The March of Literature Ford Madox Ford,1994 This 900-page survey of world literature, From Confucius' Day to Our Own (as the subtitle reads), was the last book written by Ford Madox Ford, one of the seminal figures of the modernist period. Written for general readers rather than scholars and first published in 1938, The March of Literature is a working novelist's view of what is valuable in literature, and why. Convinced that scholars and teachers give a false sense of literature, Ford brings alive the pleasures of reading by writing about books he is passionate about. Beginning at the beginning--with ancient Egyptian and Chinese literature and the Bible--Ford works his way through classical literature, the writings of the Middle Ages, the Renaissance, continuing up to the major writers of his own day like Ezra Pound, Henry James, and Joseph Conrad. With his encyclopedic reading and expertise in the techniques of writing, Ford is a reliable and entertaining guide. Ford also includes a chapter on publishers and booksellers, noting the key roles they play in literature's existence. Novelist Alexander Theroux (Darconville's Cat, An Adultery) has written an insightful introduction for this reissue, the first time this monumental book has been made available in paperback.

Friends, Families & Forays Ford R. Bryan,2002-08-01 An illustrated collection of essays about the various people, events, and experiments from Henry Ford’s lifetime.

March of the First Dragoons to the Rocky Mountains In 1835 Nolie Mumey,Lemuel Ford,2011-10-01

The Making of Black Detroit in the Age of Henry Ford Beth Tompkins Bates,2012-09-24 In the 1920s, Henry Ford hired thousands of African American men for his open-shop system of auto manufacturing. This move was a rejection of the notion that better jobs were for white men only. In The Making of Black Detroit in the Age of Henry Ford, Beth Tompkins Bates explains how black Detroiters, newly arrived from the South, seized the economic opportunities offered by Ford in the hope of gaining greater economic security. As these workers came to realize that Ford's anti-union American Plan did not allow them full access to the American Dream, their loyalty eroded, and they sought empowerment by pursuing a broad activist agenda. This, in turn, led them to play a pivotal role in the United Auto Workers' challenge to Ford's interests. In order to fully understand this complex shift, Bates traces allegiances among Detroit's African American community as reflected in its opposition to the Ku Klux Klan, challenges to unfair housing practices, and demands for increased and effective political participation. This groundbreaking history demonstrates how by World War II Henry Ford and his company had helped kindle the civil rights movement in Detroit without intending to do so.
