**Marvin Rosenberg**

Behind a Mask of Madness Marian Vanhorn, 2009-07 She heard his footsteps as he came up the hall, and wondered why he was back so soon. He walked into the room, over to the bed, dropped onto it with a deep groan and said, I can sleep now. I've just killed Paul. A small town in mid-America is shocked when its most successful merchant commits murder. His daughter tells her father's story as she lived it at age thirteen. A true story, with documented accounts, woven into a quaint but chilling account of a family's beginning and descent into fear and murder...

**State of Madness** Rebecca Reich, 2018-03-13 What madness meant was a fiercely contested question in Soviet society. State of Madness examines the politically fraught collision between psychiatric and literary discourses in the years after Joseph Stalin's death. State psychiatrists deployed set narratives of mental illness to pathologize dissenting politics and art. Dissidents such as Aleksandr Vol'pin, Vladimir Bukovskii, and Semen Gluzman responded by highlighting a pernicious overlap between those narratives and their life stories. The state, they suggested in their own psychiatrically themed texts, had crafted an idealized view of reality that itself resembled a pathological work of art. In their unsanctioned poetry and prose, the writers Joseph Brodsky, Andrei Siniavskii, and Venedikt Erofeev similarly engaged with psychiatric discourse to probe where creativity ended and insanity began. Together, these dissenters cast themselves as psychiatrists to a sick society. By challenging psychiatry's right to declare them or what they wrote insane, dissenters exposed as a self-serving fiction the state's renewed claims to rationality and modernity in the post-Stalin years. They were, as they observed, like the child who breaks the spell of collective delusion in Hans Christian Andersen's story The Emperor's New Clothes. In a society where normality means

insisting that the naked monarch is clothed, it is the truth-teller who is pathologized. Situating literature's encounter with psychiatry at the center of a wider struggle over authority and power, this bold interdisciplinary study will appeal to literary specialists; historians of culture, science, and medicine; and scholars and students of the Soviet Union and its legacy for Russia today.

*Madness, Masks, and Laughter* Rupert D. V. Glasgow, 1995 *Madness, Masks, and Laughter: An Essay on Comedy* is an exploration of narrative and dramatic comedy as a laughter-inducing phenomenon. The theatrical metaphors of mask, appearance, and illusion are used as structural linchpins in an attempt to categorize the many and extremely varied manifestations of comedy and to find out what they may have in common with one another. As this reliance on metaphor suggests, the purpose is less to produce The Truth about comedy than to look at how it is related to our understanding of the world and to ways of understanding our understanding. Previous theories of comedy or laughter (such as those advanced by Hobbes, Kant, Hegel, Schopenhauer, Bergson, Freud, and Bakhtin) as well as more general philosophical considerations are discussed insofar as they shed light on this approach. The limitations of the metaphors themselves mean that sight is never lost of the deep-seated ambiguity that has made laughter so notoriously difficult to pin down in the past. The first half of the volume focuses in particular on traditional comic masks and the pleasures of repetition and recognition, on the comedy of imposture, disguise, and deception, on dramatic and verbal irony, on social and theatrical role-playing and the comic possibilities of plays-within-plays and metatheatre, as well as on the clichés, puns, witticisms, and torrents of gibberish which betray that language itself may be understood as a sort of mask. The second half of the book moves to the other side of the footlights to show how the spectators themselves, identifying with the comic spectacle, may be induced to drop their own roles and postures, laughter here operating as

