

Mao Zedong

Maurice Meisner

Mao Zedong Delia Davin,2011-10-24 Mao Zedong, first chairman of the People's Republic of China, one of the founders of the Chinese Communist Party, and the architect of the Cultural Revolution, was active in Chinese politics for most of his eighty-two years, and became one of the most important revolutionary figures in the twentieth century. He spent the 1920s and 1930s struggling to build the Chinese Communist Party. After the establishment of the People's Republic, he strove to impose his vision of socialism on his impoverished country, convinced that if the power of the people could be harnessed, China could become an economically successful and egalitarian country. The Great Leap Forward which he initiated was, however, a disaster resulting in millions of deaths. Mao used the Cultural Revolution to re-impose his authority; his critics were persecuted and a personality cult was fostered. His 'Little Red Book' sold over 740 million copies. This book offers the reader a powerful insight into the life and work of this intriguing man.

Mao Zedong and China's Revolutions NA NA,2016-04-30 Whether one views Mao Zedong as a hero or a demon, the Great Helmsman was undoubtedly a pivotal figure in the history of 20th-century China. The first part of this volume is an introductory essay that traces the history of 20th-century China, from Mao's early career up to the Chinese Communist Party's victory in 1949, through three decades of revolution, to Mao's death in 1976. The second half offers a selection of Mao's writings - including such seminal pieces as On the New Democracy and selections from the Little Red Book - and writings about Mao and his legacy by both his contemporaries and modern scholars. Also included are headnotes, a chronology, Questions for Consideration, photographs, a selected bibliography, and index.

Mao Zedong Hourly History,2017-04-18 For a champion of the poor, Mao Zedong was born to a wealthy aristocratic family in Shaoshan, Hunan China. As an adolescent, he once had to defend his father's farm from starving peasants during a famine, who wished to seize his father's land and steal his grain. This same Mao would later promote a policy of land reform that would give those peasants the green light to violently overthrow the rich land owners all over the Chinese countryside. Inside you will read about... □ Where Revolution Was Made □ Mao Comes Into His Own □ Mao, the Pragmatist □ From Nanking to Pearl Harbor □ Consolidating Power □ Mao's Stranglehold □ Mao Loses Face And much more! Mao Zedong was a Marxist revolutionary wishing to overthrow regimes he viewed as "imperialist," and yet Mao, often referred to as the "Red Emperor," behaved much like totalitarian Emperors of China's medieval past. Mao was a man of intriguing contradiction. This book takes the time to explore them all.

A Critical Introduction to Mao Timothy Cheek,2010-08-23 Mao Zedong's political career spanned more than half a century. The ideas he championed transformed one of the largest nations on earth and inspired revolutionary movements across the world. Even today Mao lives on in China, where he is regarded by many as a near-mythical figure, and in the West, where a burgeoning literature continues to debate his memory. In this book, leading scholars from different generations and around the world offer a critical evaluation of the life and legacy of China's most famous - some would say infamous - son. The book brings the scholarship on Mao up to date, and its alternative perspectives equip readers to assess for themselves the nature of this mercurial figure and his significance in modern Chinese history.

The Thought of Mao Tse-Tung Stuart Reynolds Schram,1989-07-13 Professor Schram offers a fascinating and sure-footed analysis of Mao's intellectual itinerary.

Mao Zedong as Poet and Revolutionary Leader Chunhou Zhang,C. Edwin Vaughan,2002 Mao Zedong was not only a great strategist and politician, but also a poet, a philosopher, and calligrapher. As early as the 1940s Mao's poetry was earning critical and popular acclaim. This book makes all of Mao's extant poems available for the first time in English.

Mao: The Real Story Alexander V. Pantsov,Stephen I. Levine,2012-10-02 This major new biography of Mao uses extensive Russian documents previously unavailable to biographers to reveal surprising details about Mao's rise to power and his leadership in China. Mao Zedong was one of the most important figures of the twentieth century, the most important in the history of modern China. A complex figure, he was champion of the poor and brutal tyrant, poet and despot. Pantsov and Levine show Mao's relentless drive to succeed, vividly describing his growing role in the nascent Communist Party of China. They disclose startling facts about his personal life, particularly regarding his health and his lifelong serial affairs with young women. They portray him as the loyal Stalinist that he was, who never broke with the Soviet Union until after Stalin's death. Mao brought his country from poverty and economic backwardness into the modern age and onto the world stage. But he was also responsible for an unprecedented loss of life. The disastrous Great Leap Forward with its accompanying famine and the bloody Cultural Revolution were Mao's creations. Internationally Mao began to distance China from the USSR under Khrushchev and shrewdly renewed relations with the U.S. as a counter to the Soviets. He lived and behaved as China's last emperor.

Mao Zedong's China (Revised Edition) Kathryn Gay,2012-08-01 In 1949, Mao Zedong came to power in China after a long and brutal civil war. He and his Chinese Communist Party immediately set out to transform their nation into a Communist state. They seized land from wealthy and middle-class farmers and distributed it to poor peasant farmers. The government also took over ownership of all industries. Citizens who resisted these changes were branded counterrevolutionaries, and thousands were imprisoned or executed. Within a few years, Mao had turned China into a totalitarian state, controlling all aspects of his citizens' daily lives. In the 1960s, he sought to wipe out what remained of traditional Chinese society by launching the Cultural Revolution. Millions died as the country erupted into spasms of mob violence. Yet, despite the tumult, Chairman Mao remained a revered, almost godlike figure, worshiped by his people. How did he do it? Learn more about one of the most powerful and controversial figures of the 20th century.

