Fa-Digi Sisòkò

Announcing the Light Andrew C. Wheeler, 1998 This series is a valuable tool for deeper understanding of the experience of Christians in Sudan. It is also a resource in a search for reconciliation and peace in this land. These books are gathered from a conference offered in Limuru, Kenya, February, 1997.

Griots at War Barbara G. Hoffman, 2001-06-08 Griots at War Conflict, Conciliation, and Caste in Mande Barbara G. Hoffman An extraordinary account of conflict and peacemaking among griots. ... a compelling study of how social identities and relationships are constructed and reconstructed through action, specifically through speech.... The book succeeds marvelously in conveying the voice of the people who are, in every sense of the word, its subject. -- Robert Launay In 1985, while she was an apprentice griot or jelimuso, Barbara G. Hoffman saw and recorded a remarkable event in the small town of Kita, Mali. For four days, thousands of griots from all parts of the Mande world gathered to talk, sing, and make music in celebration of the opening of the new Hall of Griots and the installation of the recently named Head Griot. This unprecedented assembly also marked the end of a deadly two-year conflict fought with griot weapons -- words, reputations, and sorcery. Hoffman captures griots making speeches, singing songs of praise, and dancing in honor of their restored unity. Her discerning interpretations of the speeches not only explore the art of griot oratory but show how the use of history, metaphor, religion, proverbs, and praise can mend a community torn apart by war. The speeches, often marked by a keen edge, also reveal what it means to be a griot in a caste society and to demand that other castes recognize and respect this unique identity. The griot's formidable linguistic abilities come to the fore as they negotiate, reestablish, and assert their cultural power. This exceptional book, including generous extracts from the griots' speeches in Mande and in translation, offers surprising and important insights into the multiple meanings of Mande culture, caste, and identity. Barbara

G. Hoffman is Assistant Professor of Anthropology at Cleveland State University. She is author of many essays on Mande culture and producer of ethnographic videos on East and West African cultures. She is known to the Mande griot community as Jeli Jeneba Jabate. Contents Prologue: An Invitation to War Power and Paradox: Griots and Mande Social Organization In the Hands of Speech: Mande Discourse A History of Fadenya: Interpretations of the Kita Griot War Making Boundaries: When Griots Speak before Nobles Breaking Boundaries: When Nobles Speak before Griots The Healer Who Is Ill Must Swallow His Own Saliva: When Griots Speak to Griots Caste, Mande Style Epilogue: A Wound Cannot Heal on Pus

Warriors, Merchants, and Slaves, 1987-06 Over the course of two centuries, the region of the Middle Niger valley of the Western Sudan was dominated by three successive states: the indigenous Segu Bambara state, the Islamic Umariyan state, and the French colonial state. In each of these states, warriors were the rulers, and not surprisingly warfare was the primary expression of state power. The survival of each state depended on its ability to reproduce its capacity to make war; in order to do so, the warrior state intervened in the economy. In each of the three states, the interrelationship of warfare, the state, and the economy produced different results. How the state actually intervened in the economy and how this intervention influenced the structure and performance of the economy is the subject of this book. During the 200 years under study, the regional economy of the Middle Niger valley expanded and contracted in response to the state's capacity

to provide conditions favorable to commercial development, capital accumulation, and investment. When the Segu Bambara state was able to control the autonomy of its warriors, the state encouraged the expansion of the regional economy. The Umarians, on the other hand, preyed upon producers within the region, and created conditions that discouraged long-term investments. The very success of the French conquest initially encouraged investment, especially in the form of slaves. After 1894, however, conflict between civilian colonial authorities and the French military undermined the economic and social foundations erected by the military. From 1905 to 1914, slaves left their masters and helped once again to transform the structure and performance of the economy.

Electrochemistry of N4 Macrocyclic Metal Complexes

Jose H. Zagal, Fethi Bedioui, 2016-05-03 This new edition describes the state of the art regarding metal complexes of N4-ligands, such as porphyrins and phthalocyanines. Volume 2 focuses on the electro assisted use of N4 complexes as biomimetic models for studying several biological redox processes. It focuses on molecular oxygen transport and catalytic activation to mimic monooxygenase enzymes of the cytochrome P450 in particular. It also examines N4 complexes' use as catalysts for the oxidative degradation of various types of pollutants (organo-halides, for example) and residual wastes. The remarkable activity of these complexes towards a large number of significantly relevant biological compounds makes them excellent candidates as electrode modifiers for electrochemical sensing. This volume also discusses applications of N4 Macrocyclic Metal Complexes to photoelectrochemistry and photocatalysis, and concludes with an exciting section on Electrosynthesis of N4.

