Lotus Johnny Tipler,2022-01-24 From the Mark 1 in 1948 to the World's most powerful electric hypercar – the Evija – in 2021, the story of the Lotus marque encompasses ongoing technical innovation on road and track. With seventy-four F1 Grand Prix wins, six Drivers' and seven Constructors' F1 World Championships chalked up over seven hectic decades, Lotus consolidated its reputation in racing while at the same time creating some of the World's most stylish and desirable sportscars and Grand Tourers, in-house as well as for global automotive clients via its Lotus Engineering consultancy. With over 380 photographs, this book includes: the origins of the business, creating Austin 7-based competition cars; the metamorphosis from sports-racing cars to F1 – and seven World titles; factory relocations, from Hornsey to Cheshunt to Hethel; the road cars: the Elite, Elan, Europa, Excel, Esprit, Elise, Exige and Evora; how sponsorship transformed traditional British Racing Green into Gold Leaf and JPS livery. There are also interviews with key Lotus personnel and drivers.

Lotus 18 Mark Whitelock,2016-08-01 In 1960, Colin Chapman sought to identify the most straightforward and uncomplicated way of building a Formula 1 car. The result was his first rear-engined design, the trendsetting Lotus 18. This book charts the 18's competition history, from its inception, up to 1966 – via sensational victories over Ferrari at Monaco and the Nürburgring.

The Lotus Sūtra Donald S. Lopez Jr.,2016-10-04 A concise and accessible introduction to the classic Buddhist text The Lotus Sutra is arguably the most famous of all Buddhist scriptures. Composed in India in the first centuries of the Common Era, it is renowned for its inspiring message that all beings are destined for supreme enlightenment. Here, Donald Lopez provides an engaging and accessible biography of this enduring classic. Lopez traces the many roles the Lotus Sutra has played in its travels through Asia, Europe, and across the seas to America. The story begins in India, where it was one of the early Mahayana sutras, which sought to redefine the Buddhist path. In the centuries that followed, the text would have a profound influence in China and Japan, and would go on to play a central role in the European discovery of Buddhism. It was the first Buddhist sutra to be translated from Sanskrit into a Western language—into French in 1844 by the eminent scholar Eugène Burnouf. That same year, portions of the Lotus Sutra appeared in English in *The Dial*, the journal of New England's Transcendentalists. Lopez provides a balanced account of the many controversies surrounding the text and its teachings, and describes how the book has helped to shape the popular image of the Buddha today. He explores how it was read by major literary figures such as Henry David Thoreau and Gustave Flaubert, and how it was used to justify self-immolation in China and political extremism in Japan. Concise and authoritative, this is the essential introduction to the life and afterlife of a timeless masterpiece.

Lotus Elite, Eclat and Excel Matthew Vale,2016-02-29 Lotus introduced the Type 75 Elite in 1974. Being a full four-seater coupe with an opening glass tailgate, it was designed to carry a family in comfort while retaining Lotus' trademark, excellent road holding and handling. Perhaps most importantly, it was the first - and successful - step in Colin Chapman's plan to move upmarket and away from Lotus' kit car image. The Elite gave rise to two derivatives, the Eclat and the Excel. The Eclat was a restyled coupe version, sacrificing the Elite's unique rear styling and good rear passenger headroom for a more stylish exterior. With its conventional coupe styling, the Eclat was more mainstream than the Elite, and it was in the end the better seller. In turn, the Eclat spawned the Excel, the last of the Elite-inspired family. Matthew Vale looks at the history of these unusual Lotus models, and gives a thorough guide to buying and owning the cars today. Of interest to all motoring enthusiasts and Lotus owners in particular, it includes information on buying and owning the cars today, specifications, owner's experiences and technical information. Superbly illustrated with 130 colour photographs, both period and contemporary.

British Sports Cars of the 1950s and '60s James Taylor,2014-05-10 E-type Jaguar; Triumph Spitfire; MGA; Austin-Healey – nobody built sports cars like British manufacturers in the 1950s and '60s. There was something very special about the combination of low-slung open two-seater bodywork and spartan interior, a slick sporting gearchange and a throaty exhaust note. This was wind-in-the-hair motoring, and it was affordable by the average young man – at least, until he got married and had a family. MG and Triumph stood out as the market leaders, but many other companies thrived, from luxury manufacturers like Jaguar and even Daimler to other more affordable marques. This colourfully illustrated history tells the exciting story of the British sports car in the 1950s and '60s.
