Lucha Libre: The Man in the Silver Mask Xavier Garza, 2014-01-01 In Xavier Garza's bilingual kids' book, young Carlitos attends his first lucha libre match in Mexico City. At ringside, Carlitos sees the famous luchador—the Man in the Silver Mask, a man whose eyes look terribly familiar. The masked wrestler even smiles at Carlitos! He is mesmerized as the Man in the Silver Mask is pitted against the terrible forces of evil—los rudos, the bad guys of lucha libre. They make the audience boo and hiss! In the end, though, the Man in the Silver Mask triumphs and, in the process, gains a lifelong fan.

Maximilian and the Lucha Libre Club, 2016-10-10 The fights still rage on in the third installation of Max's Lucha Libre Adventures series. Max seems like any other nerdy kid until he's asked to join the Lucha Libre Club. The super-secret club admits only the offspring of wrestling royalty. And Max is a prince, descended through his mother from royal blood, his uncle the very king of lucha libre: The Guardian Angel. Trouble is, the club is so secret that Max can't tell his best friend or girlfriend what he is up to. Just that vexing girl, Paloma. Xavier Garza lives in San Antonio, Texas.

The Quality of Home Runs Thomas F. Carter, 2008-11-13 In parks and cafes, homes and stadium stands, Cubans talk baseball. Thomas F. Carter contends that when they are analyzing and debating plays, games, teams, and athletes, Cubans are exchanging ideas not just about baseball but also about Cuba and cubanidad, or what it means to be Cuban. The Quality of Home Runs is Carter's lively ethnographic exploration of the interconnections between baseball and Cuban identity. Suggesting that baseball is in many ways an apt metaphor for cubanidad, Carter points out aspects of the sport that resonate with Cuban social and political life: the perpetual tension between risk and security, the interplay between individual style and collective regulation, and the risky journeys undertaken with the intention, but not the guarantee, of returning home. As an avid baseball fan, Carter draws on his experiences listening to and participating in discussions of baseball in Cuba (particularly in Havana) and among Cubans living abroad to describe how baseball provides the ground for negotiations of national, masculine, and class identities wherever Cubans gather. He considers the elaborate spectacle of Cuban baseball as well as the relationship between the socialist state and the enormously popular sport. Carter provides a detailed history of baseball in Cuba, analyzing players, policies, rivalries, and fans, and he describes how the sport has forged

connections (or reinforced divisions) between Cuba and other nations. Drawing on insights from cultural studies, political theory, and anthropology, he maintains that sport and other forms of play should be taken seriously as crucibles of social and cultural experience.

How the World Remade Hollywood Ed Glaser, 2022-03-07 For decades, filmmakers worldwide have been remaking Hollywood movies in colorful ways. They've chronicled a singing and dancing Hannibal Lecter in India, star-crossed lovers aboard the doomed Nigerian ship Titanic, a Japanese expedition to the planet of the apes, and an uncivil war in Turkey between Captain America and a mobbed-up Spider-Man. Most of these films were low budget and many were unauthorized, but all of them were fantastic--and lately have begun to resurface thanks to cherry-picked YouTube clips. But why and how were they made in the first place? This book tells the little-known stories of the wily filmmakers who made an Italian 007 flick by casting Sean Connery's tradesman brother, produced a Turkish space opera by stealing a print of Star Wars for its effects footage, and transported a full-fledged Terminator to the present day--not from a post-apocalyptic future, but from the vibrant mythology of Indonesia. Their stories reveal more than mere imitations; they demonstrate the fascinating ways ideas evolve as they cross borders.

