Hokusai 36 Views of Mount Fuji Cristina Berna,Eric Thomsen,2023-11-24 The beauty of art is necessary for happiness. In everyday life the arts give that extra dimension to life that makes it a great adventure. The art and design in buildings, city planning, gardens and parks, roads, bridges, everything that we use daily contributes to a happy and fulfilling life. Ugly buildings, sloppy design, poor quality workmanship, littering and defacing contributes to a miserable life. Why would you want a miserable life? Why would you want to impose a miserable life on others? Hokusai was not only a truly great artist. He also sent a message to common people, who could afford to buy his low cost prints. He conveyed the beauty of majesty, the mount Fujijama, in life. He conveyed the beauty of scenery, he said to people, look around you and see and enjoy the beauty of the scenery. He conveyed the beauty of a good human life , the craftsmanship in making the timber, building the boat, fishing, growing tea, enjoying tea with the scenery. The 36 Views of Mt Fuji are religious prints. But different from the typical Christian religious motif the humans are not shown focused on the diety all the time, even if Mt Fuji is shown to have a pervading influence on their lives. The admiration and worship of Mt Fuji is often shown as incidental a single traveler of the group casting a glance at the majestic mountain while the others are busy with the many other things to do. In other words a very realistic rendition on how the divine is taking part in everyday life.

Hiroshige 100 Famous Views of Edo Cristina Berna,Eric Thomsen, Come on the journey from Edo, modern day Tokyo, to Kyoto, as experienced by Utagawa Hiroshige in, when he travelled the road to participate in an important procession in 1832. There were 53 post stations along this important road, apart from the start and terminus, in all 55 prints, which are all here in the order from Edo to Kyoto. This was the most popular print series ever made in Japan. It was even more popular than Hokusai's series Thirty-six Views of Mount Fuji, which had been recently published and which had influenced Hiroshige tremendously (ISBN 9782919787159 as hard cover). It is possible to travel the same road today and some villages are still looking quite like they did back then. The postal stations were constructed between 1601 and 1624.

Hiroshige 53 Stations of the Tokaido Aritaya Cristina Berna,Eric Thomsen,2023-09-15 The Aritaya Fifty Three Stations of the Tokaido Road is one of the most beautiful of Hiroshiges huge production of landscape print series in spite of its small size. It is only abt 10 x 15 cm (with variations), Yotsugiri yokoban (quarter oban). It is also unusual in that it is a veritable full course and manual in landscape print design. It is a very rewarding study. All the way through Hiroshige follows certain design principles of proportion of elements, arranging elements and views by diagonals and parallels and balancing of color elements. Compared to most of his other Tokaido series Hiroshige in Aritaya focus on letting the landscape tell the story instead of letting people or legend do that, although this is not followed through completely.

Extraordinary Aesthetes Joseph Bristow,2023-04-14 The fin de siècle not only designated the end of the Victorian epoch but also marked a significant turn towards modernism. Extraordinary Aesthetes critically examines literary and visual artists from England, Ireland, and Scotland whose careers in poetry, fiction, and illustration flourished during the concluding years of the nineteenth century. This collection draws special attention to the exceptional contributions that artists, poets, and novelists made to the cultural world of the late 1880s and 1890s. The essays illuminate a range of established, increasingly acknowledged, and lesser-known figures whose contributions to this brief but remarkably intense cultural period warrant close attention. Such figures include the critically neglected Mabel Dearmer, whose stunning illustrations appear in Evelyn Sharp's radical fairy tales for children. Equally noteworthy is the uncompromising short fiction of Ella D'Arcy, who played a pivotal role in editing the most famous journal of the 1890s, The Yellow Book. The discussion extends to a range of legendary writers, including Max Beerbohm, Oscar Wilde, and W.B. Yeats, whose works are placed in dialogue with authors who gained prominence during this period. Bringing women's writing to the fore, Extraordinary Aesthetes rebalances the achievements of artists and writers during the rapidly transforming cultural world of the fin de siècle.

Views of Mt. Fuji Katsushika Hokusai,2013 Kasushika Hokusai was among the foremost ukiyo-e artists of his generation, and his Thirty-six Views of Mt. Fuji ranks among the best-known series of Japanese woodblock prints. This edition presents a full-color reprint of that enduring masterpiece, plus the artist's later black-and-white series, One Hundred Views of Mt. Fuji. A must for all lovers of Japanese art.

