Virtual Justice Greg Lastowka, 2010-10-26 Tens of millions of people today are living part of their life in a virtual world. In places like World of Warcraft, Second Life, and Free Realms, people are making friends, building communities, creating art, and making real money. Business is booming on the virtual frontier, as billions of dollars are paid in exchange for pixels on screens. But sometimes things go wrong. Virtual criminals defraud online communities in pursuit of real-world profits. People feel cheated when their avatars lose virtual property to wrongdoers.

Increasingly, they turn to legal systems for solutions. But when your avatar has been robbed, what law is there to assist you? In *Virtual Justice*, Greg Lastowka illustrates the real legal dilemmas posed by virtual worlds. Presenting the most recent lawsuits and controversies, he explains how governments are responding to the chaos on the cyberspace frontier. After an engaging overview of the history and business models of today's virtual worlds, he explores how laws of property, jurisdiction, crime, and copyright are being adapted to pave the path of virtual law. Virtual worlds are becoming more important to society with each passing year. This pioneering study will be an invaluable guide to scholars of online communities for years to come.

Changing the Game David Edery, Ethan Mollick, 2008-10-07 Use Video Games to Drive Innovation, Customer Engagement, Productivity, and Profit! Companies of all shapes and sizes have begun to use games to revolutionize the way they interact with customers and employees, becoming more competitive and more profitable as a result. Microsoft has used games to painlessly and cost-effectively quadruple voluntary employee participation in important tasks. Medical schools have used game-like simulators to train surgeons, reducing their error rate in practice by a factor of six. A recruiting game developed by the U.S. Army, for just 0.25% of the Army's total advertising budget, has had more impact on new recruits than all other forms of Army advertising combined. And Google is using video games to turn its visitors into a giant, voluntary labor force--encouraging them to manually label the millions of images found on the Web that Google's computers cannot identify on their own. Changing the Game reveals how leading-edge organizations are using

video games to reach new customers more cost-effectively; to build brands; to recruit, develop, and retain great employees; to drive more effective experimentation and innovation; to supercharge productivity...in short, to make it fun to do business. This book is packed with case studies, best practices, and pitfalls to avoid. It is essential reading for any forward-thinking executive, marketer, strategist, and entrepreneur, as well as anyone interested in video games in general. In-game advertising, advergames, adverworlds, and beyond Choose your best marketing opportunities--and avoid the pitfalls Use gaming to recruit and develop better employees Learn practical lessons from America's Army and other innovative case studies Channel the passion of your user communities Help your customers improve your products and services--and have fun doing it What gamers do better than computers, scientists, or governments Use games to solve problems that can't be solved any other way

The Maples Stories John Updike, 2009-08-04
Eighteen classic short stories that form a luminous chronicle of the life and times of one marriage in all its rich emotional complexity—from one of the most gifted American writers of the twentieth century and the author of the acclaimed Rabbit series. In 1956, Updike published a story, "Snowing in Greenwich Village," about a young couple, Joan and Richard Maple, at the beginning of their marriage. Over the next two decades, he returned to these characters again and again,

tracing their years together raising children, finding moments of intermittent happiness, and facing the heartbreak of infidelity and estrangement. Seventeen Maples stories were collected in 1979 in a paperback edition titled *Too Far to Go*, prompted by a television adaptation. Now those stories appear in hardcover for the first time, with the addition of a later story, "Grandparenting," which returns us to the Maples's lives long after their wrenching divorce.

February by Washington Post · Nylon · BookRiot In this glittering triptych novel, Suzette, Maple and Agnes, three Black women with albinism, call Shreveport, Louisiana home. At the bustling crossroads of the American South and Southwest, these three women find themselves at the crossroads of their own lives. Suzette, a pampered twenty-year-old, has been sheltered from the outside world since a dangerous childhood encounter. Now, a budding romance with a sweet mechanic allows Suzette to seek independence, which unleashes dark reactions in those closest to her. In discovering her autonomy, Suzette is forced to decide what she is willing to sacrifice in order to make her own way in the world. Maple is reeling from the unsolved murder of her free-spirited mother. She flees the media circus and her judgmental grandmother by shutting herself off from the world in a spare room of the motel where she works. One night, at a party, Maple connects with Chad, someone who may understand her pain more than she realizes, and she discovers that the key to her mother's death may be within her reach. Agnes is far from home, working yet another mind-numbing job. She attracts the interest of a lonely security guard and army veteran who's looking for a traditional life for himself and his young son. He's convinced that she wields a certain "magic," but Agnes soon unleashes a power within herself that will shock them both and send her on a trip to confront not only her family and her past, but also herself. This novel, told in three parts, is a searing meditation on grief, female strength, and self-discovery set

against a backdrop of complicated social and racial histories. Nobody's Magic is a testament to the power of family—the ones you're born in and the ones you choose. And in these three narratives, among the yearning and loss, each of these women may find a seed of hope for the future.