Pro Wrestling FAQ Brian Solomon, 2015-04-01 (FAQ Pop Culture). Sport? Entertainment? Art form? Perhaps a bit of all three, with a certain intangible extra something thrown in for good measure, making professional wrestling a truly unique entity unto itself. From its origins in carnivals and sideshow attractions of the 19th century, right up to the multimillion-dollar, multimedia industry of the present day, and all the bizarre, wild, and woolly points in between, Pro Wrestling FAQ delves into the entire history and broad scope of one of popular culture's most enduring yet ever-changing spectacles. With chapters devoted to the many fascinating eras in the history of the business, as well as capsule biographies of some its most memorable and important figures, this book will serve as the ultimate one-volume reference guide for both long-time wrestling nuts and initiates to the grappling phenomenon. Revisit the legendary 1911 Match of the Century pitting World Champion Frank Gotch against archrival George Hackenschmidt, the Russian Lion; experience wrestling's TV golden age in the 1950s, a time of such colorful personages as Gorgeous George and Antonino Rocca; relive the glory days of Hulk Hogan and Andre the Giant, when WWF impresario Vince McMahon took the business mainstream; and get the lowdown on recent favorites, such as John Cena, CM Punk, and others who have taken the business boldly into the 21st century.

50 Years of Bat Research Burton K. Lim, M. Brock Fenton, R. Mark Brigham, Shahroukh Mistry, Allen Kurta, Erin H. Gillam, Amy Russell, Jorge Ortega, 2021-01-23 With more than 1,400 species, bats are an incredibly diverse and successful group of mammals that can serve as model systems for many unique evolutionary adaptations. Flight has allowed them to master the sky, while echolocation enables them to navigate in the dark. Being small, secretive, nocturnal creatures has made bats a challenge to study, but over the past 50 years, innovative research has made it possible to dispel some of the mystery and myth surrounding them to give us a better understanding of the role these animals play in the ecosystem. The structure of the book is based on several broad themes across the

biological sciences, including the evolution of bats, their ecology and behavior, and conservation of biodiversity. Within these themes are more specific topics on important aspects of bat research, such as morphology, molecular biology, echolocation, taxonomy, systematics, threats to bats, social structure, reproduction, movements, and feeding strategies. Given its scope, the book will appeal to the wider scientific community, environmental organizations, and government policymakers who are interested in the interdisciplinary aspects of biology and nature.

Mexploitation Cinema Doyle Greene, 2015-01-28 Thanks in large part to an exploitation film producer and distributor named K. Gordon Murray, a unique collection of horror films from Mexico began to appear on American late-night television and drive-in screens in the 1960s. Ranging from monster movies clearly owing to the heyday of Universal Studios to the lucha libre horror films featuring El Santo and the "Wrestling Women," these low-budget "Mexploitation" films offer plenty of campy fun and still inspire cult devotion, yet they also reward close study in surprising ways. This work places Mexploitation films in their historical and cultural context and provides close textual readings of a representative sample, showing how they can be seen as important documents in the cultural debate over Mexico's past, present and future. Stills accompany the text, and a selected filmography and bibliography complete the volume.

Steel Chair to the Head Nicholas Sammond, 2005-01-13 The antagonists—oiled, shaved, pierced, and tattooed; the glaring lights; the pounding music; the shouting crowd: professional wrestling is at once spectacle, sport, and business. *Steel Chair to the Head* provides a multifaceted look at the popular phenomenon of pro wrestling. The contributors combine critical rigor with a deep appreciation of wrestling as a unique cultural form, the latest in a long line of popular performance genres. They examine wrestling as it happens in the ring, is experienced in the stands, is portrayed on television, and is discussed in online chat rooms. In the process, they reveal wrestling as an expression of the contradictions and struggles that shape American culture. The essayists include scholars in anthropology, psychology, film studies, communication studies, and sociology, one of whom used to wrestle professionally. Classic studies of wrestling by Roland Barthes, Carlos Monsiváis, Sharon Mazer, and Henry Jenkins appear alongside original essays. Whether exploring how pro wrestling inflects race, masculinity, and ideas of reality and authenticity; how female fans express their enthusiasm for male wrestlers; or how lucha libre provides insights into Mexican social and political life, *Steel Chair to the Head* gives due respect to pro wrestling by treating it with the same thorough attention usually reserved for more conventional forms of cultural expression. Contributors. Roland Barthes, Douglas L. Battema, Susan Clerc, Laurence de Garis, Henry Jenkins III, Henry Jenkins IV, Heather Levi, Sharon Mazer, Carlos Monsiváis, Lucia Rahilly, Catherine Salmon, Nicholas Sammond, Phillip Serrat, Philip Sewell
