Vox Populi William O'Shaughnessy, 2010-12-01 Vox Populi is the long-awaited fourth collection of interviews, editorials, essays, observations and keen insight from legendary New York broadcaster William O'Shaughnessy. With this inspiring new anthology, Bill is back in a big way, offering compelling dialogue and opinion on timely issues and current events in politics, media, the arts and popular culture. A masterful interviewer, O'Shaughnessy goes one-on-one with Barbara Taylor Bradford, Steve Forbes, Joe Califano and a colorful band of townie characters from Westchester – the Golden Apple. Broadcasting for five decades from what the Wall Street Journal hailed as “the quintessential community station in America,” his thoughtful and muscular commentaries have been widely praised in all the important journals in the land. A self-styled First Amendment “voluptuary,” O'Shaughnessy is a stellar defender of Free Speech, having devoted the good part of fifty years to fighting censorship and government intrusion from his influential perch in the heart of the Eastern Establishment. He's the one they roll out when the likes of Howard Stern, Bob Grant and Imus get in a jam. Colorful national figures and beguiling “townies” abound in Vox Populi which is also laden with exquisitely beautiful eulogies and tributes to his departed friends Tim Russert, Wellington Mara, Robert Merrill and Ossie Davis. And, as in every Bill O'Shaughnessy book, there is stunning and powerful wisdom and brilliant observations from Governor Mario Cuomo whom he so admires. The great American historian David McCullough observed: “I always look forward to reading the history of our times Bill O'Shaughnessy has written.” O'Shaughnessy is an authentic American voice.

History of Modern Psychology C. G. Jung, 2020-11-03 Jung's lectures on the history of psychology—in English for the first time Between 1933 and 1941, C. G. Jung delivered a series of public lectures at the Swiss Federal Institute of Technology (ETH) in Zurich. Intended for a general audience, these lectures addressed a broad range of topics, from dream analysis to yoga and meditation. Here for the first time in English are Jung's lectures on the history of modern psychology from the Enlightenment to his own time,

delivered in the fall and winter of 1933–34. In these inaugural lectures, Jung emphasizes the development of concepts of the unconscious and offers a comparative study of movements in French, German, British, and American thought. He also gives detailed analyses of Justinus Kerner’s *The Seeress of Prevorst* and Théodore Flournoy’s *From India to the Planet Mars*. These lectures present the history of psychology from the perspective of one of the field’s most legendary figures. They provide a unique opportunity to encounter Jung speaking for specialists and nonspecialists alike and are the primary source for understanding his late work. Featuring cross-references to the Jung canon and explanations of concepts and terminology, *History of Modern Psychology* painstakingly reconstructs and translates these lectures from manuscripts, summaries, and recently recovered shorthand notes of attendees. It is the first volume of a series that will make the ETH lectures available in their entirety to English readers.

Markan Typology Jonathan Rivett Robinson,2022-11-17 Responding to the belief that typology was a later development of the early church, and not applicable to the earliest canonical Gospel, Jonathan Robinson stresses that typology has deep Jewish roots, and that typological modes of thought were a significant part of the Gospel's historical and cultural background. He brings this insight to bear on four of the most dramatic miracles in Mark's Gospel, discovering a surprisingly consistent typological approach. Essential to Robinson's argument is the discovery of distinctive words and phrases taken from the Septuagint, that serve as unique indicators of Mark's intent to refer back to miracles from the Jewish scriptures, pointing to influence from Jonah, David, Elisha and Moses. These references in turn provide insight into Mark's Christology, revealing that Mark presents Jesus as both the fulfilment of scriptural human types and as assuming the narrative form of Israel's God. Robinson argues that rather than imposing categories extracted from earlier Jewish literature like “divine identity” and “exalted human figures”, Mark should be allowed to speak on its own terms and with its own unique voice.
