Through The 8th Bandung Creative Movement, scholars from 15 Universities around the Asian and European countries have discussed this issue where Human-Centered society became the main consideration in the development. Three topics are presented to the readers. Firstly, Sustainable Cities and Communities explores the sub-fields that construct a more sustainable environment for society post-pandemic era, such as technologies, transportation, interior design, architecture, urban planning, etc. While Art and Design: Recontextualization of Nusantara Tradition and Indigenous Culture concerned the novel perspectives on recognizing cultural aspects that shape the face of creative industry, from cultural identity, visual and performing arts, pop culture to language and media. The last topic, Changes and Dynamics in The Creative Industries, reviews the

creative approach toward the industry's current trends, including marketplace, destination branding, or digital culture ecosystem. This book will enrich the mind of everybody who is an enthusiast of innovative research on creative industries, human-centered technologies, environmental design, and excellent society 5.0 post-pandemic era.

The Future of Global Retail Winter Nie, Mark J. Greeven, Yunfei Feng, James Wang, 2021-09-26 China's new retail revolution will completely transform how the world thinks about retail and digital innovation. But is the world ready yet? In this book, the authors share an insider's perspective on what is happening in China to reveal the future for global retail, and a clear framework to help you prepare. The book presents a number of real-world cases, based on interviews and first-hand consumer experience, to decode China's retail revolution so that you can understand what is happening and why, and what it means for the rest of the world. Crucially, the book identifies five critical stages in the development of new retail that global retail executives need to grasp now: lifestyle commerce, Online-Merge-Offline retail, social retail, livestream retail and invisible retail. To help the industry get ready for this new, China-inspired paradigm in retail, the authors present a practical and simple framework – a ten-year strategic roadmap for global retail executives, which we call the “Beyond” the Value Chain Model. China's new retail is not just about fashion, cosmetics, snacks, data-driven convenient stores and commercial live streaming. At a time

when the world of retail is being upended, it offers inspirational lessons in innovation, purpose and agility for global executives across the entire retail spectrum.

War Tao Becomes Saint Zhui BiSanQian,2020-03-02
Unparalleled Sovereign Ye Dongfeng was only an inch away from the Misty Heavenly Dao, but at the critical moment, he was plotted against and reincarnated at the starting point of everything. In this life, Ye Dongfeng had created a perfect dao heart. He slowly got up, used his cold talent to sweep the world, turned his hand into a cloud, and used his own strength to trample all around, suppressing the current era. The regret and unwillingness from his past life had been completely wiped out. His name shook the Primordial Era, and with war as the way, he finally became a Saint Lord.

The Politics of Chinese Medicine Under Mongol

Rule Reiko Shinno, 2016-02-22 Under the rule of the descendants of Chinggis Khan (1167-1227), China saw the development of a new culture in which medical practice came to be considered a highly respected occupation for elite men. During this period, further major steps were also taken towards the codification of medical knowledge and promotion of physicians' social status. This book traces the history of the politics, institutions, and culture of medicine of China under Mongol rule, through the eyes of a successful South Chinese official Yuan Jue (1266-1327). As the first comprehensive monograph on history of medicine in China under the Mongols, it argues that this period was a separate moment in Chinese history, when a configuration of power different from that of previous and succeeding periods created its own medical culture. The Politics of Chinese Medicine under Mongol Rule emphasizes the impact of the political and institutional changes caused by the Mongols and their collaborators on the social and cultural history of medicine, which culminated in the medical theory of Zhu Zhenheng (1282-1358), still influential in East Asian medicine. Using a variety of Chinese-language sources including gazetteers, legal texts, biographies, poems, and medical texts, it analyses the roles of the Mongols and West and Central Asians as cultural brokers and also as unifiers of China. Further, it views North and South Chinese elites as agents of historical change rather than as victims of Mongol oppression. Underlining the complexity of the history of China under the Mongols and the significance of time and geography

for the study of this history, this book will be of great interest to students and scholars of Chinese medical history, Chinese social and cultural history, and medieval global history.

