*The Poetry of Birds* Simon Armitage,Tim Dee,2011 Birds are the most obvious wild things we have around us. They are much watched and much loved, not least by poets. Bird poetry is as old as British poetry itself, and a remarkable number of poets have written poems about birds. Indeed some of the most famous poems in the language concern birds, from Keats's nightingale and Shelley's skylark to Yeats's swans and Hardy's thrush. In this wonderful anthology poet Simon Armitage and birdwatching enthusiast Tim Dee gather together the best of the past and the present, including those famous poems but also many overlooked gems. And in a fascinating divergence from standard anthology practice, the poems are organized according to ornithological classification, beginning with poems by Marianne Moore and David Wright on the ostrich and the emperor penguin and ending with Emily Dickinson and Wallace Stevens on the oriole and the blackbird.

**Europe's Birds** Rob Hume, Robert Still, Andy Swash, Hugh

Harrop, 2021-12-07 Covering more than 900 species, and illustrated with 4,700 photographs, *Europe's Birds* is the most comprehensive, authoritative and ambitious single-volume photographic guide to Europe's birds ever produced. Easy-to-use, practical and accessible, this guide provides the information necessary for birdwatchers of all abilities to name any bird they see. Detailed descriptions cover the birds in all their plumages--male, female, breeding, non-breeding, adult and immatures, as well as distinctive subspecies. The clear text covers all aspects of identification, including moult and vocalizations, and provides details on range, status and habitat. An unrivalled selection of photographs, chosen to be as informative as possible, makes this a beautiful book to enjoy, as well as an up-to-date and essential source of identification knowledge. *Europe's Birds* is produced by the same team that created *Britain's Birds*, which has been described as without doubt the best photo guide on the market (Andy Stoddart, *Rare Bird Alert*). The authors include top-class wildlife photographers, writers and editors, and an imaginative, highly skilled designer. All are experienced birdwatchers themselves, who know what is needed in an identification guide for birdwatchers living or travelling in Europe.

### **A Charm of Goldfinches and Other Collective Nouns**

Matt Sewell, 2016-10-06 A charm of goldfinches, an ascension of larks, a school of dolphins, a cloud of bats, a murder of crows. All these and more are portrayed in this enchanting new book by much loved artist Matt Sewell, playing on the theme of collective nouns for animals. Illustrated with Matt's inimitable watercolours, and imbued with a love of his subjects that will resonate with people everywhere and of all ages, this book is a great gift for nature and art lovers. Accompanying each illustration is a playful, quirky description of each group's personality that readers cannot help but smile at. Sewell's unique witty take on the subject, and delicately vivid illustrations make for a lovely addition to his collection of pocketable books.

*Tits, Nuthatches and Treecreepers* Simon Harrap, 2010-06-30

This guide covers all 110 of the world's species of tits, nuthatches and creepers. The Parulidae (true tits), Remizidae (penduline tits) and Aegithalidae (long-tailed tits) form the bulk of the book (78 species), with a further 24 species of nuthatch and eight creepers. The text covers each species under a number of headings: identification, sex and age, voice, distribution and movements, habitat, population, habits, breeding biology, description, movements, geographical variation, relationships, and references.

*Ecology and Evolution of Cooperative Breeding in Birds*

Walter D. Koenig, Janis L. Dickinson, 2004-04-22 Cooperative breeders are species in which more than a pair of individuals assist in the production of young. Cooperative breeding is found in only a few hundred bird species world-wide, and understanding this often strikingly altruistic behaviour has remained an important challenge in behavioural ecology for over 30 years. This book highlights the theoretical, empirical and technical advances that have taken place in the field of cooperative breeding research since the publication of the seminal work *Cooperative Breeding in Birds: Long-term Studies of Behavior and Ecology* (1990, HB ISBN 0521 372984, PB ISBN 0521 378907). Organized conceptually, special attention is given to ways in which cooperative breeders have proved fertile subjects for testing modern advances to classic evolutionary problems including those of sexual selection, sex-ratio manipulation, life-history evolution, partitioning of reproduction and incest avoidance. It will be of interest to both students and researchers interested in behaviour and ecology.

Tits, Boobies and Loons: And Other Birds Named by People Who Clearly Hate Birds Stu Royall, 2022-02-17 From the monotonous lark to the rough-faced shag, these poor birds have us all asking: ARE ORNITHOLOGISTS OK?

Migration Melissa Mayntz, 2020-05-14 WINNER OF THE

SILVER MEDAL IN THE ANIMAL & NATURE CATEGORY OF THE NAUTILUS AWARDS 2022 Flight has fascinated humans since we first looked into the sky and saw birds on the wing, and no flights are more fascinating than the extraordinary migrations birds make every day, week, month, and season of the year. Migration explores how birds make these incredible expeditions. From first preparing to migrate, to the different types of migration and the compelling reasons why it is a must. From the high-flying adventures of bar-headed geese that soar above the Himalayan Mountains and the long-distance endurance of Arctic terns that travel from pole-to-pole, birds of all families, from vast seasonal migrators to the more casual nomad, will be explored. As readers migrate through the book's pages, they will also discover avian navigation, curious routes, the hazards of the journey, and why, occasionally, birds end up far from their original destination. Beautifully illustrated, this book will debunk the most outrageous myths about migration as it thoroughly travels the globe exploring the epic journeys these incredible birds make.

**Japanese Long-Tailed Tit and Pomegranate Urchin**

Birds Jacqueline Mitchell, 2020 Thomas Hardy notes the thrush's 'full-hearted evensong of joy illimited', Gilbert White observes how swallows sweep through the air but swifts 'dash round in circles' and Rachel Carson watches sanderlings at the ocean's edge, scurrying 'across the beach like little ghosts'. From early times, we have been entranced by the bird life around us. This anthology brings together poetry and prose in celebration of birds, records their behaviour, flight, song and migration, the changes across the seasons and in different habitats - in

woodland and pasture, on river, shoreline and at sea - and our own interaction with them. From India to America, from China to Rwanda, writers marvel at birds - the building of a long-tailed tit's nest, the soaring eagle, the extraordinary feats of migration and the pleasures to be found in our own gardens. Including extracts by Geoffrey Chaucer, Dorothy Wordsworth, Richard Jefferies, Charles Darwin, James Joyce, John Keats, Charlotte Brontë, Emily Dickinson, Anton Chekhov, Kathleen Jamie, Jonathan Franzen and Barbara Kingsolver among many others, this rich anthology will be welcomed by bird-lovers, country rambblers and anyone who has taken comfort or joy in a bird in flight.
