Dial M for Mongoose Bruce Hale,2009-12-06 Chet Gecko's investigations often show him the seamy underbelly of school life, but this case throws him for a loop. A deadly stink bomb is unleashed, a school building falls to rubble, money goes missing from the principal's office, and that's just a start. Chet's endurance for trouble is tested, but so is his loyalty: Someone is trying to get his mongoose janitor pal Maureen DeBree fired. A true-blue P.I. doesn't take that kind of monkey business lying down. Standing up, maybe. And stand up he will-to some very shifty school bullies. Chet keeps digging for the truth like a mole after an earthworm sandwich. Oh, foolish detective.

Citizen Science Nancy M. Trautmann,2013 The editors of this book have a straightforward goal: to inspire you to engage your students through public collaboration in scientific research--also known as citizen science. The book is specifically designed to get you comfortable using citizen science to support independent inquiry through which your students can learn both content and process skills. Citizen Science offers you: Real-life case studies of classes that engaged in citizen science and learned authentic scientific processes and the habits of mind associated with scientific reasoning. Fifteen stimulating lessons you can use to build data collection and analysis into your teaching. Plenty of flexibility. You can use the lessons with or without access to field or lab facilities; whether or not your students can collect and submit data of their own; and inside your classroom or outside through fieldwork in schoolyards, parks, or other natural areas in urban or rural settings. You don't need an advanced degree in science to guide your students in productive participation in one of a growing variety of citizen science projects. As the editors note, Such involvement can scaffold teachers' entry into facilitating student investigation while connecting students with relevant, meaningful, and real experiences with science.

Colorado Women Gail M. Beaton,2012-11-15 Colorado Women is the first full-length chronicle of the lives, roles, and contributions of women in Colorado from prehistory through the modern day. A national leader in women's rights, Colorado was one of the first states to approve suffrage and the first to elect a woman to its legislature. Nevertheless, only a small fraction of the literature on Colorado history is devoted to women and, of those, most focus on well-known individuals. The experiences of Colorado women differed greatly across economic, ethnic, and racial backgrounds. Marital status, religious affiliation, and sexual orientation colored their worlds and others' perceptions and expectations of them. Each chapter addresses the everyday lives of women in a certain period, placing them in historical context, and is followed by vignettes on women's organizations and notable individuals of the time. Native American, Hispanic, African American, Asian and Anglo women's stories hail from across the state--from the Eastern Plains to the Front Range to the Western Slope--and in their telling a more complete history of Colorado emerges. Colorado Women makes a significant contribution to the discussion of women's presence in Colorado that will be of interest to historians, students, and the general reader interested in Colorado, women's and western history.

Polio Thomas Abraham,2018-06-29 In 1988, the World Health Organization launched a twelve-year campaign to wipe out polio. Thirty years and several billion dollars over budget later, the campaign grinds on, vaccinating millions of children and hoping that each new year might see an end to the disease. But success remains elusive, against a surprisingly resilient virus, an unexpectedly weak vaccine and the vagaries of global politics, meeting with indifference from governments and populations alike. How did an innocuous campaign to rid the world of a crippling disease become a hostage of geopolitics? Why do parents refuse to vaccinate their children against polio? And why have poorly paid door-to-door healthworkers been assassinated? Thomas Abraham reports on the ground in search of answers.