Billionaire, Let's Divorce Luo

Yingbinfen, 2020-04-20 In order to treat his parents' illness, Quercus shuriensis chose to marry into a rich family as the birth machine. Every time they made love, she couldn't see her husband's face. There was a mysterious room in the manor where no one was allowed to enter, and from time to time, blood-curdling screams could be heard. The Suli oak tree could not leave the manor, so he could only obediently wait for

his pregnancy. The servants here were heartless, scheming and scheming behind the scenes. Her heart lacked love and love. In her solitude, she met the warm Doctor Duan. She found comfort in his body and gradually developed feelings for him. What she didn't know was that there was another reason for all of this ...

The History of Science and Technology in Yuan Dynasty Li Shi, The book is the volume of "The History of Science and Technology in Yuan Dynasty" among a series of books of "Deep into China Histories". The earliest known written records of the history of China date from as early as 1250 BC, from the Shang dynasty (c. 1600–1046 BC) and the Bamboo Annals (296 BC) describe a Xia dynasty (c. 2070–1600 BC) before the Shang, but no writing is known from the period The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations, and is regarded as one of the cradles of civilization. The Zhou dynasty (1046–256 BC) supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred

with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death, and was supplanted by the longer-lived Han dynasty (206 BC – 220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men, well-versed in calligraphy, history, literature, and philosophy, were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644–1912), which was replaced by the Republic of China in 1912, and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace, and periods of war and failed statehood – the most recent being the Chinese Civil War (1927–1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras control stretched as far as Xinjiang and Tibet, as at present. Traditional culture, and influences from other parts of Asia and the Western world (carried by waves of immigration,

cultural assimilation, expansion, and foreign contact), form the basis of the modern culture of China.

Dictionary of the Ben cao gang mu, Volume 3

Zheng Jinsheng, Nalini Kirk, Paul D.

Buell, 2018-02-23 The Ben cao gang mu, compiled in the second half of the sixteenth century by a team led by the physician Li Shizhen (1518–1593) on the basis of previously published books and contemporary knowledge, is the largest encyclopedia of natural history in a long tradition of Chinese materia medica works. Its description of almost 1,900 pharmaceutically used natural and man-made substances marks the apex of the development of premodern Chinese pharmaceutical knowledge. The Ben cao gang mu dictionary offers access to this impressive work of 1,600,000 characters. This third book in a three-volume series offers detailed biographical data on all identifiable authors, patients, witnesses of therapies, transmitters of recipes, and further persons mentioned in the Ben cao gang mu and provides bibliographical data on all textual sources resorted to and quoted by Li Shizhen and his collaborators.

Intoxicated Jianghu Qing ShanGuRen, 2020-05-13

Shiya Village is a remote, climate-friendly village. The people here are hardworking and kind, the men are self-sufficient in their work. This year's spring, however, broke the serenity of the past. A group of men surrounded the area ... So there was a river of blood here. Auntie Shi did her best. He placed the stone book and sword of his beloved son on Qing Feng to show off his

skills. The bones of the books and swords were unique as they practiced martial arts at the Clear Wind Monastery. He didn't want to get hit by a fluke. Familiar with the plain girl swordsman Wen Zhu. He had a feud with the Martial Arts Sect. By chance and coincidence, he learnt the sword kinesis technique of a senior. But the danger was getting closer. As a result, the river and the lake were dangerous, with a slim chance of survival. Shi Shujian and Xiu Wenzhu's minds were linked. Finally, he found out the secret of the Bloody Rock Cliff Village. Together, they defeated the great devil, Dongfang Xiao. Escape from this world ... Spring came. Stone Cliff Village was still as beautiful as ever. Close]

Male Idols and Branding in Chinese Luxury Amanda Sikarskie, Lan Lan, Peng Liu, 2022-12-29 Challenging the Western view of idols as objects of worship, this book explores the role that male idols play in fashion and cosmetics brand marketing in mainland China, Hong Kong, and Macau; including the role of the female gaze. It examines idols in the more modern, pan-Asian sense of the word - as objects of social devotion, worshipped by the adoring masses and, in China and Korea, as objects of social and moral uplift. The contemporary idol wields great power - the power to influence taste, and to sell - and *Male Idols and Branding in Chinese Luxury* focuses on their ability to arouse the consumer appetite to buy. In China, popular culture idols play a vital role in the luxury fashion and cosmetics industries as brand ambassadors and this volume fills a critical gap in the English-language literature on this key element of the marketing industry, bringing together authors from the United States and China, and featuring case studies on idols Wang Yibo and Xiao Zhan. Through considering the subtleties of branding and marketing in China, Korea, and Japan, and the relationship of Chinese idols to fans and consumers in other Asian countries, the authors delve into brand-idol collaborations, particularly

through lenses of brand image and toxic fan culture.

