US Marine Corps in the Second World War Michael Green,2018-06-30 The United States Marine Corps played a leading role in the war against Japan from Pearl Harbor in December 1941 until VJ Day on September 2, 1945. Living up to its motto the First to Fight, the 1st Marine Division landed on the Japanese-occupied island of Guadalcanal in the south Pacific on August 7, 1942 and fought its way up the central Solomon Island to Cape Gloucester in the territory of New Guinea. In October 1942, the Marine Corps captured Tarawa Atoll and so began their advance across the central Pacific, fighting many famous and bloody battles such as Saipan, Tinian, Guam, Iwo Jima, and finally the 82-day epic struggle for Okinawa. These victories came at high cost, with 19,737 Marine killed and 67,207 wounded. This classic Images of War title presents a graphic overview of the Corps' legendary campaign in text and contemporary images. The author expertly describes the full range of Marine Corps weaponry and explains their organization, tactics, and fighting doctrine.

Allied Armoured Fighting Vehicles of the Second World War Michael Green,2017-04-30 Expert author Michael Green has compiled a full inventory of the armored fighting vehicles developed and deployed by the Allied armies during the six year war against Nazi Germany and her Axis partners. Tank destroyers included the US Army's M18 Hellcat and M36 Jackson, the British Archer and Achilles and the Soviets SU-85, SU-100 and SU-122. Self-propelled artillery vehicles provide indirect fire support. Examples of these were the British Bishop and Sexton, the US M7 Army Priest and The Red Army's SU-152 Beast Slayer. For reconnaissance the Allies fielded armored cars and scout cars such as the Daimler Dingo, the US M8 Greyhound and T17 Staghound, and the Russian BA-10, -20 and -64. AFVs such as the British full tracked Universal Carrier and US M3 halftracks were fitted with a range of weapon systems, such as mortars or machine guns. All these and many more AFVs are expertly described in words and captioned images in this comprehensive work which is the companion volume to the authors Allied Tanks of the Second World War.

CRC Handbook of Phase Equilibria and Thermodynamic Data of Aqueous Polymer Solutions Christian Wohlfarth,2012-08-10 A large amount of experimental data has been published since the debut of the original CRC Handbook of Thermodynamic Data of Aqueous Polymer Solutions. Incorporating new and updated material, the CRC Handbook of Phase Equilibria and Thermodynamic Data of Aqueous Polymer Solutions provides a comprehensive collection of thermodynamic data of polymer solutions. It helps readers quickly retrieve necessary information from the literature, and assists researchers in planning new measurements where data are missing. A valuable resource for the modern chemistry field, the Handbook clearly details how measurements were conducted and methodically explains the nomenclature. It presents data essential for the production and use of polymers as well as for understanding the physical behavior and intermolecular interactions in polymer solutions.

CRC Handbook of Phase Equilibria and Thermodynamic Data of Copolymer Solutions Christian Wohlfarth,2010-11-22 Ten years after the debut of the expansive CRC Handbook of Thermodynamic Data of Copolymer Solutions, The CRC Handbook of Phase Equilibria and Thermodynamic Data of Copolymer Solutions updates and expands the world's first comprehensive source of this vital data. Author Christian Wohlfarth, a chemical thermodynamicist specializing in phase equilibria of polymer and copolymer solutions and a respected contributor to the CRC Handbook of Chemistry

and Physics, has gathered up-to-the-minute data from more than 500 newly published references. Fully committed to ensuring the reliability of the data, the author included only results with published or personally communicated numerical values. With volumetric, calorimetric, and various phase equilibrium data on more than 450 copolymers and 130 solvents, this handbook furnishes: 150 new vapor-liquid equilibrium datasets 50 new tables containing classical Henry's coefficients 250 new liquid-liquid equilibrium datasets 350 new high-pressure fluid phase equilibrium 70 new PVT-properties datasets 40 new enthalpic datasets Expanded second osmotic virial coefficients data table Carefully organized, clearly presented, and fully referenced, The Handbook of Phase Equilibria and Thermodynamic Data of Copolymer Solutions will prove a cardinal contribution to the open literature and invaluable to anyone working with copolymers.

Principles and Practice of Constraint Programming - CP 2012 Michela Milano, 2012-10-03 This book constitutes the thoroughly refereed post-conference proceedings of the 18th International Conference on Principles and Practice of Constraint Programming (CP 2012), held in Québec, Canada, in October 2012. The 68 revised full papers were carefully selected from 186 submissions. Beside the technical program, the conference featured two special tracks. The former was the traditional application track, which focused on industrial and academic uses of constraint technology and its comparison and integration with other optimization techniques (MIP, local search, SAT, etc.) The second track, featured for the first time in 2012, concentrated on multidisciplinary papers: cross-cutting methodology and challenging applications collecting papers that link CP technology with other techniques like machine learning, data mining, game theory, simulation, knowledge compilation, visualization, control theory, and robotics. In addition, the track focused on challenging application fields with a high social impact such as CP for life sciences, sustainability, energy efficiency, web, social sciences, finance, and verification.

Turmoil Of Emotions GP Singh, 2014-09-19 Life is a drudgery of routine. To say every individual faces similar confrontations is pure travesty of truth. Struggles are indispensable part of life. That has made me altogether a better person. Persistence, preservation and never to look back attitude has helped me overcome this "Turmoil Of Emotions". The Actual experiences of my life are lyrically transformed into prose in this book. Join me on this roller coaster ride of struggle, emotion, fear, expectation and hope. I share this handful of experience with my readers. A simple combination of imagination and realism with a tinge of experience.

