Democracy in Central Asia Mariya Y. Omelicheva,2015-07-21 Promoting democracy has long been a priority of Western foreign policy. In practice, however, international attempts to expand representative forms of government have been inconsistent and are often perceived in the West to have been failures. The states of Central Asia, in particular, seem to be democracy resistant, and their governments have continued to support various forms of authoritarianism in the decades following the Soviet Union's collapse. In *Democracy in Central Asia*, Mariya Omelicheva examines the beliefs and values underlying foreign policies of the major global powers—the United States, the European Union, Russia, and China—in order to understand their efforts to influence political change in Kazakhstan, Kyrgyzstan, and Uzbekistan. Omelicheva has traveled extensively in the region, collecting data from focus groups and public opinion surveys. She draws on the results of her fieldwork as well as on official documents and statements of democracy-promoting nations in order to present a provocative new analysis. Her study reveals that the governments and citizens of Central Asia have developed their own views on democracy supported by the Russian and Chinese models rather than by Western examples. The vast majority of previous scholarly work on this subject has focused on the strategies of democratization pursued by one agent such as the United States or the European Union. Omelicheva shifts the focus from democracy promoters' methods to their message and expands the scope of existing analysis to include multiple sources of influence. Her fresh approach illuminates the full complexity of both global and regional notions of good governance and confirms the importance of social-psychological and language-based perspectives in understanding the obstacles to expanding egalitarianism.

The Black Sea is a key transitional zone between Europe, Central Asia, and the Near East, which has long been divided by politics, language, and traditional boundaries of scholarly disciplines. This book cuts across disciplines and combines sources published in Eastern European languages with Western scholarly literature to give the Black Sea its rightful place in contemporary archaeological discourse.

**Counterterrorism Policies in Central Asia** Mariya Y. Omelicheva,2010-09-13 During the last two decades, Central Asian states have witnessed an intense revival of Islamic faith. Along with its moderate and traditional forms, radical and militant Islam has infiltrated communities of Muslims in Central Asia. Alarmed by the border incursions, sporadic terrorist violence and religious anti-governmental campaigns, the leadership of all Central Asian states adopted extensive measures against radical Islam and intensified counterterrorism policies. This book examines the dangerous tendency of counterterrorism policies of the Central Asian states to grow more alike amid propensities for divergence and attributes this trend to the impact of the social context in which these states operate. It underscores the importance of international setting that shapes governments' perceptions of terrorism and their counterterrorism policies. Applying a comprehensive theoretical framework, which integrates different mechanisms of international influences on state behaviour, the author explains the Central Asian states' perceptions of terrorist threat and their counterterrorism responses. The book analyses the counterterrorism policies of Kazakhstan and Kyrgyzstan, the two Central Asian states that have been least affected by terrorist violence and Islamism but chose to combat those threats vigorously. Using materials derived from a wide range of sources, including legal documents, officials' memoirs and fieldwork, this research will contribute to studies in Asian politics and national security, and international relations.

**Private Equity Accounting, Investor Reporting, and Beyond** Mariya Stefanova, 2015 Private Equity Accounting, Investor Reporting and Beyond takes the discussion around private equity accounting to the next level beyond the basic private equity accounting principles identifying areas of importance where things can go wrong and delving into the intimate details of the different sub-asset classes such as real estate funds, infrastructure funds, debt funds, mezzanine funds, fund-of-funds (FoF) and other Limited Partners (large institutional investors, pension funds, university endowments, etc). The book also adds a new perspective - the perspective of the Limited Partners (LPs) investing in private equity allowing the LPs to have a peek at the private equity kitchen and its processes where all the General Partner (GP) accounts, investor reports and capital statements are forged and provides them with essential tips on what to check in GP reports and what the pitfalls of LP accounting for PE investments are. Starting with the main changes in the private equity landscape, the impact of private equity structures on the accounting and reporting, the importance of allocations and allocation rules, the reasons of their existence and the impact on investor reports of getting them wrong, highlighting some neglected processes (e.g. rebalancing, partner transfers) and common mistakes to some essential guidance and best practice of carried interest modelling, The Advanced Guide reveals intimate secrets of these processes previously available only by learning from peers. The Advanced Guide also elaborates on various reporting frameworks (ILPA Quarterly Reporting Best Practice, IPEV Investor Reporting Guidelines) and additional layers of reporting (ESG Reporting) and their specifics. The chapter on private equity valuations provides some invaluable guidance on valuations for different types of instruments such as non-controlling interest, fund interests (for LPs), private loans, not-traded debt and other debt instruments and provides an update on some current discussions such as the unit of account and the use of mathematical models (e.g. Option Pricing Models, Probability-expected Weighted Return Models) in private equity. Performance measurement is also taken to a whole new level discussing not only traditional performance metrics such as IRR and multiples and revealing some major flaws in the IRR as a traditional metric used by private equity, but also suggesting some new advanced performance metrics used by the most sophisticated GPs and LPs. Drawing on extensive experience as a practitioner and instructor, Mariya Stefanova reviews all the details and processes that private equity firms and fund accountants should follow, identifying both current best practices and costly pitfalls to avoid. Replete with up-to-date, user-friendly examples from all main jurisdictions, this guide explains the precise workings and lifecycles of private equity funds; reviews commercial terms; compares structures and their current tax treatments; shows how to read Limited Partnership Agreements; and much more.

**The Return of Ancestral Gods** Mariya Lesiv, 2013-10-01 As Ukraine struggles to find its national identity, modern Ukrainian Pagans offer an alternative vision of the Ukrainian nation. Drawing inspiration from the spiritual life of past millennia, they strive to return to the pre-Christian roots of their ancestors. Since Christianity dominates the spiritual discourse in Ukraine, Pagans are marginalized, and their ideas are perceived as radical. In *The Return of Ancestral Gods*, Mariya Lesiv explores Pagan beliefs and practices in Ukraine and amongst the North American Ukrainian diaspora. Drawing on intensive fieldwork, archival documents, and published sources not available in English, she allows the voices of Pagans to be heard. Paganism in Slavic countries is heavily charged with ethno-nationalist politics, and previous scholarship has mainly focused on this aspect. Lesiv finds it important to consider not only how Paganism is preached but also the way that it is understood on a private level. She shows that many Ukrainians embrace Paganism because of its aesthetic aspects rather than its associated politics and discusses the role that aesthetics may play in the further development of Ukrainian Paganism. Paganism in Eastern Europe remains underrepresented within Pagan studies, and this work helps to fill that gap.

Extensive comparative references to various forms of Western Paganism allows English-speaking readers to better understand the world of Ukrainian Pagans.

Walking Next To Cancer Mariya A. Taneva,2018-10-15 In May of 2015, a holistic lifestyle coach is hired to help the post-operative recovery of a successful tough-as-nails business woman determined to defeat cancer with the same aggressive strong-willed determination that had served her so well this far. But what soon becomes clear is that much of “Jocelyn’s” success has been driven by internal hurt and emotional dysfunction and that what had once passed for happiness and peace of mind was, in Jocelyn’s case, predicated on dark unresolved issues. While her past experiences had forged Jocelyn into a “success” they are now getting in the way of her recovery. At war with herself, she is driven to compete with everyone around her. Unfortunately, the tactics and strategies that have served her so well in business are impotent when matched against a dis-ease like cancer, and so Jocelyn slowly and inexorably gives up ground in a fight for the first and last time in her life. Walking Next to Cancer is a clarion call for us to look within and resolves the issues that are constraining us and eroding our internal resources.