Thinking with Cases Charlotte Furth, Judith T. Zeitlin, Ping-chen Hsiung, 2007-02-28 Case studies fascinate because they link individual instances to general patterns and knowledge to action without denying the priority of individual situations over the generalizations derived from them. In this volume, an international group of senior scholars comes together to consider the use of cases to produce empirical knowledge in premodern China. They trace the process by which the project of thinking with cases acquired a systematic and public character in the ninth century CE and after. Premodern Chinese experts on medicine and law circulated printed case collections to demonstrate efficacy or claim validity for their judgments. They were joined by authors of religious and philosophical texts. The rhetorical strategies and forms of argument used by all of these writers were allied with historical narratives, exemplary biographies, and case examples composed as aids to imperial statecraft. The innovative and productive explorations gathered here present a coherent set of interlocking arguments that will be of interest to comparativists as well as specialists on premodern East Asia. For China scholars, they examine the interaction of different fields of learning in the late imperial period, the relationship of evidential reasoning and literary forms, and the philosophical frameworks that linked knowledge to experience and action. For comparativists, the essays bring China into a

global conversation about the methodologies of the human sciences. Contributors: Chu Honglam, Charlotte Furth, Hsiung Ping-chen, Jiang Yonglin, Yasuhiko Karasawa, Robert Sharf, Pierre-Étienne Will, WuYanhong, Judith T. Zeitlin.

Modern Chinese Religion I (2 vols.) ,2014-12-04
Defining religion as “value systems in practice”, Modern Chinese Religion is a multi-disciplinary work that shows the processes of rationalization and interiorization at work in the rituals, self-cultivation practices, thought, and iconography of Buddhism, Daoism, and Confucianism in the 10th-14th centuries.

The Song-Yuan-Ming Transition in Chinese History
Paul Jakov Smith, Richard von Glahn, 2020-03-23
This volume seeks to study the connections between two well-studied epochs in Chinese history: the mid-imperial era of the Tang and Song (ca. 800-1270) and the late imperial era of the late Ming and Qing (1550-1900). Both eras are seen as periods of explosive change, particularly in economic activity, characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture. The task of establishing links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty (1271-1368). This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs. This book aims to restore continuity to that historical narrative by filling the gap between mid-imperial and late imperial China. The contributors argue that the Song-Yuan-Ming transition (early twelfth

through the late fifteenth century) constitutes a distinct historical period of transition and not one of interruption and devolution. They trace this transition by investigating such subjects as contemporary impressions of the period, the role of the Mongols in intellectual life, the economy of Jiangnan, urban growth, neo-Confucianism and local society, commercial publishing, comic drama, and medical learning.

The Oxford Handbook of Social Media and Music Learning Janice L. Waldron, Stephanie Horsley, Kari K. Veblen, 2020-09-23 The rapid pace of technological change over the last decade, particularly the rise of social media, has deeply affected the ways in which we interact as individuals, in groups, and among institutions to the point that it is difficult to grasp what it would be like to lose access to this everyday aspect of modern life. The Oxford Handbook of Social Media and Music Learning investigates the ways in which social media is now firmly engrained in all aspects of music education, providing fascinating insights into the ways in which social media, musical participation, and musical learning are increasingly entwined. In five sections of newly commissioned chapters, a refreshing mix of junior and senior scholars tackle questions concerning the potential for formal and informal musical learning in a networked society. Beginning with an overview of community identity and the new musical self through social media, scholars explore intersections between digital, musical, and social constructs including the vernacular of born-digital performance, musical identity and projection, and the expanding definition of

musical empowerment. The fifth section brings this handbook to full practical fruition, featuring firsthand accounts of digital musicians, students, and teachers in the field. The Oxford Handbook of Social Media and Music Learning opens up an international discussion of what it means to be a musical community member in an age of technologically mediated relationships that break down the limits of geographical, cultural, political, and economic place.
