David Jacobsen

Mad As A Hatter Alexandra Hayman, 2014-05-12 London, 1882. When 14-year-old Emil's cousin goes missing amidst a string of murders, he manoeuvres himself onto the case with his guardian, inspector Corwin James of Scotland Yard. Through careful examination of the suspicious notes left at the crime scenes and of the unsettling pattern the deaths take on, the two begin to piece the curious murders together into a case with more questions than answers. Who is behind the Wonderland Murders? What do all the victims have in common? And can the murderer be stopped? As Emil draws closer and closer to discovering the truth, it becomes clearer by the minute that the case is more personal than he wants to admit. Though he tries to avoid it, the more he investigates, the more the past forces itself into his consciousness, and what he learns will take him down the rabbit hole—again. Does he have it in him to stop the Mad Hatter and to save himself?

The Mad Hatter Mystery John Dickson Carr, 2019-05-07 A corpse in a top hat leads Dr. Gideon Fell to a killer with a sick sense of humor in this mystery by the celebrated author of Hag's Nook. At the hand of an outrageous prankster, top hats are going missing all over London, snatched from the heads of some of the city's most powerful people—but is the hat thief the same as the person responsible for stealing a lost story by Edgar Allan Poe, the manuscript of which has just disappeared from the collection of Sir William Bitton? Unlike the manuscript, the hats don't stay stolen for long, each one reappearing in unexpected and conspicuous places shortly after being taken: on the top of a Trafalgar Square statue, hanging from a Scotland Yard lamppost, and now, in the foggy depths of the Tower of London, on the head of a corpse with a crossbow bolt through the heart. Amateur detective and lexicographer Dr. Gideon Fell is on the case, and when the dead man is identified as the nephew of the collector, he discovers that the connections underlying the bizarre and

puzzling crimes may be more intimate than initially expected . . . Reprinted for the first time in thirty years, the second novel in the Dr. Gideon Fell series, which need not be read in any order, finds the iconic character investigating one of the most extraordinary murders of his career. A baffling whodunnit with menace at every turn, *The Mad Hatter Mystery* proves that Carr is the “unexcelled master of creepy erudition, swift-moving excitement and suspense through atmosphere” (New York Times). “Every sentence gives a thrill of positive pleasure. [*The Mad Hatter Mystery*] is the most attractive mystery I have read for a long time.”—Dorothy Sayers

..... Happythought mini paper top hats - a brief history: When I first set my heart on wearing a mini top hat I had a few hurdles to overcome! Firstly, the party was that day, secondly a quick trip to the local shops turned up nothing satisfactory, thirdly, I'm not a big one for

sewing and didn't have the know-how or supplies to make a fabric hat. Then the idea struck to make a paper top hat. I made up a quick maquette, then got to work on the design on my computer, finally printing out my little burlesque creation. A few snips and the wave of a glue stick and a darling little hat was ready. I secured it safely to my head with a bobby pin and was good to go. When my fellow party goers saw my handy work I was swiftly commissioned to make two more. And so we set off to the party feeling dandy and in high spirits and it's safe to say the hats were a big hit at the party.

About the Author Along with her husband Harry Ellen runs Happythought, an online store and blog full of craft ideas and fun printable paper crafts. As well as being beautifully designed Happythought printables can be made using common-or-garden scissors and a glue stick and are fun and easy to make.

The Right Chemistry Joe Schwarcz, 2012-11-06 A big part of Dr. Joe's job as director of McGill University's Office of Science and Society is persuading people that the pursuit of science knowledge is a potential source of wonder, enlightenment and well-being for everyone. And as a chemist, he's particularly keen to rescue chemistry from the bad rep it's developed over recent decades. There is more to chemistry than toxins, pollution, and Don't drink that soda--it's full of chemicals. The evangelical zeal Dr. Joe brings to his day job is of course also the driving force behind his work as an author. Once again, here he is to tell that everything is full of chemicals, and that chemistry means health, nutrition, beauty products, cleaning products, DNA, and the means by which Lady Gaga's meat dress was held together. In the style established with the bestselling *Brain Fuel*, each section here is themed and contains a mixture of short, pithy items and slightly longer mini-essays. And as before--but never with such energy and relish--Dr. Joe goes on the attack against charlatans in the alternative health trade, naming and shaming them in a particularly entertaining and edifying section of the book called *Claptrap*. You will learn whether to put broccoli on a pizza before or after baking, whether beauty pills are worth taking, and whether the baby shampoo you're using is poisonous. You will discover but not use, please, the recipe for a Molotov cocktail. You will be enabled to enthrall fellow dinner guests with the

derivation of the name Persil, and the definition of a kangarian (it's someone who only eats kangaroo meat). As ever, this torrent of entertainment is delivered in Dr. Joe's unmistakably warm, lively and authoritative voice.
