Jonathan Scott, Angela Scott

The Leopard Giuseppe Di Lampedusa, 2007-11-06 Set in the 1860s, *The Leopard* tells the spellbinding story of a decadent, dying Sicilian aristocracy threatened by the approaching forces of democracy and revolution. The dramatic sweep and richness of observation, the seamless intertwining of public and private worlds, and the grasp of human frailty imbue *The Leopard* with its particular melancholy beauty and power, and place it among the greatest historical novels of our time. Although Giuseppe di Lampedusa had long had the book in mind, he began writing it only in his late fifties; he died at age sixty, soon after the manuscript was rejected as unpublishable. In his introduction, Gioacchino Lanza Tomasi, Lampedusa's nephew, gives us a detailed history of the initial publication and the various editions that followed. And he includes passages Lampedusa wrote for the book that were omitted by the original Italian editors. Here, finally, is the definitive edition of this brilliant and timeless novel. (Translated from the Italian by Archibald Colquhoun.)

The Black Leopard Will Burrard-Lucas, 2021-04-20 This inspiring book tells the story of a photographer's journey to find the mysterious black leopard. There are few creatures as gorgeous and elusive as the black leopard. In Africa, these magnificent cats are so rare as to be the stuff of legend. Will Burrard-Lucas's love for leopards began during his childhood in Tanzania and propelled him into a career as a wildlife photographer. In his quest to

create intimate portraits of animals, he developed innovative technology, including a remotely controlled camera buggy and a high quality camera trap system for photographing nocturnal creatures. Then, one day in 2018, he heard about sightings of a young African black leopard in Kenya and with the help of people from the local community, he succeeded in capturing a series of high-quality photographs of the elusive cat. In this compelling and visually stunning book, Burrard-Lucas tells his story of creativity, entrepreneurship, and passion for wild animals, alongside awe-inspiring images of lions, elephants, and the black leopard itself. • STAR WILDLIFE PHOTOGRAPHER: Will Burrard-Lucas's passion for nature and expertise in camera technology have earned him coverage from National Geographic, The New York Times, and the BBC—and over 1 million fans enjoy his breathtaking work online. • NATURE'S HIDDEN WONDERS: Black leopards are individual animals in whom a gene mutation results in excess melanin and an elegant black coat. Most are found in Southeast Asia, where lush vegetation offers them camouflage. In the semiarid shrub lands of Africa, black leopards are extraordinarily rare. Burrard-Lucas's images—showing these beautiful creatures prowling their territory under cover of night—are vivid reminders of nature's hidden wonders. • INCREDIBLE STORY: This is an adventure story that takes place in remote and wild corners of Africa. It reveals Burrard-Lucas's devotion, vision, and innovation that led to him capturing photos that are not only incredibly rare, but also breathtakingly beautiful. Perfect for: • Aspiring and

professional photographers • Photography buffs • Nature and animal lovers • Big cat enthusiasts • Conservationists • National Geographic readers • Fans of memoir and adventure stories • Travelers to Eastern and Southern Africa

Leopard Desmond Morris, 2014-06-15 The sleek, spotted leopard may be the smallest of the big cats, but its ferocity and solitary style makes lions and tigers seem puny in comparison. Lacking the social mentality of other animals, the leopard is stealthy and selfish, ambushing its prey and carrying it high into a tree where it can dine alone. Humans call leopards the “perfect predator. In *Leopard*, renowned zoologist Desmond Morris seeks to show all sides of the cat, delving into the fascinating history of these incredible animals. Morris examines the leopard’s athletic elegance, predatory skill, wary shyness, and cunning intelligence while also exploring the animal’s parental devotion, preference for solitude, and capacity for revenge. In addition to tracing the evolution of leopards, he considers how humans have related to the animal throughout history. *Leopards*, he shows,

have long featured in the art, mythology, and folklore of ancient Greece, Persia, Rome, and even England, where they have not lived for several millennia. But humans and leopards do not always coexist peacefully; as Morris explains, leopards have been known to attack humans when their food is scarce or they are injured. He reveals how humans have exploited the cats, attempting to train them for circus roles, and how today some people are now making strides toward the leopard's conservation. He also describes their rich symbolism, appearances in literature and film, and the use of the leopard print in both haute couture and down-market fashion. Packed with compelling images of this amazing animal in action, Leopard sheds new light on these gorgeous cats.

The Leopard Is Loose Stephen Harrigan, 2022-01-18 The fragile, 1952 postwar tranquility of a young boy's world explodes one summer day when a leopard escapes from the Oklahoma City zoo, throwing all the local residents into dangerous excitement, in this evocative story of a child's confrontation with his deepest fears For Grady McClarty, an ever-watchful but bewildered five-year-old boy, World War II is only a troubling, ungraspable event that occurred before he was born. But he feels its effects all around him. He and

his older brother Danny are fatherless, and their mother, Bethie, is still grieving for her fighter-pilot husband. Most of all, Grady senses it in his two uncles: young combat veterans determined to step into a fatherhood role for their nephews, even as they struggle with the psychological scars they carry from the war. When news breaks that a leopard has escaped from the Oklahoma City Zoo, the playthings and imagined fears of Grady's childhood begin to give way to real-world terrors, most imminently the dangerous jungle cat itself. *The Leopard Is Loose* is a stunning encapsulation of America in the 1950s, and a moving portrait of a boy's struggle to find his place in the world.

Going beyond the day-to-day footage, it explores the bigger picture of how leopards survive outside the 1,510 sq. km (600 sq. mile) Reserve.

When the cub was born during a fantastic African storm, the sky cracked and brightened with lightning, and Legadema, which means light from the sky, was named. She soon learns from her mother that the path to adulthood isn't always easy. She also has to learn from experience, like when she encounters a hungry pride of lions! Luckily for Legadema, her mom is one fierce protector. Amidst the vibrant, chirping grasslands, bristling with danger and predators, will little Legadema learn to hunt, hide, and thrive as she strikes out on her own? The Leopard's Tale Jonathan Scott, Angela Scott, 2013 Almost everyone on safari hopes for a glimpse of the charismatic and elusive leopard. Chui was the first of a new generation of leopards Jonathan Scott watched and photographed in Kenya's Masai Mara Game Reserve in the 1970s and 1980s. He spent every available moment watching and photographing Chui and her cubs, Light and Dark, aware that he was only privileged to do so for as long as they chose to remain visible. His classic account tells the story of the

mother leopard as a solitary hunter providing for herself and her offspring. He records encounters with baboon, hyaena and man, hazards facing the cubs as they learn to fend for themselves and periods of play and relaxation. Some years after Chui disappeared, a young female appeared, Half-Tail. Jonathan and Angela have followed her and her daughter Zawadi, stars of the BBC's Big Cat Diary, for the past twenty years, bringing the story up to date. Nobody has studied leopards more closely or known them more intimately Jonathan says: 'The update is based on our work with Half-Tail and Zawadi from both the pictures and text perspective - Angie worked with us on Big Cat Diary as the stills photographer from 1996 and before that we both worked with Half-Tail from the time she first appeared around Leopard Gorge and Fig Tree Ridge - our kids grew up on safari with Half-Tail and Zawadi as stars of their own Mara adventures.'
