US Army AH-1 Cobra Units in Vietnam Jonathan Bernstein, 2012-11-20 Bell's AH-1 Cobra was the first dedicated helicopter gunship to reach frontline service anywhere in the world. Developed as a private venture by the manufacturer, and based on the mechanics of the ubiquitous UH-1 Huey, the Cobra proved a huge success once introduced into combat with the US Army in 1966. Built as a key weapon in the Advanced Aerial Fire Support System concept of 1965, the AH-1 was one of the few aircraft to reach the combat zone after actual combat experience went into its design. The AH-1 helped reduce the losses being suffered by vulnerable troop transport helicopters by providing effective fire suppression during airmobile operations. This book explores its history, technology and crew.

A Dictionary of Military and Technological Abbreviations and Acronyms Bernhard Pretz,2021-05-30

This book, first published in 1983, is a compilation of some 50,000 acronyms and abbreviations used by the British, American, German and Soviet military. It enables the researcher to understand the language of the Armed Forces, their armaments and the related technology, and to reach a greater understanding of the capabilities and duties of the Armed Forces at the end of the Cold War. The Dictionary covers all the services and their technology, and is an indispensable reference work.

United States Military Helicopters Michael Green,2017-10-30 The helicopter came on the scene too late to play other than a minor role in the Second World War but by the Korean conflict the Bell H-13 Sioux, OH-23 Raven, and Sikorsky H-19 Chickasaw were in service.It was in Vietnam that the US military helicopters really came into their own and the best known were the Bell UH-1 Iriquois (known as the Huey), the Boeing CH-47 Chinook, and the massive CH-37 Mojave. The USAF combat search and rescue Jolly Green Giant was indispensable.Attack helicopters have evolved from the early Huey Cobra or Snake and the Boeing AH-64 Apache in the late 80s to when the Sikorsky UH-60 series became the military general purpose chopper.All these formidable aircraft and many more are covered in detail in this superbly illustrated and comprehensive book.

The Son Tay Raid John Gargus,2010-09-28 In May 1970, aerial photographs revealed what U.S.

military intelligence believed was a POW camp near the town of Son Tay, twenty-three miles west of North Vietnam's capital city. When American officials decided the prisoners were attempting to send signals, they set in motion a daring plan to rescue the more than sixty airmen thought to be held captive. On November 20, a joint group of volunteers from U.S. Army Green Berets and U.S. Air Force Special Operations Forces perfectly executed the raid, only to find the prisoners' quarters empty; the POWs had been moved to a different location. Initially, the Son Tay raid was a devastating disappointment to the men who risked their lives to carry it out. Many vocal critics labeled it as a spectacular failure of our nation's intelligence network. However, subsequent events proved that the audacity of the rescue attempt stunned the North Vietnamese, who implemented immediate changes in the treatment of their captives. The operation also restored the prisoners' faith that their nation had not forgotten them. John Gargus not only participated in the planning phase of the Son Tay rescue, but also flew as a lead navigator for the strike force. This revised edition incorporates the most recent information from raid participants and also includes recent translations of North Vietnamese perspectives. No previous account of this top-secret action has given such a full account or such insight into both the execution and the aftermath of Son Tay.

Alabama Warbird Survivors 2003 Harold A. Skaarup, 2002-10 Some of the finest military warbirds in American aviation history are still flying in the Southern State of Alabama. Many of them are on display in a number of excellent air museums, or they have been mounted on pylons to stand as memorials to the many military aviators who called Alabama home. This handbook is designed to provide aviation enthusiasts with a simple locating guide on where to find Alabamays retired warbirds within the state. Many of the aircraft can be found in the Southern Museum of Flight, Birmingham; the United States Army Aviation Museum; the US Space and Rocket Center at Huntsville; Battleship

Memorial Park at Mobile; Maxwell AFB Park at Montgomery; or in the hands of private owners and collectors. The handbook provides photographs of many of the aircraft preserved in Alabama, along with a brief description and history of its service within the US armed forces. The aircraft are listed alphabetically by manufacturer, number and aircraft type. Famous aircraft found on display in Alabama include the Lockheed A-12 Blackbird, and a number of very rare flying machines such as the gigantic one of a kind Boeing Vertol XCH-62 Heavy Lift Helicopter not found in other aviation museums.

The Rocket Company Patrick J. G. Stiennon, David M. Operators Manual ,1990

California Warbird Survivors 2002 Harold A. Skaarup, 2002-07-18 During the twentieth century, civil and military aviation has played a prominent role in the history and development of California. Commercial operators have exploited the advantages offered by aircraft to overcome its unique challenges of geography and climate. By virtue of California's comparative size and strategic importance on the West Coast of the continental USA, a wide variety of military aircraft have been based there through the years. The list of military aircraft types that made up the tapestry of California aviation is as extensive as the list of legendary figures who have contributed to its amazing history. While most of the military aircraft types no longer grace the airspace over California, many can be viewed in their former splendor as they stand as gate guards or museum exhibits. This booklet provides a comprehensive guide to where these restored aircraft can be found. Complementing the

details concerning aircraft specifications and roles, the author has included many facts. Finally, the descriptions of the recovery, restoration and preservation efforts stand as a tribute to the many volunteers who have devoted time, energy and financial support to ensure this rich heritage is preserved.
