Good taste, fashion, luxury: a genteel Melbourne family and their rubbish Sarah Hayes,2014-09-09 Melbourne grew during the 19th century from its fledgling roots into a global metropolitan centre, and was home to many people from a range of social and cultural backgrounds. The Martin family arrived in Melbourne in 1839 and soon established themselves at the genteel Viewbank estate near Heidelberg. They were typical of the early, middle-class immigrants to Melbourne who brought their gentility and privilege with them to the colony. The Martins spent many years at Viewbank, and the physical remains they left behind provide a valuable case study for examining class negotiation in the colony through historical archaeology. In this important study, material culture is used to understand the unique way in which the Martin family used gentility to establish and maintain their class position.

The British Folk Revival Michael Brocken, 2022-08-26 Almost 20 years ago Michael Brocken created from his doctoral research, what became both a seminal and contested volume concerning the social mores surrounding the British Folk Revival up to that point in time: *The British Folk Revival 1944–2002*. In this long-overdue second edition he revisits not only his own research, but also that of others from the 1990s and early 21st century. He then considers how a discourse of folkloric authenticity emerged in the closing years of the 19th century and how a worrying nationalistic immanence came to surround folk music and dance during the inter-war years. Brocken also proposes that the media: records, radio and TV in post-WWII folk revivalism can offer us important insights into how self-directed learning of the folk guitar emerged. Brocken moves on to consider the business structures of the contemporary folk scene and how relationships are formed between contemporary folk business and the digital and social media spheres. In his penultimate chapter he discusses the masculinisation of folk traditions and asks important

questions about how our folk traditions are carried and are authorised. In the final chapter he also considers the rise of an exciting new folk live music built environment.
