Profiles of Patriots Moira Ann Jacobs,2016-04-12 Profiles of Patriots: A Biographical Reference of American Revolutionary War Patriots and their Descendants is a compilation of thirty-one biographies of American Revolutionary War patriots and includes an introduction and brief history of the Williamsburg, Virginia, chapter of the DAR and its founders. This book is a commemorative work celebrating the chapter's 90th anniversary of its founding in 1925 and the 125th anniversary of the National Society's founding in 1890. Each biography summarizes the patriot's service record in the War of Independence, as well as key biographical information. In addition, each author of these biographies is a direct descendant of the patriot and in some cases provides a summary of lineage to assist in reference for furthering genealogy research. This book provides a unique look into the history of both rank-and-file soldiers, as well as officers and other patriots, and includes references to unique family oral histories and primary sources.

Women and the Historical Enterprise in America: Gender, Race and the Politics of Memory Julie Des Jardins,2004-07-21 In Women and the Historical Enterprise in America, Julie Des Jardins explores American women's participation in the practice of history from the late nineteenth century through the end of World War II, a period in which history became professionalized as an increasingly masculine field of scientific inquiry. Des Jardins shows how women nevertheless transformed the profession during these years in their roles as writers, preservationists, educators, archivists, government workers, and social activists. Des Jardins explores the work of a wide variety of women historians, both professional and amateur, popular and scholarly, conservative and radical, white and nonwhite. Although their ability to earn professional credentials and gain research access to official documents was limited by their gender (and often by their race), these historians addressed important new questions and represented social groups traditionally omitted from the historical record, such as workers, African Americans, Native Americans, and religious minorities. Assessing the historical contributions of Mary Beard, Zora Neale Hurston, Angie Debo, Mari Sandoz, Lucy Salmon, Mary McLeod Bethune, Dorothy Porter, Nellie Neilson, and many others, Des Jardins argues that women working within the broadest confines of the historical enterprise collectively brought the new perspectives of social and cultural history to the study of a multifaceted American past. In the process, they not only developed the field of women's history but also influenced the creation of our national memory in the twentieth century.

A Compilation of the Original Lists of Protestant Immigrants to South Carolina, 1763-1773 ,1968 The 4,000 immigrants listed in this volume were Protestant refugees from Europe who came to South Carolina on the encouragement of an act passed by the General Assembly of the Colony on July 25, 1761, called the Bounty Act. Arranged chronologically, and taken verbatim from the original Council Journals, 1763-1773, the information given in the certificates and petitions for lands under the Bounty Act includes the date and the location and acres granted. In some cases the immigrants are listed with their age, country of origin, and name of the vessel on which they arrived. An excellent index provides references to more than 4,000 names in the text. This book is indispensable in attempting to locate an ancestor's place of settlement in South Carolina.

Science Fiction, Fantasy and Horror Film Sequels, Series and Remakes Kim R. Holston,Tom Winchester,2018-01-29 Science fiction, fantasy and horror movies have spawned more sequels and remakes than any other film genre. Following Volume I, which covered 400 films made 1931-1995, Volume II analyzes 334 releases from 1996 through 2016. The traditional cinematic monsters are represented--Dracula, Frankenstein, the Wolf Man, a new Mummy. A new wave of popular series inspired by comics and video games, as well as The Lord of the Rings trilogy, could never have been credibly produced without the advances in special effects technology. Audiences follow the exploits of superheroes like Captain America, Iron Man, Spider-Man and Thor, and such heroines as the vampire Selene, zombie killer Alice, dystopian rebels Katniss Everdeen and Imperator Furiosa, and Soviet spy turned American agent Black Widow. The continuing depredations of Jason Voorhees, Freddy Krueger and Michael Myers are described. Pre-1996 movies that have since been remade are included. Entries features cast and credits, detailed synopsis, critics' reviews, and original analysis.