Mao Zedong and China in the Twentieth-Century World Rebecca E. Karl,2010-08-13 Throughout this lively and concise historical account of Mao Zedong's life and thought, Rebecca E. Karl places the revolutionary leader's personal experiences, social visions and theory, military strategies, and developmental and foreign policies in a dynamic narrative of the Chinese revolution. She situates Mao and the revolution in a global setting informed by imperialism, decolonization, and third worldism, and discusses worldwide trends in politics, the economy, military power, and territorial sovereignty. Karl begins with Mao's early life in a small village in Hunan province, documenting his relationships with his parents, passion for education, and political awakening during the fall of the Qing dynasty in late 1911. She traces his transition from liberal to Communist over the course of the next decade, his early critiques of the subjugation of women, and the gathering force of the May 4th movement for reform and radical change. Describing Mao's rise to power, she delves into the dynamics of Communist organizing in an overwhelmingly agrarian society, and Mao's confrontations with Chiang Kaishek and other nationalist conservatives. She also considers his marriages and romantic liaisons and their relation to Mao as the revolutionary founder of Communism in China. After analyzing Mao's stormy tenure as chairman of the People's Republic of China, Karl concludes by examining his legacy in China from his death in 1976 through the Beijing Olympics in 2008.

Mao Zedong Maurice Meisner,2007 Revolutionary and ruler, Marxist and nationalist, liberator and despot, Mao Zedong takes a place among the iconic leaders of the twentieth century. In this book, Maurice Meisner offers a balanced portrait of the man who defined modern China. From his role as leader of a communist revolution in a war-torn and largely rural country to the disasters of the Great Leap Forward and the Cultural Revolution, the relationship between Mao's ideas and his political action is highly disputed. With unparalleled authority, Meisner shows how Mao's unique sinification of Marxism provides the key to looking at this extraordinary political career. The first part of the book is devoted to Mao's revolutionary leadership before 1949, in particular the influence of the liberal and anarchist ideas of the May Fourth era, his discovery of Marxism, Leninism and his conviction that peasants held the potential for revolution. In the second part, Meisner analyses Mao's early successes as a nationalist unifier and modernizer, the failure of his socialism and his eventual transformation into a tyrant.

Mao: A Biography Ross Terrill,1999 Everyone who came in close contact with Mao was taken aback at the anarchy of his personal ways. He ate idiosyncratically. He became increasingly sexually promiscuous as he aged. He would stay up much of the night, sleep during much of the day, and at times he would postpone sleep, remaining awake for thirty-six hours or more, until tension and exhaustion overcame him. Yet many people who met Mao came away deeply impressed by his intellectual reach, originality, style of power-within-simplicity, kindness toward low-level staff members, and the aura of respect that surrounded him at the top of Chinese politics. It would seem difficult to reconcile these two disparate views of Mao. But in a fundamental sense there was no brick wall between Mao the person and Mao the leader. This biography attempts to provide a comprehensive account of this powerful and polarizing historical figure.

Mao Zedong Anne Faulkner,2003 This book is a biography of Mao Zedong, who helped found the Chinese Communist Party and was head of state of the People's Republic of China from 1949 until his death.

Mao Zedong on Diplomacy Zedong Mao,1998 A collection of Mao's writings on international affairs.

Mao Zedong's World View Jianfei Xin,1998 Mao Zedong's World View explores the relatively neglected period of Mao's life from his youth up to 1941, presents the idea that Mao's philosophical and political agendas were developed beginning in this era, and aims to correct the current academic views that these agendas applied to China alone.Part I of this study chronicles Mao Zedong's life up to 1941, portraying Mao as a world watcher and conscious commentator on international affairs, and describing his sense of the relationship between internal and external affairs. Part II discusses the issues between China and the world, and places Mao's general view of the world as a whole into this context. Part III focuses on the development of Mao's theories for revolution and his ideas for the development of the world.

Rethinking Mao Nick Knight,2007 Offers a different perspective on Mao Zedong, the major architect of the Chinese Revolution and leader of the People's Republic of China until his death in 1976. Utilizing a number of documents written by Mao, here, the author 'rethinks' Mao by subjecting a number his controversial themes to fresh scrutiny.

Mao's Revolution and the Chinese Political Culture Richard H. Solomon,1998 Since its first publication in 1971, Mao's Revolution and the Chinese Political Culture has become a foundational text in China scholarship. Combining a psychological analysis of Chinese socialization with a narrative of Mao Zedong's political strategy, Richard Solomon traces the fault lines in the rise of one of the twentieth century's most influential political leaders. With great skill and insight, Richard Solomon delineates in parts I and II what might best be termed the living Confucian political culture. This is not the Confucianism of the classical texts, but the understanding and sentiments about politics produced by distinctive Chinese practices of child rearing and education, and the resulting structure of adult relationships. Proceeding from a solid basis of knowledge about the traditional Chinese family, Solomon draws on in-depth interviews with one hundred people of three generations and employes a battery of psychological tests to characterize Chinese adult orientations toward social and political life. These range from deeply ambivalent sentiments about authority to elaborate conventions for dealing with both friends and strangers and especially for avoiding controversy. In parts III and IV, Solomon then builds an account of Mao's political strategy, arguing that Mao appreciated the Chinese fear of social chaos and skilfully manipulated it. Behind the traditional ideal of harmony and of smooth, graceful interpersonal relationships lay powerful anxieties that any manifestation of of social disorder or political conflict can quickly lead to chaos and the collapse of the social order. Being of an assertive nature, Mao was prepared to push conflicts over the line of cultural restraint that inhibited his opponents. He believed social progress could be extracted from the chaos of the Cultural Revolution, though in the end, he could not manage what he had released.
