Battle of Gettysburg - The Relics, Artifacts & Souvenirs Robert Jones,2009-11 The Battle of Gettysburg ended, but what was left behind, was unimaginable, 51,000 casualties (23,000 Union and 28,000 Confederate). Private residences took in and cared for these suffering soldiers. Without these caring townspeople, the death rate would have increased tremendously. The soldiers realized that they were part of history in the making. As in any momentous event, the participants sought some kind of remembrance from the battle, something they could gaze at in their twilight years and reminisce about being part of such an historical event. Be it a button, a bullet, canteen, photograph, letter, or even a handful of the sacred soil.....just something. Collecting of these relics continued with the veterans, right up until today. The author has spent the last 20 years acquiring and documenting these artifacts and has now included many of them in this book which was released in 2008 (revised 2009). Also included are the rare souvenirs, which now have become collectible in themselves.

Gold Mary Hill,2000-02-28 The discovery of gold in 1848 catapulted California into statehood and triggered environmental, social, political, and economic events whose repercussions are still felt today. Mary Hill combines her scientific training with a flair for storytelling to present the history of gold in California from the distant geological past through the wild days of the Gold Rush to the present. The early days of gold fever drew would-be miners from around the world, many enduring great hardships to reach California. Once here, they found mining to be backbreaking work and devised machines to help recover gold. These machines pawed gravel from river bottoms and tore apart mountainsides, wreaking environmental havoc that silted rivers, ruined farmlands, and provoked the world's first environmental conflict settled in the courts. Native Americans were nearly wiped out by invading miners or their diseases, and many Spanish-speaking settlers—Californios—were pushed aside. Hill writes of gold's uses in today's world for everything from coins to coffins, gourmet foods to spacecraft. Her comprehensive overview of gold's impact on California includes illustrated explanations of geology and mining in nontechnical language as well as numerous illustrations, maps, and photographs.

The Golden Key John Allen Witcher,2016-02-05 With the disappearance of a world renowned archaeologist, comes a great tale of treasure and magic. Dr. Benderman spent his life collecting mystical artifacts. On his last journey, Dr. Benderman headed an expedition to Egypt. No one knows what Dr. Benderman discovered, but it is said to be hidden in Eastville. After Dr. Benderman's disappearance, rumor began to circulate about his hidden treasure. After many people searched in vain for the treasure, the town became quiet. Then, in the summer, the story of his treasure caught the interest of four teens. The teens make a plan to sneak into Dr. Benderman's mansion to find his treasure. The teens make their way through the mansion. With hidden rooms and antiques in every room, the teens find that they are getting nowhere fast. As the teens make their way into a large study, they find a strange artifact. Joey, the oldest of the teens finds a box that contains Spanish language on it. He opens the box and finds a map and a key. The map is written in Spanish. Dave, the youngest of the teens, speaks Spanish and he translates the map. The map states that there is a large treasure in the Crystal Cave that is located in Eastville. The Rockford Gold is said to be hidden in the Crystal Cave. The cave is an incredibly beautiful sight. The walls and ceiling of the cave are full of crystal formations. For safety, one of the teens stays outside the entrance of the cave. If the others do not return in four hours, he has orders to get help. There is a stream running through the cave. The teens navigate through the stream and through several obstacles. As Dave loses his footing, he falls over a small waterfall. At the base of the waterfall there is a huge stalactite that looks like Medusa. The map states that Medusa holds the treasure. Sure enough, at the center of the formation there is a treasure chest. The teens take the golden key and open the chest. Inside is the head of Zeus made of pure gold. The teens make their way back through the dangerous cave with the treasure. Little do they know that two villains have been following them. The villains steal the treasure and return to their hideout. The teens find the villains hideout and make a plan to retrieve the treasure. Joey disguises himself as a zombie and sets a small fire in the back yard. Two of the other teens enter the house to retrieve the treasure. The teens give the villains the scare of a lifetime. The teens discover that the villains have a room full of Dr. Benderman's treasure. The treasure is returned to the museum and the villains are captured. The teens keep one artifact to themselves. A teleportation device. The search for mystical treasure will continue!

The Messianic Temple Allen Austin,2011 The Earliest Egyptian creation stories are not just similar to the book of Genesis, they are the same; in time they became convoluted, conflated and disconnected from their ancient past. Taking the Bible at its word, my research revealed some astonishing facts concerning the Egyptian Zep Tepi, or creation story. Did you know it contains the story of Adam and Eve? They are called Wa and Aa and were led out of the Djeba domain (Paradise) to the Wetjeset-Neter domain (Our Reality) because of the snake, the Great Leaping One. It also states the world was destroyed by a global flood and when the primeval waters receded, the Shebtu (Noah's family) began rebuilding the world. It doesn't end there; there are more perfect parallels to the creation stories in Genesis and Early Jewish Writings.

Stealing History Roger Atwood,2007-04-01 Roger Atwood knows more about the market for ancient objects than almost anyone. He knows where priceless antiquities are buried, who is digging them up, and who is fencing and buying them. In this fascinating book, Atwood takes readers on a journey through Iraq, Peru, Hong Kong, and across America, showing how the worldwide antiquities trade is destroying what's left of the ancient sites before archaeologists can reach them, and thus erasing their historical significance. And it is getting worse. The discovery of the legendary Royal Tombs of Sipan in Peru started an epidemic. Grave robbers scouring the countryside for tombs--and finding them. Atwood recounts the incredible story of the biggest piece of gold ever found in the Americas, a 2,000-year-old, three-pound masterpiece that cost one looter his life, sent two smugglers to jail, and wrecked lives from Panama to Pennsylvania. Packed with true stories, this book not only reveals what has been found, but at what cost to both human life and history.