Son-Jara Fa-Digi Sisòkò, 2003-10-30 The epic of Son-Jara (also known as Sunjata or Sundiata) celebrates the exploits of the legendary founder of the Empire of Old Mali and is still widely recited among Mandekan-speaking peoples of West Africa today.

As performed by griots, or professional bards, it embodies deeply rooted aspects of Mande cosmology and worldview. This edition of the epic presents the full, linear Mandekan text side by side with John William Johnson's important English translation. Fully annotated and explained, the text provides historical and contextual frameworks for understanding this African epic. A complete recitation of the epic by Jeli fa-Digi Sisòkò recorded in the town of Kita, Mali, is sold separately. This powerful text and inspiring performance show why the epic of Son-Jara has taken its place among the world's greatest epics.

Electrocatalysis in Fuel Cells Minhua Shao, 2013-04-08 Fuel cells are one of the most promising clean energy conversion devices that can solve the environmental and energy problems in our society. However, the high platinum loading of fuel cells - and thus their high cost - prevents their commercialization. Non- or low- platinum electrocatalysts are needed to lower the fuel cell cost. *Electrocatalysis in Fuel Cells: A Non and Low Platinum Approach* is a comprehensive book summarizing recent advances of electrocatalysis in oxygen reduction and alcohol oxidation, with a particular focus on non- and low-Pt electrocatalysts. All twenty four chapters were written by worldwide experts in their fields. The fundamentals and applications of novel electrocatalysts are discussed thoroughly in the book. The book is geared toward researchers in the field, postgraduate students and lecturers, and scientists and engineers at fuel cell and automotive companies. It can even be a reference book for those who are interested in this area.

Canto a las selvas Asunción Libertad, 2020-02-24 En los últimos reductos de las selvas de Sumatra viven Pai, Mar y Amanaki. Son tres adolescentes intrépidos y valientes. Pai y Amanaki son hermanos, pertenecientes a la tribu arbórea de los Orang Rimba. Mar es catalana; inseparable de su compañera Pai, está ligada a ella por una estrecha amistad y una confianza entrañable, confianza y amistad nacidas en la superación de

experiencias de fuerte violencia y agresividad. Amanaki, el más niño, mantiene una singular relación con los orangutanes desde su más tierna infancia. La vida de los tres gira en torno a la protección de los orangutanes, apoyando en su trabajo a la primatóloga vasca Xuhare y a su ayudante Serena, abuela de Mar. A pesar de su aparente vida idílica un grave peligro les amenaza. Las grandes empresas madereras y del aceite de palma están dispuestas a ocupar los territorios de los orang. ¿Qué sucederá?

Type-Logical Syntax Yusuke Kubota, Robert D.

Levine,2020-09-15 A novel logic-based framework for representing the syntax-semantics interface of natural language, applicable to a range of phenomena. In this book, Yusuke Kubota and Robert Levine propose a type-logical version of categorial grammar as a viable alternative model of natural language syntax and semantics. They show that this novel logic-based framework is applicable to a range of phenomena--especially in the domains of coordination and ellipsis--that have proven problematic for traditional approaches.

Biogenic Sustainable Nanotechnology Raghvendra Pratap Singh,Alok R. Rai,Ahmed Abdala,Ratiram G. Chaudhary,2022-06-07 Biogenic Sustainable Nanotechnology: Trends and Progress focuses on the green synthesis of nanomaterials with various biological systems, emphasizing the mechanisms of nanomaterial synthesis, spectroscopic characterizations, and applications in a variety of industrial sectors. Interest in developing eco-friendly,

green, cost-effective, and facile methods for nanomaterials synthesis is rapidly growing. Green synthesis methods focus on a greener environment, minimizing generated waste, and implementing sustainable processes. As discussed in this book, green nanostructured materials often include phytochemical agent extracts, such as carbohydrates, flavonoids, saponins, proteins, amino acids, chromone, steroids, phytol, and terpenoids. These phytochemicals from plant extracts play a crucial role in improving the reduction rate, size, and stabilization, by acting as good reducers, surfactants, structure directors, and capping agents. This book is an essential reference source for materials scientists, bioengineers, and environmental scientists. Outlines the major synthesis methods used to create environmentally-friendly bionanomaterials for biomedical applications Explores how environmentally-friendly bionanomaterials are used for a variety of industry sectors Assesses the major challenges of producing environmentally-friendly biogenic nanomaterials on an industrial scale

The Epic of Son-Jara Fa-Digi Sisòkò, 1992-08-22 . . . a major addition to the literature on oral traditions. —Journal of Religion in Africa This 750-year-old epic celebrates the exploits of the legendary founder of the Empire of Old Mali. It constitutes a virtual social, political, and cultural charter and embodies deep-rooted aspects of Mande cosmology. The fully annotated translation is accompanied by an introduction that provides a historical and contextual framework for understanding the recitation of this African epic.
