Luminary Krista McGee, 2014-01-14 Thalli thought escaping to the surface would mean freedom. But is she any less of an anomaly aboveground? After escaping an underground annihilation chamber, Thalli, Berk, Rhen, and John find themselves fleeing across the former United States, aboveground for the first time. As the defectors cross the forgotten landscape, the three youths see things they had only read about on screens: horses, rain, real books—and a colony of unsanctioned survivors living the ancient way in a town called New Hope. When the citizens of New Hope reveal the truth of what happened years ago, Thalli is left unsettled and skeptical of everything she's ever been told. Can she trust anything from the State, including her own feelings for Berk? When she volunteers for a peace mission to New Hope's violent neighbor, Athens, her confusion mounts as the supposedly ruthless Prince Alex turns out to be kind and charming. Although everyone in New Hope warned her not to, she can't help but fall for him. Meanwhile, John's unwavering faith in the goodness of the Designer begins to make its mark on Thalli's heart. But can Thalli really come to trust in a generous, protective Designer who rules over all things? Would that not be setting herself up for another betrayal? The time for her to decide is now . . . because the State is closing in. "McGee once again blends a Christian message within a horrific science fiction plot . . . death, torture, and confusing love triangles." —Booklist "McGee blends the determination of faith, the malevolence of those who extol power over decency, and the assertion of individual integrity in a humane glimpse at youthful courage." —Publisher's Weekly

The Luminaries Eleanor Catton, 2013-10-15 The winner of the Man Booker Prize, this expertly written, perfectly constructed bestseller (The Guardian) is now a Starz miniseries. It is 1866, and Walter Moody has come to stake his claim in New Zealand's booming gold rush. On the stormy night of his arrival, he stumbles across a tense gathering of 12 local men who have met in secret to discuss a series of unexplained events: a wealthy man has vanished, a prostitute has tried to end her life, and an enormous cache of gold has been discovered in the home of a luckless drunk. Moody is soon drawn into a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, *The Luminaries* is at once a fiendishly clever ghost story, a gripping page-turner, and a thrilling novelistic achievement. It richly confirms that Eleanor Catton is one of the brightest stars in the international literary firmament.

You won't find it on a map, your phone won't work here, and the forest outside town might just kill you. Winnie Wednesday wants nothing more than to join the Luminaries, the ancient order that protects Winnie's town—and the rest of humanity—from the monsters and nightmares that rise in the forest of Hemlock Falls every night. Ever since her father was exposed as a witch and a traitor, Winnie and her family have been shunned. But on her sixteenth birthday, she can take the deadly Luminary hunter trials and prove herself true and loyal—and restore her family's good name. Or die trying. But in order to survive, Winnie enlists the help of the one person who can help her train: Jay Friday, resident bad boy and Winnie's ex-best friend. While Jay might be the most promising new hunter in Hemlock Falls, he also seems to know more about the nightmares of the forest than he should.

Together, he and Winnie will discover a danger lurking in the forest no one in Hemlock Falls is prepared for. Not all monsters can be slain, and not all nightmares are confined to the dark. You'll want to get lost in the world of The Luminaries again and again.”—Leigh Bardugo, #1 New York Times bestselling author At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

LUMINARY Kimia Madani,2017-03 Writers create worlds for themselves when the ones in which they live become impossible to bear. They free themselves and others with their words. They free the truth and let it sing from the page. 'The Luminary' does this by illuminating the duality of the human experience. Through a series of poems about love, loss, heartbreak, growth, and transformation, it reveals each little seed of experience as a stepping stone that will catapult us to where we need to be. Connecting to themes of feminism, mythology, and the vast and mischievous universe, 'The Luminary' is in many ways about the power of learning to answer and embrace the call of our own darkness, and in doing so, finally letting the dusty corners in our souls look up toward the light. Because it's in the telling that writers do their work-and it's through words, and the worlds they construct-that we, as human beings, are truly set free.

Sunburst and Luminary Don Eyles,2019-09 In 1966 the author, newly graduated from college, went to work for the MIT laboratory where the Apollo guidance system was designed. His assignment was to program the complex lunar landing phase in the Lunar Module's onboard computer. As Apollo 11 approaches, the author flies lunar landings in simulators and meets the astronauts who will fly the LM for real. He explains the computer alarms that almost prevented Neil Armstrong from landing and describes a narrow escape from another dangerous problem. On Apollo 14 he devises a workaround when a faulty pushbutton threatens Alan Shepard's mission, earning a NASA award, a

story in Rolling Stone, and a few lines in the history books. This memoir is a new kind of book about Apollo. It tells a story never told before by an insider -- the development of the onboard software for the Apollo spacecraft. It makes a vertical connection between technical details and historic events, but by broadening the story using his own experiences as he grows into adulthood in the 1960s the author draws a parallel between that era of successful space exploration, and the exploration, inner and outer, that was taking place in the culture.

Envisioning a Tibetan Luminary William M. Gorvine,2018-10-26 *Envisioning a Tibetan Luminary* examines the religious biography of Shardza Tashi Gyaltsen (1859-1934), the most significant modern figure representing the Tibetan Bön religion—a vital minority tradition that is underrepresented in Tibetan studies. The work is based on fieldwork conducted in eastern Tibet and in the Bön exile community in India, where traditional Tibetan scholars collaborated closely on the project. Utilizing close readings of two versions of Shardza's life-story, along with oral history collected in Bön communities, this book presents and interprets the biographical image of this major figure, culminating with an English translation of his life story. William M. Gorvine argues that the disciple-biographer's literary portrait not only enacts and shapes religious ideals to foster faith among its readership, but also attempts to quell tensions that had developed among his original audience. Among the Bön community today, Shardza Tashi Gyaltsen has come to be unequivocally revered for an impressive textual legacy and a saintly death. During his lifetime, however, he faced prominent critics within his own lineage who went so far as to issue polemical attacks against him. As Gorvine shows, the biographical texts that inform us about Shardza's life are best understood when read on multiple registers, with attention given to the ways in which the religious ideals on display reflect the broader literary, cultural, and historical contexts within which they were envisioned and articulated.
