Weapons of Patton's Armies Michael Green Gladys Green, Anyone Interested in Military Technology or American History Book jacket.

Modelling the US Army M4 (76mm) Sherman Medium Tank Steven J. Zaloga, 2012-04-20 The Sherman tank was the principal US and Allied tank of World War II more Shermans were built than all German tanks combined. Not only were large numbers of Shermans manufactured, but a large number of variants emerged powered by different types of engines and with different types of hulls, turrets and other details, making it an ideal subject for any modeller. Steven J Zaloga takes on the Sherman tank in this book, providing a guide to four variants across a range of different skill levels, depicting differing colour schemes and techniques which are examined and illustrated in lavish full-colour step-by-step photographs.

*U. S. Army Armored Division 1943-1945* Yves J. Bellanger, 2010-06-01 The author presents an extremely detailed record of the organization, doctrine, and equipment of the Armored Division of September 1943. He examines each unit of the division. A chapter is dedicated to the Tank Battalion, Armored Infantry Battalion, but also Maintenance and Medical Battalions. The author examines the organization and tactical doctrine of each unit and studies the doctrine of employment of the unit, as well as the duties of key personnel. Each sub-unit is presented by lists of personnel, weapons, vehicles, and equipment. The book includes 146 charts depicting the organization of all units. In each chapter, a special paragraph examines the modifications made in the field by armored division's units, as found in unit reports, and histories, and veterans recollections. This is an essential reference for re-enactors, modellers, wargamers, researchers, and all those who require a detailed guide to the U.S. Armored Division during WWII.

*M4 (76mm) Sherman Medium Tank 1943-65* Steven J. Zaloga, 2013-08-20 The M4 Sherman tank was the mainstay of the Western allies between 1942 and 1945. Fast and modern it was a big success and was transported as far afield as Russia and North Africa. The American Chief of Staff claimed in November 1943 it was 'hailed widely as the best tank on the battlefield today...'. However, by the Normandy invasion of June 1944 this was not the case: the new German heavy tanks such as the Panther and Tiger were completely outclassing the Sherman. This title covers the M4 version armed with the 76 mm gun, examining developments such as the HVSS suspension, using much new archive material.

Armored Thunderbolt Steve Zaloga, 2008 • Hundreds of photos, including many never published before with riveting accounts of armored warfare in World War II • Compares the Sherman to other tanks, including the Panther and Tiger • Author is a world-renowned expert on the Sherman tank and American armor Some tank crews referred to the American M4 Sherman tank as a death trap. Others, like Gen. George Patton, believed that the Sherman helped win World War II. So which was it: death trap or war winner? Armor expert Steven Zaloga answers that question by recounting the Sherman's combat history. Focusing on Northwest Europe (but also including a chapter on the Pacific), Zaloga follows the Sherman into action on D-Day, among the Normandy hedgerows, during Patton's race across France, in the great tank battle at Arracourt in September 1944, at the Battle of the Bulge, across the Rhine, and in the Ruhr pocket in 1945.

**T-34-85 vs M26 Pershing** Steven J. Zaloga,2011-12-20 A hotly-debated topic amongst tank buffs is of the relative merits of the Soviet and American tanks of World War II. Using recently revealed documents, Steven Zaloga sheds light on the crucial tank battles of the Korean War as the rival superpowers' finest tanks battled for supremacy. The Soviet-equipped North Korean Peoples Army initially dominated the battlefield with the seemingly unstoppable T34-85. As US tank battalions hastily arrived throughout the late summer and early autumn of 1950, the M26 Pershing took the fight to North Korea with increasing success.

*Panther* Michael Green,Gladys Green,2012-07-20 Author Mike Green provides new insights into the creation and ultimate failure of the German Panther tank. In most people's opinion, the German Panther tank was the most elegant tank design of World War II. It embodied a balance of firepower, armor protection, and mobility unmatched by any other tank of the period. Yet, it was not the war-winner it might have been. Author Mike Green examines the disparity between the potential of the Panther design and the actuality of the fielded Panther tank in this book. Though many viewed the Panther as an engineering masterpiece and a technological breakthrough, it failed to meet expectations on the battlefield, and thus proved a major setback to Hitler's dreams of world domination. Green explores the evolution, and devolution, of the Panther, providing keen insight and new reasons for its ultimate failure.

