Along the Hudson William H. Miller,2012-07-15 The glamour age of ocean liner travel was the 1950s. Nothing could compete with the ocean liner and huge profits were made by the shipping lines. William H Miller tells the story of Luxury Liner Row in this Golden Age.

Confessions from a Luxury Liner Timothy Lea,1976-01-01

SS United States William H. Miller,2022-04-08 The 'SS United States' was a great symbol of post-World War II American genius. She was the most advanced ocean liner of her time—modern, innovative and hugely powerful. Designed to be a commercial liner but easily convertible to wartime troopship, she entered service in July 1952, seventy years ago, to rousing triumph and success. She captured the prized Blue Riband for transatlantic speed, brought glory to America and her owners, and enjoyed great success for a full decade. But after trans-ocean jets arrived, her success slowly faded until fully decommissioned by 1969. Over fifty years of idleness, revival plans and schemes, and neglect and decay followed. To this day, the 'United States' waits silently at a Philadelphia pier. This is the story of a very great and beloved ship—her glory days, but also her days of struggle and indecision.

Cunard-White Star Liners of the 1930s William H. Miller,2015-11-15 William H. Miller, 'Mr Ocean Liner', looks back at the great ships owned and operated by Cunard-White Star during the 1930s.

The Last Atlantic Liners William H.Miller,2013-08-29

SS United States William H. Miller,2009-10-15 The story of the world's fastest passenger liner, from Blue Riband winning maiden voyage to abandonment in Philadelphia and her possible restoration as the most famous ocean liner of the post-war period.

Luxury liner Emmylou Harris,1977

Normandie John Maxtone-Graham,2007 A magnificent tribute to the illustrious and ill-fated steamship. *Normandie* was unquestionably the most beautiful ocean liner ever built. The world's largest at the time, she also became the world's fastest. Her art deco interiors were unrivaled: capacious, elegant, and chic, decorated by teams of France's most talented artists. Yet *Normandie* was plagued with frustrations—never attracting more passengers than the competition and tragically ending her days in flames at New York's Pier 88. Celebrated maritime historian John Maxtone-Graham confesses to a hypnotic fascination with *Normandie*. In this comprehensive volume, enriched by over 200 photographs and illustrations, he documents every aspect of the vessel's decorative antecedents, design, construction, and service. Always articulate, entertaining, and devastatingly well informed, Maxtone-Graham has created the definitive *Normandie* panegyric, a comprehensive and, at times, heartbreaking account of this fabled liner. 30 color and 175 black-and-white illustrations.

The story of the Queen Mary 2 is told by noted maritime historian John Maxtone-Graham, whose engaging text takes us through the building of the ship and details its world-class amenities.

Gateway to the World William H. Miller, 2015-09-15 A history of the Port of New York, one of the great ports of the world, told using colour photography.

Meg & the Mystery Man Elise Title, 2012-07-16 Where Are They Now? For Meg Delgado, it's an exciting career as a private investigator specializing in cruise-ship crime. Her latest assignment is to catch a thief—by playing the role of a wealthy socialite aboard the glamorous luxury liner Galileo. She's already got a suspect in mind: a debonair Cary Grant type named Noah Danforth. But if Meg's not who she seems to be, neither is Noah! And they'll both discover that deceptions and disguises lead to danger...and to romance.

Boat Trains: The English Channel & Ocean Liner Specials Martyn Pring, 2021-01-18 A study of the specialty train, including its history, development, and operation beginning at the end of the nineteenth century. In many ways this title, featuring the evolution of cross-channel boat trains and the many dedicated services responsible for moving international passengers to and from trans-Atlantic steamers, is an extension of luxury railway travel. But that's not the full story as it encapsulates more than 125 years of independent and organised tourism development. At the end of the nineteenth century, faster and more stable twin-screw vessels replaced cross-channel paddlers resulting in a significant expansion in the numbers of day excursionists and short-stay visitors heading to Belgium, France and the Channel Islands. Continental Europe, as it had done since the end of the Napoleonic Wars beckoned, introducing ideas of modern-day mass tourism. Numerous liners bestriding the globe were British domiciled. Major ports became hives of commercial activity involving moving freight and mail, as well as transporting all manner of travellers. Not only was there intense competition for passenger traffic between the Old and New World and Britain's imperial interests, greater numbers of well-heeled tourists headed off to warmer winter climes, and also experimented with the novel idea of using ocean steamers as hotels to visit an array of diverse destinations. Cruise tourism and the itinerary had arrived as 'Ocean Special' boat trains became essential components of railway and port procedures. Whilst some railway operations were dedicated to emigrant traffic, continental and ocean liner boat trains were also synonymous with the most glamorous travel services ever choreographed by shipping lines and railway companies working closely in tandem. This well illustrated book explores the many functions of boat train travel. "This book should appeal to the rail fan, the ship enthusiast, the connoisseur of travel posters and those interested in the business of transportation. I know of nowhere else one can find so much information on boat train operation in one book. . . . Well worth a read by anyone interested in the interconnectivity of different means of public transportation." —Charles H. Bogart, Steamship Historical Society of America

Ocean Liners Karl Zimmermann, 2008 Ocean liners once sailed all the world's seas and played important roles in times of peace and war. Ships transported the rich and famous as well as millions of immigrants to new countries. Over time, airplanes changed the nature of travel and the role of the ocean liners. Today's cruise ships are dramatically different from the liners of old, bigger than ever, they are like small cities on the water.
