**Stephen Earnhart, Greg Pierce, Haruki  
Murakami**

**Vol. 29: Medium-Format Photography III: Mamiya C3 & C330** Shawn M. Tomlinson,

**Mamiya M645** Alexander Borell,1983-01-01

*Mamiya Medium Format Systems* Bob Shell,1992-01-01

Each book in the Systems Pro Guides is an extensive but easy-to-read walk-through of a single camera system. All the cameras and accessories of a complete system are examined and illustrated.

Shooting Old Film Cameras Paul Moore,2013-01-17

Approximately 225 pages with about 220 color and monochrome images and this book is ENTIRELY pictorial. This book contains artistic NUDITY and is intended for ADULTS ONLY! There is considerable debate among photographers about whether film is better than digital with about an equal number lining up on both sides and presenting their opinions and relevant and irrelevant data. It is not the purpose of this volume to espouse one position or another. It is sufficient to know that they are each different and subject to a considerable range of interpretation. However, it is quite enjoyable to take one of these old cameras, that have absolutely no automatic functionality, and create excellent images. I suspect that it is the same force that drives auto enthusiasts to take an old Model T Ford car and restore it. They certainly don't have the power and ease of operation of modern automobiles but they are extraordinarily fun to drive! Unlike other books about old cameras this one does not dwell on the fine technicalities of the individual camera (although limited technical data is present) but to present images taken with each camera to show the reader concrete examples of images taken with each model

**Atomic Light** Akira Mizuta Lippit, Dreams, x-rays, atomic radiation, and “invisible men” are phenomena that are visual in nature but unseen. Atomic Light (Shadow Optics) reveals these hidden interiors of cultural life, the “avisual” as it has emerged in the writings of Jorge Luis Borges and Jacques Derrida, Tanizaki Jun'ichirô and Sigmund Freud, and H. G. Wells and Ralph Ellison, and in the early cinema and the postwar Japanese films of Kobayashi Masaki, Teshigahara Hiroshi, Kore-eda Hirokazu, and Kurosawa Kiyoshi, all under the shadow cast by the atomic bombings of Hiroshima and Nagasaki. Akira Mizuta Lippit focuses on historical moments in which such modes of avisuality came into being—the arrival of cinema, which brought imagination to life; psychoanalysis, which exposed the psyche; the discovery of x-rays, which disclosed the inside of the body; and the “catastrophic light” of Hiroshima

and Nagasaki, which instituted an era of atomic discourses. With a taut, poetic style, Lippit produces speculative readings of secret and shadow archives and visual structures or phenomenologies of the inside, charting the materiality of what both can and cannot be seen in the radioactive light of the twentieth century. Akira Mizuta Lippit is professor of cinema, comparative literature, and Japanese culture at the University of Southern California. He is the author of *Electric Animal: Toward a Rhetoric of Wildlife* (Minnesota, 2000).

**Popular Photography** ,1983-08

**Popular Photography** ,1983-03

*The Wind-Up Bird Chronicle* Stephen Earnhart,Greg Pierce,Haruki Murakami,2019-03-15 At once a detective story, an account of a disintegrating marriage, and an excavation of buried secrets from World War II, this surreal mystery follows an unassuming “everyman,” Toru, as he searches for his wife, who’s inexplicably disappeared. Toru soon encounters a cast of strange characters, each with their own intriguing stories, who begin showing up in his dreams, opening doors to a hallucinatory world charged with sexuality and violence. As the lines between dreams and reality dissolve, Toru must confront the dark forces that exist inside him as part of his human nature.
