshapen human or perhaps a lab monkey. Otherwise, set your racing mind free. No limits to engine options or output, no restrictions on aerodynamic aids or body shape. It was as close to unrestricted road racing as racing had ever gotten or would ever get again. And it was fantastic. From its introduction in 1966 to the end of its classic period in 1974, North America's Can-Am series was the most exciting, technologically advanced, and star-studded racing series of the day. Its essentially rules-free formula attracted everyone from crazed backyard engineers to specialists like McLaren, Chaparral, Shadow, and Lola to manufacturers like Ford, Ferrari, Chevrolet, and Porsche. Top drivers including Mario Andretti, Jackie Stewart, Parnelli Jones, Bruce McLaren, Denis Hulme, Dan Gurney, Phil Hill, Mark Donohue, Peter Revson, Jim Hall, Jody Scheckter, Chris Amon, George Follmer and John Surtees competed on tracks across the US and Canada taking time off from Formula One schedules and other duties to drive in Can-Am because the racing and the cars were so exciting. Can-Am 50th Anniversary offers a heavily illustrated look back at what is arguably the greatest race series ever to grace the roadracing circuits of North America. Photographer Pete Biro was Goodyear Tire&™s official photographer and followed the series throughout the entire run from 1966-'74. The vast majority of the book&™s images are unpublished or long out of circulation. Biro brings his unique perspective and his close relationship with the drivers, team owners, and constructors to bear on the captions while former AutoWeek editor George Levy provides an exciting text reflecting the thrill of Can-Am racing.

Lola GT John Starkey,2022-05-03 Telling the history of Lola Cars Ltd and the story of its groundbreaking Lola Mk VI GT of 1963, used by the Ford Motor Car Company as an inspiration to design the all-conquering Ford GT40.

Aston Martin David Dowsey,The Images Publishing Group,2010 Comprehensive 352-page history with beautiful color photography and detailed illustrations. Includes thorough specification information for each model.

LOLA - All the Sports Racing Cars 1978-1997 Esa Illoinen,John Starkey,2018-05-22 The illustrated record of all Lola cars from 1978 to 1997. Acknowledged Lola experts Esa Illoinen and John Starkey pool their knowledge to provide full detail on all the different types of Lola of this period – single-seaters and sports racing cars. A companion volume covers the 1957-1977 models. A Lola T70 owner/racer himself, John Starkey is also the author of the much acclaimed Lola T70 (published by Veloce).

Stardust International Raceway Randall Cannon,Michael Gerry,2018-09-24 Professional motorsports came to Las Vegas in the mid-1950s at a bankrupt horse track swarmed by gamblers--and soon became enmeshed with the government and organized crime. By 1965, the Vegas racing game moved from makeshift facilities to Stardust International Raceway, constructed with real grandstands, sanitary facilities and air-conditioned timing towers. Stardust would host the biggest racing names of the era--Mario Andretti, Parnelli Jones, John Surtees, Mark Donohue, Bobby Unser, Dan Gurney and Don Garlits among them. Established by a notorious racketeer, the track stood at the confluence of shadowy elements--wiretaps, casino skimming, Howard Hughes, and the beginnings of Watergate. The author traces the Stardust's colorful history through the auto racing

monthlies, national newspapers, extensive interviews and the files of the FBI.

Lola Sports Racers R.M Clarke,2010-03-15 The Lola story began in 1957 when civil engineer Eric Broadley built a Ford Special. The series of legendary sports racing cars that followed is charted in this portfolio using model introductions, track & road test articles, technical and performance data. Models reported on are the Mk 1, 1A, Mk 6 GT, T70, T160, T162, T163, T165, T210, T260, T290, T530, T600, T610, T616, Lola-Aston Martin & Penske Lola. A total of 160 fully illustrated pages.

Ford Total Performance Martyn L. Schorr,2015-09-10 Follow Ford's leap into the 1960s and the performance era--on the streets and on the track! In the early 1960s, Ford Motor Company underwent a dramatic change in corporate philosophy. Previously, under Ford's young chairman, Henry Ford II (the Deuce) safety, not performance, was the goal. But by 1962, even the chairman realized his philosophy needed to change. Ford was nearly invisible to car-crazy baby boomers. Lee Iacocca convinced Ford that he needed to act decisively or risk losing the emerging youth market to the competition. Thus began Ford's Total Performance program. Ford Total Performance is all about Ford's prime racing era from 1961 through 1971. In addition to purpose-built race cars, it also covers production performance cars, specialty models, and unique concepts such as lightweight drag race cars. The book explores the 427 Fairlane Thunderbolt; Mercury Comet; unique V-8 Falcons that competed in the 1963 and 1964 Monte Carlo Rallies; Dick Brannan's 427 A/FX drag car; Ford Indy 500 winning race cars; 427 Overhead Cam SOHC 427 engines as used in A/FX and fuel race cars; Boss 302 and 429 Mustangs for street, drag racing, and Trans-Am; and many more. The Ford-Ferrari war that led to the creation of the legendary GT40 Le Mans race cars isn't forgotten. Featuring unpublished period photographs, plus photos and artwork from Ford designers, Ford Total Performance covers all of Ford's classic race and street cars, including Cobras and Shelby Mustangs. It's a must-have book for any fan of classic American performance cars!

Can-Am Cars in Detail Pete Lyons,2010 The original Canadian-American Challenge Cup series lasted only 8 1/2 seasons, from 1966 into 1974, but what ground-shaking, car-shaping years those were. With minimal rules and lavish prize money, the Can-Am attracted top-flight teams and superstar drivers. It also encouraged innovation, and racing's most inventive minds brought out novel and astounding ideas. Chaparral, Lola, McLaren, Porsche and Shadow are among 22 of these epic machines revisited through stunning studio photography by Peter Harholdt and vivid descriptions by Pete Lyons, long considered the dean of Can-Am journalists.--Publisher's description.