something akin to a ventilatory release from the pressures of social or cognitive performance. Here the essay examines the subversive madness inherent in comedy, its displaced anti-authoritarianism, as well as the violence, sexuality, and bodily grotesqueness it may bring to light. The structural tensions in this broadly Hobbesian or Freudian model of a social mask concealing an anti-social self are reflected in comedy's own ambivalences, and emerge especially in the ambiguous concepts of madness and folly, which may be either celebrated as festive fun or derided as sinfulness. The study concludes by considering the ways in which nonsense and the grotesque may infringe our cognitive limitations, here extending the distinction between appearance and reality to a metaphysical level which is nonetheless prey to unresolvable ambiguities. The scope of the comic material ranges over time from Aristophanes to Martin Amis, from Boccaccio, Chaucer, Rabelais, and Shakespeare to Oscar Wilde, Joe Orton, John Barth, and Philip Roth. Alongside mainly Old Greek, Italian, French, Irish, English, and American examples, a number of relatively little-known German plays (by Grabbe, Tieck, Buchner, and others) are also taken into consideration.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. **Creating Communities** Nourit Melcer-Padon,2018-06-30 How does historical reality interrelate with fiction? And how much are readers themselves involved in the workings of fictional literature? With innovative interpretations of various well-known texts, Nourit Melcer-Padon introduces the use of literary masks and illustrates literature's engagement of its readers' ethical judgement. She

promotes a new perception of literary theory and of connections between thinkers such as Iser, Castoriadis, Sartre, Jung and Neumann. The book offers a unique view on the role of the community in post-existentialist modern cultural reality by emphasizing the importance of ritual practices in literature as a cultural manifestation.

**Phenomenology and the Non-Human Animal** Corinne Painter, Christian Lotz, 2007-07-26 The question of the relation between human and non-human animals in theoretical, ethical and political regards has become a prominent topic within the philosophical debates of the last two decades. This volume explores in substantial ways how phenomenology can contribute to these debates. **Yabbing and Wording** Izuu Nwankw?, 2021-12-31 Yabbing and Wording: The artistry of Nigerian stand-up comedy is a long-overdue academic interrogation of the novel stand-up practice in Nigeria as performance. 'Yabbing' comes from the Nigerian Pidgin English verb, 'yab', which means a satirical jibe thrown at individuals, groups or institutions. Nigeria's Fela Anikulapo-Kuti used this effectively in his recorded and live music performances against successive military regimes. 'Wording' derives from the English term 'word' and refers to a game in which parties exchange insults. It is a modern-day coinage for traditional forms of joking that existed across Nigeria and elsewhere in precolonial times. In this book, Nwankw? identifies 'yabbing' and 'wording' as outstanding indigenous elements within contemporary stand-up practice in Nigeria. On the one hand, these local joking patterns inform how comedians fashion their narratives. On the other, they mitigate offence and how the audience responds to ridicule in joke performance venues. The book's strength is its academic perspective and the inclusion of as many examples of stand-up and comedians as possible, to give a panoramic view of the practice. It also traces the historical path of the development of professional stand-up comedy in Nigeria. Its closing chapters detail the global outreach of Nigerian stand-up while also anticipating its future developments.

**Madness, Language, Literature** Michel Foucault, 2023-04-18 Newly published lectures by Foucault on madness, literature, and structuralism. Perceiving an enigmatic relationship between madness, language, and literature, French philosopher Michel Foucault developed ideas during the 1960s that are less explicit in his later, more well-known writings. Collected here, these previously unpublished texts reveal a Foucault who undertakes an analysis of language and experience detached from their historical constraints. Three issues predominate: the experience of madness

across societies; madness and language in Artaud, Roussel, and Baroque theater; and structuralist literary criticism. Not only do these texts pursue concepts unique to this period such as the “extra-linguistic,” but they also reveal a far more complex relationship between structuralism and Foucault than has typically been acknowledged.

