Lotus 18 Mark Whitelock,2016-08-01 In 1960, Colin Chapman sought to identify the most straightforward and uncomplicated way of building a Formula 1 car. The result was his first rear-engined design, the trendsetting Lotus 18. This book charts the 18's competition history, from its inception, up to 1966 - via sensational victories over Ferrari at Monaco and the Nürburgring.

Lotus 18 Ian Wagstaff,2017-11-07 This is the full biography of Stirling Moss' Lotus 18, chassis number 912. It is the car that drove him to two famous Grand Prix victories, first in Monaco and later at the Nurburgring. You'll get the full story on both of these incredible victories. The accounts include Moss' own recollections of the win, and what it was like racing against the likes of Rob Walker. Moss also retells his experience in the German Grand Prix at the Nurburgring, a victory that would mark his last World Championship Formula 1 victory. 912's entire 1961 season, including seven other World Championship F1 races, is cover in immaculate detail, and is presented with over 300 period photographs (many of which have never been published), and a full portfolio of studio photography of this amazing Lotus 18.

Lotus Europa - Colin Chapman's mid-engined masterpiece Matthew Vale,2022-04-13 The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

The Bahamas Speed Weeks Terry O'Neil,2006 The vision of one man, Captain Sherman Red Crise formed the basis for what was to become the Bahamas Speed Weeks, a series of motor races held on the island of New Providence in the Bahamas. They started in the mid 1950s and continued for 13 years, before ending due to a mix of political decisions, ill fortune and a shift in the direction motor racing had taken over that period of time. These years were described by many commentators as the golden age of motor racing, where internationally acclaimed drivers attended the Speed Weeks to mix with the many amateur racers from America who came to enjoy the scenario of sun, parties and racing. For many drivers the social scene was as important as the racing, and in latter years prize money was an extra incentive to turn up. This well researched account tracks the history of the Speed Weeks with its roller-coaster ride throughout its 13 years existence, and includes stunning photos, complete statistics, and more. With a foreword by Denise McCluggage.

The Iconography of Hindu Tantric Deities Gudrun Bühnemann, 2022-11-28 While Volume I of this two-volume monograph focuses on the deity pantheon of the sixteenth-century Mantramahodadhi, this volume compares for the first time deity descriptions extracted from two earlier and closely related texts, the anonymous Prapañcasāra (ca. tenth century) and Lakṣmaṇadeśika's Sāradātilaka (tenth/eleventh centuries). The latter work, though based on the Prapañcasāra, treats the topics independently and incorporates new deity descriptions while omitting others. Both texts are still influential and are frequently cited. The Sanskrit text of the 78 deity descriptions extracted from the Prapañcasāra and the 101 descriptions from the Sāradātilaka is based on a comparison of different printed editions of these texts, as well as citations found in other works. The Sanskrit text is presented with a literal translation and remarks on the iconography. The introductory section addresses basic questions related to these two works. In addition, a new edition and translation of the important chapters I (on cosmogony) and 25 (on yoga) of the Sāradātilaka are presented in two appendices. A large number of illustrations of deities complement the volume. The print edition is available as a set of two volumes (9789069801193).

The Tropical Turn Sureshkumar Muthukumaran, 2023 This book chronicles the earliest histories of familiar tropical Asian crops in the ancient Middle East and the Mediterranean, from rice and cotton to citrus and cucumbers. Drawing on archaeological materials and textual sources in over seven ancient languages, The Tropical Turn

unravels the breathtaking anthropogenic peregrinations of these familiar crops from their homelands in tropical and subtropical Asia to the Middle East and the Mediterranean, showing the significant impact South Asia had on the ecologies, dietary habits, and cultural identities of peoples across the ancient world. In the process, Sureshkumar Muthukumaran offers a fresh narrative history of human connectivity across Afro-Eurasia from the Bronze Age to the late centuries BCE.

50 Shades of Rust Tom Cotter, 2014-09-15 101 barn-find tales sure to entice any car collector. In recent years, the quest to find and restore forgotten automotive gems has generated a cult-like following - a very large cult-like following. So large, in fact, that the subject of automotive archaeology has inspired an entire genre of television programs, including Counting Cars, Desert Car Kings, Chasing Classic Cars, One of a Kind, What's My Car Worth?, and numerous others. Author Tom Cotter is at the forefront of this movement with his In the Barn series, a line of books that inspired many of the above-mentioned television programs. 50 Shades of Rust collects 90-plus of the all-time best barn-find stories. Each story is accompanied by photographs from the scenes of the finds, creating a heavily illustrated book unlike any barn-find book yet published.

COSWORTH - THE SEARCH FOR POWER (6th Edition) Graham Robson, 2017-04-17 This book covers the entire history, life and times of the famous British high-performance engineering company, from its 1958 foundation by Mike Costin and Keith Duckworth, through its often-exciting and always fascinating evolution, to its expansion and worldwide success in both motorsport and high-performance road car production.

Irresolvable Norm Conflicts in International Law Valentin Jeutner, 2017-08-04 Conventionally, international legal scholarship concerned with norm conflicts focuses on identifying how international law can or should resolve them. This book adopts a different approach. It focuses on identifying those norm conflicts that law cannot and should not resolve. The book offers an unprecedented, controversial, yet sophisticated, argument in favour of construing such irresolvable conflicts as legal dilemmas. Legal dilemmas exist when a legal actor confronts a conflict between at least two legal norms that cannot be avoided or resolved. Addressing both academics and practitioners, the book aims to identify the character and consequences of legal dilemmas, to distil their legal function within the sphere of international law, and to encourage serious theoretical and practical investigation into the conditions that lead to a legal dilemma. The first part proposes a definition of legal dilemmas and distinguishes the term from numerous related concepts. Based on this definition, the second part scrutinises international law's contemporary norm conflict resolution and accommodation devices in order to identify their limited ability to resolve certain kinds of norm conflicts. Against the background of the limits identified in the second part, the third part outlines and evaluates the book's proposed method of dealing with legal dilemmas. In contrast to conventional approaches that recommend dealing with irresolvable norm conflicts by means of non liquet declarations, judicial law-making, or a balancing test, the book's proposal envisions that irresolvable norm conflicts are dealt with by judicial and sovereign actors in a complementary fashion. Judicial actors should openly acknowledge irresolvable conflicts and sovereign actors should decide with which norm they will comply. The book concludes with the argument that analysing various aspects of international law through the concept of a

legal dilemma enhances its conceptual accuracy, facilitates more legitimate decision-making, and maintains its dynamic responsiveness.
