**Earth Hive** Steve Perry,1992 Wilks was a space marine with a near-fatal flaw: he had a heart. Billie was a child, the only survivor of a far-flung colony outpost. Thrown together in the last hellish night of an alien invasion, Billie and Wilks helped each other get out alive. Thirteen years later Wilks is in prison, and Billie lives in a mental institution, the nightmare memories of the massacre at Rim seared into her mind. Now the government has tapped Wilks to lead an expedition to the aliens' home planet to bring back a live alien. But the competition on Earth to develop the aliens as a new weapons system is brutal. When Wilks's team departs on their mission, a trained assassin trails them. And what follows is no less than guerrilla warfare on the aliens' planet--and alien conquest on Earth!

The in-universe sketchbook contains over two hundred illustrations from the set and will take you inside the mind of David. **Prometheus: Life and Death** Dan Abnett, 2017-01-24 Colonial Marines have taken possession of an abandoned alien spacecraft-only to discover its owner is still onboard! Instead of heading to Earth as expected, the humans end up on LV-223 (the planet where the events in the film *Prometheus* took place). There they must contend with hostile alien life forms, as well as the mysterious Engineers who are determined to wipe out not just them, but possibly all of humanity! This is the second chapter in the Life and Death story cycle-the follow-up to 2015's epic *Fire and Stone* crossover event. Before this tale is complete, the story lines of *Predator*, *Prometheus*, *Aliens*, and *Aliens vs. Predator* will all converge!

*Aliens: Apocalypse - the Destroying Angels* Mark Schultz, 1999-11-02 Travel back 20 years to find out the origin of the Aliens in this unusually contemplative addition to the series. Where did they come from, and more importantly, who put them there?

Beautiful Monsters David McIntee, 2005 The end of the 1970s was a turning point for science fiction and horror films. A new film would blend these genres together into a cinematic experience that would cross boundaries, and which would feature a villain that audiences and critics alike would find far scarier than the knife-wielding antics of Michael Myers or Jason and Pamela Voorhees. That film was *Alien*. In this unofficial companion, David McIntee takes us behind the scenes to reveal how the Alien films were developed, what their influences and antecedents were, and how they have continued to develop and influence to this day. We also take in the popular *Predator* films and see how, through various ranges of spin-off merchandise, we arrived at the 2004 clash of the titans, the long-awaited *Alien vs. Predator* movie. This book takes you further than ever before into the domain of the beautiful monsters. Book jacket.

**Alien 3: The Unproduced Screenplay by William Gibson** Pat Cadigan, William Gibson, 2022-11-22 The first-draft Alien screenplay by William Gibson, the founder of cyberpunk, turned into a novel by Pat Cadigan, the Hugo Award-Winning “Queen of Cyberpunk.” William Gibson’s never-before-adapted screenplay for the direct sequel to Aliens, revealing the fates of Ripley, Newt, the synthetic Bishop, and Corporal Hicks. When the Colonial Marines vessel Sulaco docks with space station and military installation Anchorpoint, a new form of Xenomorph appears. Written by Hugo Award-winning novelist and “Queen of Cyberpunk” Pat Cadigan, based on Gibson’s never-produced first draft. The Sulaco—on its return journey from LV-426—enters a sector controlled by the “Union of Progressive Peoples,” a nation-state engaged in an ongoing cold war and arms race. U.P.P. personnel board the Sulaco and find hypersleep tubes with Ripley, Newt, and an injured Hicks. A Facehugger attacks the lead commando, and the others narrowly escape, taking what remains of Bishop with them. The Sulaco continues to Anchorpoint, a space station and military installation the size of a small moon, where it falls under control of the military’s Weapons Division. Boarding the Sulaco, a team of Colonial Marines and scientists is assaulted by a pair of Xenomorph drones. In the fight Ripley’s cryotube is badly damaged. It’s taken aboard Anchorpoint, where Ripley is kept comatose. Newt and an injured Corporal Hicks are awakened, and Newt is sent to Gateway Station on the way to Earth. The U.P.P. sends Bishop to Anchorpoint, where Hicks begins to hear rumors of experimentation—the cloning and genetic modification of Xenomorphs. The kind of experimentation that could yield a monstrous hybrid, and perhaps even a Queen. ALIEN 3 TM & © Twentieth Century Films. All rights reserved.

**Global Change and Challenge** Robert Bennett, Robert Estall, 2012-11-12 We are now experiencing a period of unprecedented change; what amounts to a global revolution in our economy, society and awareness of the human impact on the environment. *Global Change and Challenge* examines some of the crucial issues facing society in the 1990s and how geography can contribute to their understanding and management. Using the broad theme of how societies adapt to change, the contributors seek to present a range of views on the 'geography of change' in an accessible form for both school and university students. The general aim of the book is as much to encourage students to understand where we are and where we have come from, as to where we may be going. Robert Bennett and Robert Estall are both Professors of Geography at the London School of Economics. The contributors were all members of the Department of Geography at the LSE at the time of writing.