**US Cold War Tanks and Armoured Fighting Vehicles** Michael Green,2019-08-30 This expert study of the U.S. military's armored vehicles deployed during the Cold War features rare photographs from the wartime archives. To counter the Soviet threat and that of their client States during the Cold War years 1949-1991, the American military deployed an impressive range of main battle tanks and armored fighting vehicles. Expert author Michael Green presents a detailed study of these vehicles and their variants in this informative volume of stunning wartime photographs. The Patton series of medium main battle tanks—including the M46, M47 and M48—supplemented by the M103s Heavy Tank initially formed the core of the US tank fleet. In 1960 the M60 MBT entered service and, in turn, was replaced by the M1 Abrams in 1980. In support were armored reconnaissance vehicles, progressively the M41 bull dog (1951); the M114 (1961), the M551 Sheridan (1967) and M3 Bradley Cavalry Fighting Vehicle (1981). The armored

personnel carrier range included the ubiquitous M113 and its replacement the M2 Bradley, cousin of the M3. All of these vehicles are covered in this highly detailed volume in the Images of War series.

**Sherman Tank, Vol. 4** David Doyle, 2021-04-28 Powered by a massive Ford V-8 engine, the M4A3 Sherman was the standard tank of the US Army during the later stages of WWII, as well as the Korean War. The M4A3 was also supplied to the Marines during WWII, when the Corps faced a shortage of their preferred M4A2. The M4A3 was used by both services during the Korean War and was supplied in large numbers to Allied nations during the post-WWII rebuilding process. This book chronicles the development and use of these vehicles from concept to combat. Through dozens of archival photos, many never before published, as well as detailed photographs of some of the finest existent examples of surviving vehicles, these iconic armored fighting vehicles are explored, and their history is explained.

**US Army Forces in the Korean War 1950-53** Donald Boose, 2013-02-20 When North Korea attacked the South on June 25, 1950, United States forces in East Asia were under the command of General Douglas MacArthur, whose largest ground force was Eighth US Army. This army fought a tenacious defense of South Korea, counterattacked north to the Yalu River with the separate X Corps, before falling back in the face of massive Chinese intervention, conducted a war of movement, and settled into a bloody two-year long period of static warfare. This title examines the combat mission, organization, and evolution of the Eighth US Army in Korea and its 300,000 US ground forces through highly detailed orders of battle, tables of organization and equipment, and examinations of crucial aspects such as doctrine, training, and tactics.

Panzerfaust vs Sherman Steven J. Zaloga, 2019-10-31 In the summer of 1944, across the battlefields of Normandy, US tanks were confronted with a dangerous challenge: the mobile and deadly Panzerfaust and Panzerschreck anti-tank weapons wielded by the German infantry. Having only occasionally encountered such weaponry before, the US tankers were ill-equipped to defend against this kind of attack, and the threat only increased as the summer wore on. This Duel title follows the technological battle for dominance that ensued, as the US Army devised new ways to defend against the threat posed by the German shaped-charge projectiles. From the addition of sandbags and spare tracks to individual tanks made by anxious crews on the ground to the large-scale programmes put together by the US armies, the book explores the implementation and effectiveness of the various tactics employed by the tank crews, as well as the technology behind the anti-tank weapons wielded by their German adversaries. Drawing on first-hand accounts from the men on the ground, this illustrated title examines the evolving trial of strength between US armour and innovative German anti-tank weaponry in the climactic months of World War II in Europe.

*Flame Dragons of the Korean War* Jerry Ravino, Jack Carty, 2003 This book is the result of collaboration by Jerry Ravino and Jack Carty, veterans of the Korean War with the Flame Platoon, Headquarters Company, First Tank Battalion, First Marine Division, who did not meet until almost 50 years after what went down in history as the Forgotten War. Although the two former tankers served with the Flame Platoon in different places and different times in that conflict, it is a testament to their determination to research and record a part of the war that heretofore had not been chronicled in detail. Though it has been some 50 years past the fact, this is their

story -- as memory best serves them and others who helped them tell it. Learn more about the FLAME DRAGONS @ [www.flamedragons.com](http://www.flamedragons.com).

**Hearts of Iron** Jerry Ravino, Jack Carty, 2011-02-21 HEARTS OF IRON is the epic true story of a little-known but significant part of the Korean War, told by the brave men of the Flame Platoon, First Tank Battalion, First Marine Division. This book shares the honest, personal accounts of combat, fear, death, and survival of these comrades of the Forgotten War, most of whom were not even trained to be Flame Tankers yet fought with weapons possessing some of the most lethal fire ability of any rolling armament in the war. Join Jerry Ravino and Jack Carty in their compelling narrative of their flame platoon as they courageously stood against the North Korean People's Army and the Chinese Communist Forces, etching another brilliant chapter in the Division's storied history.