**Revealing Masks** W. Anthony Sheppard, 2001-02-01 W. Anthony Sheppard considers a wide-ranging constellation of important musical works in this fascinating exploration of ritualized performance in twentieth-century music. *Revealing Masks* uncovers the range of political, didactic, and aesthetic intents that inspired the creators of modernist music theater. Sheppard is especially interested in the use of the exotic in techniques of masking and stylization, identifying Japanese Noh, medieval Christian drama, and ancient Greek theater as the most prominent exotic models for the creation of total theater. Drawing on an extraordinarily diverse—and in some instances, little-known—range of music theater pieces, Sheppard cites the work of Igor Stravinsky, Benjamin Britten, Arthur Honegger, Peter Maxwell Davies, Harry Partch, and Leonard Bernstein, as well as Andrew Lloyd Webber and Madonna. Artists in literature, theater, and dance—such as William Butler Yeats, Paul Claudel, Bertolt Brecht, Isadora Duncan, Ida Rubenstein, and Edward Gordon Craig—also play a significant role in this study. Sheppard poses challenging questions that will interest readers beyond those in the field of music scholarship. For example, what is the effect on the audience and the performers of depersonalizing ritual elements? Does borrowing from foreign cultures inevitably amount to a kind of predatory appropriation? *Revealing Masks* shows that compositional concerns and cultural themes manifested in music theater are central to the history of

twentieth-century Euro-American music, drama, and dance.

William Shakespeare: A Critical Study Georg Brandes, 2022-07-20 This work is one of the most influential critical studies of Shakespeare by a non-English critic written originally in Danish. *Transcendence and Film* David P. Nichols, 2019-05-23 In this book, ten experts in philosophy of film explore the importance of transcendence for cinema as an art form in the films of the great directors, David Cronenberg, Karl Theodor Dreyer, Federico Fellini, Werner Herzog, Stanley Kubrick, David Lynch, Terrence Malick, Yasujiro Ozu, and Martin Scorsese.

**The Works of William Shakespeare** William Shakespeare, 1904

The Gate of Light Adir Cohen, 1994 Anyone wishing to understand Korczak's philosophy of education must become acquainted with the secrets of the educator's life - full of hesitation and crisis, pain and sacrifice, transcendence and purity. His was a life of great love, sanctified by a brutal death, which he proudly faced.

The Unmasking of Drama Jonathan Baldo, 1996 From Hamlet to Coriolanus and Timon of Athens, Shakespeare's tragedies constitute the most strenuous attempts within English Renaissance tragedy to unmask its representational practices and to penetrate its own ordering principles. Baldo evaluates the theater's economical means of representation, its heavy reliance on the authority of generalizing, and its assumption of a translatability between visual and verbal signs.

In Search of Madness R. Walter Heinrichs, 2001-03-29 Over the last two decades, scientific articles on schizophrenia have doubled in number, and prophecies of breakthrough have appeared and receded. The result is a scattered and confusing mass of evidence that is difficult to evaluate.

How much progress has really been made? Are the neurological causes of madness truly in sight? This book evaluates the progress of schizophrenia science by summarizing what is known about how patients with the illness differ from healthy people. The tools of meta-analysis are first explained and then employed to make the strength and consistency of these differences explicit. Beginning with the study of symptoms, then moving through the search for objective disease markers, findings on the cognitive functions, structure, physiology, chemistry, and development of the brain, this book is a journey into the enigma of madness and its science. What emerges is an illness that reveals itself most strongly in thought processes, not biology. As evidence actually becomes weaker and harder to reproduce as research moves from mind to molecule, the harvest of dazzling research techniques turns out to be modest or inconsistent. Schizophrenia is an anomaly at the frontier of mind and brain, but *In Search of Madness* points the way to its solution.

The Monster in the Garden Luke Morgan, 2015-10-16 Monsters, grotesque creatures, and giants were frequently depicted in Italian Renaissance landscape design, yet they have rarely been studied. Their ubiquity indicates that gardens of the period conveyed darker, more disturbing themes than has been acknowledged. In *The Monster in the Garden*, Luke Morgan argues that the monster is a key figure in Renaissance culture. Monsters were ciphers for contemporary anxieties about normative social life and identity. Drawing on sixteenth-century medical, legal, and scientific texts, as well as recent scholarship on monstrosity, abnormality, and difference in early modern Europe, he considers the garden within a broader framework of inquiry. Developing a new conceptual model of Renaissance landscape design, Morgan argues that the presence of monsters was not incidental but an essential feature of the experience of gardens.
