A Walk in London Salvatore Rubbino, 2012 London - the perfect place for a girl and her mother to spend the day! Follow them as they alight the classic red bus and begin a whirlwind tour of some of London's most iconic landmarks.

City of London David Kynaston, 2012 The 'Square Mile', London's financial powerhouse, rose to prominence with the defeat of Napoleon in 1815. David Kynaston's vibrant history brings this world to life, taking us from the railway boom of the 1830s to the 'Golden Age', when the legendary gold standard reigned supreme. Between the two World Wars the City was affected by the Wall Street Crash, pressured by politicians, trade unions and industrialists, but by the end of the twentieth century it had regained a precarious global might. Woven throughout are the stories of four individuals who shaped the City in different ways -- Nathan Rothschild, Ernest Cassel, Montagu Norman and Siegmund Warburg. But the realm of great bankers and brokers is also the workplace of young clerks throwing paper darts, typists bringing in their sandwiches, and sad racketeers watching aghast as the markets fall. Above all, we see what it was like to work in the City -- the dress codes, eating habits, work hours, pay, humour, changing architecture and language that forged the unique culture of the Square Mile. Richly entertaining, full of vivid anecdotes, this is a story of booms, busts and bankruptcies -- from the Kaffir boom to the Marconi scandal, the 'Big Bang' deregulation of 1986, and the Barings crash in 1995 -- bringing us to the brink of the modern age.

Londoners Craig Taylor, 2011-11-03 Here are the voices of London - rich and poor, native and immigrant, women and men - witnessed by Craig Taylor, an acclaimed journalist, playwright and writer, who spent five years exploring the city and listening to its residents. London has perhaps the most remarkable history of any city in the world. Now its story has a unique voice. Imperial Bodies in London Kristin Hussey, 2021-10-12 Winner, 2022 Whitfield Prize for First Monograph in the Field of British and Irish History Since the eighteenth century, European administrators and officers, military men, soldiers, missionaries, doctors, wives, and servants moved back and forth between Britain and its growing imperial territories. The introduction of steam-powered vessels, and deep-docks to accommodate them at London ports, significantly reduced travel time for colonists and imperial servants traveling home to see their families, enjoy a period of study leave, or recuperate from the tropical climate. With their minds enervated by the sun, livers disrupted by the heat, and blood teeming with parasites, these

patients brought the empire home and, in doing so, transformed medicine in Britain. With *Imperial Bodies in London*, Kristin D. Hussey offers a postcolonial history of medicine in London. Following mobile tropical bodies, her book challenges the idea of a uniquely domestic medical practice, arguing instead that British medicine was imperial medicine in the late Victorian era. Using the analytic tools of geography, she interrogates sites of encounter across the imperial metropolis to explore how medical research and practice were transformed and remade at the crossroads of empire.

The London Problem Jack Brown, 2021-09-15 Brown reflects on anti-London sentiment in the UK as the capital continues to gain power. The United Kingdom has never had an easy relationship with its capital. By far the wealthiest and most populous city in the country, London is the political, financial, and cultural center of the UK, responsible for almost a quarter of the national economic output. But the city's insatiable growth and perceived political dominance have gravely concerned national leaders for hundreds of years. This perception of London as a problem has only increased as the city becomes busier, dirtier, and more powerful. The recent resurgence in anti-London sentiment and plans to redirect power away from the capital should not be a surprise in a nation still feeling the effects of austerity. Published on the eve of the delayed mayoral elections and in the wake of the greatest financial downturn in generations, *The London Problem* asks whether it is fair to see the capital's relentless growth and its stranglehold of commerce and culture as smothering the United Kingdom's other cities, or whether as a global megacity it makes an undervalued contribution to Britain's economic and cultural standing.

Crypts of London Malcolm Johnson, Richard Lordin, 2013-12-02 After the devastation of 1666, the Church of England in the City of London was given fifty-one new buildings in addition to the twenty-four that had survived the Great Fire. During the next hundred years others were built in the two cities of London and Westminster, most with a crypt as spacious as the church above. This book relates the amazing stories of these spaces, revealing an often surprising side to life – and death – inside the churches of historic London. The story of these crypts really began when, against the wishes of architects such as Wren and Vanbrugh, the clergy, churchwardens and vestries decided to earn some money by interring wealthy parishioners in their crypts. By 1800 there were seventy-nine church crypts in London, filled with the last remains of Londoners both illustrious and ordinary. Interments in inner London ended in the 1850s; since then, fifty-two crypts have been cleared, and five partially cleared – in each case resulting in the gruesome business of moving human remains. Today, many crypts have a new life as chapels, restaurants, medical centres and museums. With rare illustrations throughout, this fascinating study reveals the incredible history hidden beneath the churches of our capital. Malcolm Johnson is a retired priest, and has a PhD from King's College, London. His well-received *St Martin-in-the-Fields* was published by Phillimore in 2005.
