Hiroshige 100 Famous Views of Edo Cristina Berna, Eric Thomsen, Come on the journey from Edo, modern day Tokyo, to Kyoto, as experienced by Utagawa Hiroshige in, when he travelled the road to participate in an important procession in 1832. There were 53 post stations along this important road, apart from the start and terminus, in all 55 prints, which are all here in the order from Edo to Kyoto. This was the most popular print series ever made in Japan. It was even more popular than Hokusai's series Thirty-six Views of Mount Fuji, which had been recently published and which had influenced Hiroshige tremendously (ISBN 9782919787159 as hard cover). It is possible to travel the same road today and some villages are still looking quite like they did back then. The postal stations were constructed between 1601 and 1624.

Hiroshige and artworks Michail Uspensky, 2022-12-06 The art of the Ukiyo-e reflected the artistic expression of an isolated civilisation which, when it became accessible to the West, significantly influenced a number of European artists. The three masters of Ukiyo-e, Hokusai, Utamaro and Hiroshige, are united here for the first time to create a true reference on Japanese art. The three masters rank highly among the most famous Japanese artistic productions of all time. This new title of the Prestige of Art collection will be a reference for art students and Japanese art lovers.

The Edward Burr Van Vleck Collection of Japanese Prints Elvehjem Museum of Art, 1990 The Van Vleck collection of Japanese woodblock prints is one of the Elvehjem Museum of Art's (now the Chazen Museum of Art) most important collections of more than 3700 prints collected by Van Vleck between 1910 and 1943, including the prints that Frank Lloyd Wright collected in Japan in the 1920s. This copiously illustrated catalog is the culmination of several years of intensive study and documentation, and is the first step in making this impressive collection accessible to museum visitors and scholars. The Cultural Context of Aging Jay Sokolovsky, 2020-06-09 From the laughing clubs of India and robotic granny minders of Japan to the Flexsecurity system of Denmark and the elderscapes of Florida, experts in this collection bring readers cutting-edge and future-focused approaches to our aging population worldwide. In this fourth edition of an award-winning text on the consequences of global aging, a team of expert anthropologists and other social scientists presents the issues and possible solutions as our population over age 60 rises to double that of the year 2000. Chapters describe how the consequences of global aging will influence life in the 21st century in relation to biological limits on the human life span, cultural construction of the life cycle, generational exchange and kinship, makeup of households and community, and attitudes toward disability and death. This completely revised edition includes 20 new chapters covering China, Japan, Denmark, India, West and East Africa, Indonesia, Mexico, Peru, indigenous Amazonia, rural Italy, and the ethnic landscape of the United States. A popular feature is an integrated set of web book chapters listed in the contents, discussed in chapter introductions, and available on the book's web site.

Africa Water Atlas United Nations Environment Programme, 2010 This Africa Water Atlas is a visual account of Africa's endowment and use of water resources, revealed through 224 maps and 104 satellite images as well as some 500 graphics, hundreds of compelling photos plus a brief profile of the water situation in every country. These visual elements vividly illustrate a succinct narrative describing and analysing Africa's water issues and exemplifying them through the judicious use of case studies. The Atlas tells the paradoxical story of a continent with adequate renewable water resources, but unequal access because the water is either abundant or scarce depending on the season or the place. It explores the opportunities to develop Africa's untapped water resources and human capacities to deliver safe drinking water and sanitation services to achieve the water-related Millennium Development Goals, As well as hydropower and irrigation services that help support livelihoods and boost economic development.

Categories, Creation and Cognition in Vaiśeṣika Philosophy ShashiPrabha Kumar, 2019-05-15 The proposed book presents an overview of select theories in the classical Vaiśeṣika system of Indian philosophy, such as the concept of categories, creation and existence, atomic theory, consciousness and cognition. It also expounds in detail the concept of dharma, the idea of the highest good and expert testimony as a valid means of knowing in Vaiśeṣika thought. Some of the major themes discussed are the religious inclination of Vaiśeṣika thought towards Pasupata Saivism, the affiliation of the Vaiśeṣika System to the basic foundations of Indian philosophical thought, namely Veda and Yoga, and their insights into science, hermeneutics and metaphysics. In addition, this book includes recent Sanskrit commentaries on key Vaiśeṣika texts and provides a glimpse of Vaiśeṣika studies across the world. Overall, this book enunciates the Vaiśeṣika view from original sources and is an important work for Vaiśeṣika studies in current times for serious students as well as researchers.

The Penguin Book of Modern African Poetry Gerald Moore, 2007-08-30 'Poetry, always foremost of the arts in traditional Africa, has continued to compete for primacy against the newer forms of prose fiction and theatre drama.' This wonderfully comprehensive anthology of African poetry has been expanded to include ninety-nine poets from twenty-seven countries, thirty-one of whom appear for the first time. Equally wide-ranging is the content of the poetry itself: war songs and political protests jostle with poems about human love, African nature and the surprises that life offers; all are represented in these rich and colourful pages.

Hiroshige Edmond De Goncourt, Mikhail Vladimirovich Uspenskii, 2008 L'art de l'Ukiyo-e reflète l'expression artistique d'une civilisation qui influence nombre d'artistes européens. Les trois maîtres de l'Ukiyo-e, Hokusai, Utamaro et Hiroshige, sont réunis pour créer un ouvrage de référence de l'art japonais et de l'art de l'estampe.

Hiroshige 100 vues célèbres d'Edo Cristina Berna, Eric Thomsen, Visitez Edo, le Tokyo moderne, tel que vécu par Utagawa Hiroshige dans ce merveilleux guide touristique des années 1850. Découvrez Edo comme les Japonais l'aimaient, une ville sophistiquée accueillant une riche élite de daimyō, des dirigeants locaux qui devaient régulièrement passer du temps loin de leurs terres, à Edo, où le shogun pouvait les surveiller. Les 100 vues célèbres d'Edo étaient l'une des séries d'impressions populaires réalisées au Japon, comme la série de Hokusai Trente-six vues du mont Fuji, qui avait été publiée plus tôt dans les années 1830 et qui a énormément influencé Hiroshige (ISBN de l'auteur 978-1-956215-57-1). Mais bien plus importante est l'influence des 100 vues célèbres d'Edo sur les impressionnistes européens comme Van Gogh (ISBN de l'auteur 9781956773-67-5), Degas, Manet et Monet. Hiroshige a impressionné par les éléments recadrés pour créer la mise au point et par son format horizontal.

Hiroshige. Hundert ansichten von edo Mikhail Uspensky, 2016-10-24 Wenn das Land der aufgehenden Sonne in einem der häufigen Erdbeben für immer im Meer versinken sollte, würde es durch den magischen Pinsel Hiroshiges für uns dennoch fortleben. Wenn wir seine Landschaften betrachten, trägt uns unsere Fantasie in ein Land der Regenschauer und der Sonnenuntergänge, in ein Märchenreich, in dem in tausend Prismen zerborstene Regenbogen auf die Erde fallen und in dem Wasser sanft in Richtung Horizont fließt. Hiroshige gilt als der letzte große Meister der Kunst des Ukiyo-e. Er setzte die Üppigkeit der Farben ein, um dem Betrachter in seinen sorgfältigen Abbildungen berühmter Orte eine glänzende Vision Japans zu präsentieren.