Deleuze and Asia Ronald Bogue,Hanping Chiu,Yu-lin Lee,2014-10-16 Interest in the French philosopher Gilles Deleuze has grown exponentially over the last two decades, and, in recent years, Asian scholars have come to see rich possibilities for developing his thought within an Asian context. In this, the first collection devoted to Deleuze and Asia, several Asian and Western scholars explore Deleuzian themes and concepts in areas ranging from philosophy and religion to new media studies, cultural studies, theater, architecture, painting, film, and literature. Topics addressed include: onto-aesthetics in Deleuze and Taoism; Deleuzian univocity of being and the Original Enlightenment Thought of Mahāyāna Buddhism; Leibnizian and Bergsonian influences in Deleuze and the Japanese philosopher Nishida; Deleuze's theater of philosophy and its parallels in Beijing Opera, Kathikali Dance Drama and Nō Theater; Deleuze's concept of the fold and sonic space in Asian architecture; the fold and visual space in Hokusai's "Thirty Six Views of Mount Fuji"; the Walkman, contemporary Japanese anomie and Deleuzian nomadism; Deleuzian "faciality" and the cultural politics of facial images in Korean beauty pageants; the 2011 Taiwanese film Warriors of the Rainbow: Seediq Bale and the Deleuzian concepts of the minor and the people to come; Deleuzian haecceities, affects and fragmented spaces in the films of Lou Ye and Wong Kar-wai; the Nu Shu writing system – the only writing system developed exclusively by women – and the formation of a female people to come; and Deleuzian minor literature and its relationship to globalization, nationalism and regionalism in Asian literature. These essays map new directions in East-West research that promise to invigorate Asian studies and disclose hitherto unrecognized dimensions of Deleuze's thought.

36 Views of Mount Fuji Cathy N. Davidson,2006-10-25 In 1980 Cathy N. Davidson traveled to Japan to teach English at a leading all-women’s university. It was the first of many journeys and the beginning of a deep and abiding fascination. In this extraordinary book, Davidson depicts a series of intimate moments and small epiphanies that together make up a panoramic view of Japan. With wit, candor, and a lover’s keen eye, she tells captivating stories—from that of a Buddhist funeral laden with ritual to an exhilarating evening spent touring the “Floating World,” the sensual demimonde in which salaryman meets geisha and the normal rules are suspended. On a remote island inhabited by one of the last matriarchal societies in the world, a disconcertingly down-to-earth priestess leads her to the heart of a sacred grove. And she spends a few unforgettable weeks in a quasi-Victorian residence called the Practice House, where, until recently, Japanese women were taught American customs so that they would make proper wives for husbands who might be stationed abroad. In an afterword new to this edition, Davidson tells of a poignant trip back to Japan in 2005 to visit friends who had remade their lives after the Great Hanshin Earthquake of 1995, which had devastated the city of Kobe, as well as the small town where Davidson had lived and the university where she taught. 36 Views of Mount Fuji not only transforms our image of Japan, it offers a stirring look at the very nature of culture and identity. Often funny, sometimes liltingly sad, it is as intimate and irresistible as a long-awaited letter from a good friend.

Hokusai's 36 Views of Mount Fuji Patrick McDermott,2010-12-21 Hokusai's 36 Views of Mount FujiFugaku SanjurokkeiI've long been a fan of Hokusai, and love the 36 Views of Mount Fuji series, so I put this little book together for myself with images of the prints in the series that I have collected over the years from various public sources. It turned out so well, I thought others might find it useful, so I decided to make it available to others using the amazing technology available today.This book simply contains a small (about 4 x 6) full-color copy of each of the 46 prints (sic: 36 Views has 46 views in it) in the series 36 Views of Mount Fuji. I use the book as a reference and reminder. There is no commentary or discussion, just the pictures, with the name in English & Japanese (romaji & kanji).I've indexed each picture with keywords, so if I want to find one with a ferry boat, the ones with snow, the one with the little turtle, or the salt gatherers, I can find them in the index.If you are interested in Hokusai's work, you might find this book as useful as I have.

The Edward Burr Van Vleck Collection of Japanese Prints Elvehjem Museum of Art,1990 The Van Vleck collection of Japanese woodblock prints is one of the Elvehjem Museum of Art's (now the Chazen Museum of Art) most important collections of more than 3700 prints collected by Van Vleck between 1910 and 1943, including the prints that Frank Lloyd Wright collected in Japan in the 1920s. This copiously illustrated catalog is the culmination of several years of intensive study and documentation, and is the first step in making this impressive collection accessible to museum visitors and scholars. Hiroshige and artworks Michail Uspensky,2022-12-06 The art of the Ukiyo-e reflected the artistic expression of an isolated civilisation which, when it became accessible to the West, significantly influenced a number of European artists. The three masters of Ukiyo-e, Hokusai, Utamaro and Hiroshige, are united here for the first time to create a true reference on Japanese art. The three masters rank highly among the most famous Japanese artistic productions of all time. This new title of the Prestige of Art collection will be a reference for art students and Japanese art lovers.