Jesuits and Asian Goods in the Iberian Empires, 1580-1700 Pedro Omar Svriz-Wucherer, 2023-06-29 This book analyzes the exchange relations between the colonies of the Iberian Empires, starting from two cities ports, Buenos Aires and Macau in the period 1580-1700. Agents, who were not professional traders such as the members of the Society of Jesus, and the circulation and consumption of Asian goods in the local populations of Buenos Aires and Macau, were analyzed. Both cases of study will show us how these non-state agents- the Jesuits- build their own networks and exchange channels to Chinese goods distribution (i.e silk, porcelain, musk, amber and others) between Asia and Latin American. This book intends to break with the local scheme of Jesuit studies in order to combine the local scale with analysis of inter-regional processes on a continental scale, from a comparative perspective.

Oral Transmission and the Dream Narratives of Matthew 1-2 Alistair N. Shaw, 2019-10-10 The first Gospel has traditionally been considered a very Jewish work. Recent scholarship has suggested some Hellenistic influence. The issue is explored in this work with attention focused on the dream narratives of the first two chapters. An investigation is carried out using a new methodology. The memory techniques used in an oral or semi-literate

society are explored. A search is made for such techniques in Matthew and these are then compared with similar devices in a wide range of literature, Old Testament, contemporary Jewish, Greek and Roman. The intention is that literary practice should help to clarify the cultural setting in which Matthew functions. This is a work which will interest New Testament scholars with a focus on Gospel studies and oral transmission. It may also appeal to some classical scholars or those with a specialized interest in Josephus.

Latin for Local History Eileen A. Gooder, 2014-01-14 Latin for Local History provides a self-teaching guide for those historians who wish to tackle the language in which the majority of pre-eighteenth century historical records have been written. It is unique in dealing only with Latin found in historical records of the medieval period. Practice material and exercises are provided in the form of documents most commonly encountered by the historian in their research - deeds, charters, court rolls, accounts, bishops' registers and so on.

Pain and Purpose in the Pacific Richard Carl Bright, 2014-01-24 What follows here, just a brief insight into Pain and Purpose in the Pacific. This book did not begin with the idea of a chronology of the battles of the Pacific War, although an overview is included. But instead it was intended to be a brief account of the battles on Saipan, Tinian, and Okinawa as I retrace the travels of one Marine from the farmland of Minnesota to Japan and back. Carl J. Johnson spent 30 months in the Pacific. Four of those months were in bitter combat on the islands of Saipan, Tinian, and Okinawa. He is my uncle. I have been blessed to travel, & to spend time at many of the places he traveled during World War II. My travels didn't stop there. As a Continental Airlines pilot based in Guam, now retired and having lived on Saipan, I have had the opportunity over a seven year period to visit other islands that were the scene of horrific battles of World War II. In addition to Saipan, Tinian, and Okinawa, I will mention a few of them. Included are Guam where I was based during the closing years of my airline career; also Belau, which is Palau, and includes Peleliu. Included too in this book are Iwo Jima, Corregidor and the Philippines. In my travels beyond Hawaii and Pearl Harbor, which was my introduction into the Pacific, were Yap, and Truk, which is Chuuk, and Pohnpei in the Carolines. And I've spent time in Japan. During my time in the Pacific, I have been presented with the opportunity to speak with several of the veterans of the Pacific War. Doing so has in some cases allowed me in some small way to understand a sense of the hell they had to suffer through. Included in this report are a few of their stories, as well as stories from some of the people of the islands who in one way or another were involved in the conflict. It is with a depth of gratitude that I acknowledge the Military Historical Tours of Alexandria, Virginia for allowing me to be a part of their tours to the islands of Iwo Jima, and Okinawa, as well as Guam, Tinian and Saipan. I appreciate this organization, dedicated to preserving the memories of the war, and to the honoring of the military personnel who were there at the time. While living on either Guam or Saipan I also was able to visit on my own most of the islands mentioned on this page. But it was the Military Historical Tours, and its President USMC Colonel Warren Wiedhahn (mht@miltours.com) that made it possible for me to visit Iwo Jima. They allowed me to join them once a year for 4 consecutive years. I have since returned a 5th time in March of 2010. It was through this great organization that over a 7 year period (while living on both Guam and Saipan in the Marianas Islands), I was able to meet most of the WWII veterans mentioned here; and these aging veterans of the War in the Pacific whom I have met, have touched my heart. In addition to my uncle, this book is for them too.

Saipan Bruce M. Petty, 2009-04-17 The battle for Saipan is remembered as one of the bloodiest battles fought in

the Pacific during World War II, and was a turning point on the road to the defeat of Japan. In this work, the survivors—including Pacific Islanders on whose land the Americans and Japanese fought their war--have the opportunity to tell their stories in their own words. The author offers an introduction to the volume and arranges the oral histories by location--Saipan, Yap and Tinian, Rota, Palau Islands, and Guam--in the first half, and by branch of service in the second half.

Plato the Teacher William H. F. Altman, 2012-02-16 The pedagogical technique of the playful Plato, especially his ability to create living discourses that directly address the student, is the subject of Plato the Teacher. "The crisis of the Republic" refers to the decisive moment in his central dialogue when philosopher-readers realize that Plato's is challenging them to choose justice by going back down into the dangerous Cave of political life for the sake of the greater Good, as both Socrates and Cicero did.
